

CONTENTS

Preface to the Fifth Edition	viii
Acknowledgements	ix

1 EYELIDS 1

Applied anatomy	2
Disorders of lashes	3
Allergic disorders	6
Infections	7
Chronic marginal blepharitis	9
Benign nodules and cysts	13
Benign tumours	16
Malignant tumours	20
Ectropion	27
Entropion	30
Ptosis	32
Miscellaneous acquired disorders	39
Miscellaneous congenital disorders	40

2 LACRIMAL DRAINAGE SYSTEM 43

Introduction	44
Evaluation of the watering eye	45
Obstruction of lacrimal drainage	48
Infections of lacrimal passages	53

3 THE DRY EYE 56

4 CONJUNCTIVA 62

Introduction	63
Bacterial infections	66
Viral infections	68
Chlamydial infections	70
Allergic inflammations	73
Blistering mucocutaneous diseases	77
Miscellaneous inflammations	80
Degenerations	82
Pigmented lesions	84
Squamous tumours	89
Miscellaneous tumours	92

5 CORNEA 95

Introduction	96
Microbial keratitis	102
Viral keratitis	107
Peripheral corneal disorders	114
Corneal degenerations	120
Corneal dystrophies	124
Corneal ectasias	131
Neurokeratopathies	135
Recurrent corneal erosion syndrome	136
Drug-induced keratopathies	137
Metabolic keratopathies	138
Congenital corneal anomalies	139
Contact lenses	141

6 CORNEAL AND REFRACTIVE SURGERY 144

Keratoplasty	145
Keratoprotheses	149
Refractive surgery	150

7 EPISCLERA AND SCLERA 153

Applied anatomy	154
Episcleritis	154
Scleritis	155
Scleral discoloration	160

8 LENS 162

Introduction	163
Acquired cataract	163
Management of age-related cataract	168
Congenital cataract	183
Anomalies of lens shape	188
Ectopia lentis	189

9 GLAUCOMA 192

Introduction	193
Tonometry	196
Gonioscopy	198
The optic nerve head	202
Perimetry	209

- Ocular hypertension 217
- Primary open-angle glaucoma 218
- Normal-tension glaucoma 222
- Primary angle-closure glaucoma 223
- Pseudoexfoliative glaucoma 229
- Pigmentary glaucoma 231
- Neovascular glaucoma 233
- Inflammatory glaucoma 236
- Lens-related glaucoma 239
- Traumatic glaucoma 240
- Iridocorneal endothelial syndrome 241
- Miscellaneous secondary glaucomas 243
- Primary congenital glaucoma 245
- Iridocorneal dysgenesis 248
- Glaucoma in phacomatoses 252
- Anti-glaucoma drugs 253
- Laser therapy 256
- Trabeculectomy 259
- Non-penetrating filtration surgery 267
- Adjunctive antimetabolites 267
- Artificial drainage shunts 268

10 UVEITIS 270

- Introduction 271
- Treatment 276
- Uveitis in spondylarthropathies 278
- Uveitis in juvenile arthritis 279
- Uveitis in inflammatory bowel disease 280
- Uveitis in nephritis 280
- Uveitis in non-infectious multi-system diseases 281
- Viral uveitis 287
- Parasitic uveitis 293
- Fungal uveitis 298
- Mycobacterial uveitis 301
- Spirochaetal uveitis 303
- Common specific uveitis entities 304
- Idiopathic multifocal white dot syndromes 308

11 INTRAOCULAR TUMOURS 317

- Iris tumours 318
- Iris cysts 320
- Ciliary body tumours 322
- Choroidal tumours 323
- Lymphoma 334
- Retinal and optic nerve head tumours 334
- Tumours of the retinal pigment epithelium 345

12 RETINAL DETACHMENT 348

- Introduction 349
- Examination techniques 352
- Pathogenesis of rhegmatogenous retinal detachment 359
- Clinical features of retinal detachment 365
- Differential diagnosis of retinal detachment 370
- Prophylaxis of rhegmatogenous retinal detachment 371
- Standard retinal surgery 375
- Pars plana vitrectomy 383

13 ACQUIRED MACULAR DISORDERS 389

- Introduction 390
- Fundus angiography 393
- Laser photocoagulation 402
- Age-related macular degeneration 405
- Age-related macular hole 418
- Central serous retinopathy 421
- Cystoid macular oedema 423
- Myopic maculopathy 425
- Macular epiretinal membrane 427
- Angioid streaks 428
- Choroidal folds 430
- Drug-induced maculopathies 431
- Miscellaneous maculopathies 434

14 RETINAL VASCULAR DISEASE 438

- Diabetic retinopathy 439
- Retinal vein occlusion 455
- Renal artery occlusion 462
- Ocular ischaemic syndrome 467
- Hypertensive retinopathy 468
- Sickle-cell retinopathy 470
- Retinopathy of prematurity 473
- Retinal artery macroaneurysm 478
- Primary retinal telangiectasia 479
- Radiation retinopathy 484
- Purtscher retinopathy 484
- Retinopathy in blood dyscrasias 485

15 HEREDITARY FUNDUS DYSTROPHIES 487

- Special investigations 488
- Retinal dystrophies 491
- Choroidal dystrophies 505
- Vitreoretinopathies 508
- Albinism 513
- Cherry-red spot at macula 515

16 STRABISMUS 516

- Introduction 517
- Functional consequences of strabismus 522
- Clinical evaluation 526
- Esotropia 541
- Exotropia 546
- Special syndromes 548
- Alphabet patterns 551
- Principles of surgery 552

17 ORBIT 557

- Introduction 558
- Thyroid eye disease 563
- Infections 567
- Inflammatory disease 570
- Vascular malformations 573
- Cystic lesions 575
- Tumours 577
- Craniosynostoses 588

18 NEURO-OPHTHALMOLOGY 590

- Neuroimaging 591
- Optic nerve 596
- Raised intracranial pressure 609
- Congenital optic nerve anomalies with neurological associations 613
- Pupillary reactions 622
- Nystagmus 626
- Supranuclear disorders of ocular motility 628
- Third nerve 631
- Fourth nerve 635
- Sixth nerve 636
- Chiasm 639
- Optic tract 646
- Optic radiations 647
- Striate cortex 648
- Higher visual function 649
- Migraine 649
- Intracranial aneurysms 651
- Myasthenia gravis 653
- Chronic progressive external ophthalmoplegia 654
- Essential blepharospasm 654
- Neurofibromatosis 655

19 TRAUMA 658

- Eyelid trauma 659
- Orbital fractures 661
- Trauma to the globe 665
- Chemical injuries 677

20 SYSTEMIC DISEASES 681**INDEX 721**
