

OBSAH

Úvod, Introduction	1
Informační problémy, digitální gramotnost - David BAWDEN	2
Information problems, digital literacy solutions - David BAWDEN	2
1. Abstract	2
2. The new information environment	2
3. Information problems and paradoxes	3
4. Digital literacy	4
5. Some final thoughts	6
6. References	6
Informační chování členů vědecké komunity fyziky vysokých energií - Tamar SADEH	8
Information-Seeking Behavior in the High-Energy Physics Community - Tamar SADEH	8
1. Abstract	8
2. Introduction	9
3. Methodology	10
4. Researchers' Preferred Information Resources	11
5. Researchers' Information-Seeking Process	12
6. Researchers' Evaluation of Information Resources	13
7. Coverage Offered by an Information Resource	13
8. Means of Finding the Information	15
9. Effort Required to Find and Obtain Information	15
10. Related Services Offered by an Information Resource	16
11. HEP Researchers' Enthusiasm for Their Information Resources	16
12. Conclusions	17
13. Acknowledgements	17
14. References	17
Vizuální a fyzický interakční design informačních služeb - Werner A. KOENIG	19
Visual and physical interaction design for information services - Werner A. KOENIG	19
1. Abstract	19
2. Motivation	19
3. Designing visual information-seeking systems	20
3.1 Support various ways of formulating an information need	20
3.2 Integrate analytical and browsing oriented ways of exploration	20
3.3 Provide views to different dimensions of an information space	20
3.4 Make search a pleasurable experience	21
4. Physical Interaction for a Blended Library	21
5. Conclusion	23
6. References	23

RSS dávky a informačné pret'aženie - Ján GONDOL.....	25
RSS feeds and information overload - Ján GONDOL.....	25
1. Abstract	25
2. Introduction	25
3. RSS feeds as supplement to e-mail.....	26
4. Techniques to reduce overload	27
5. Google Reader	27
6. Specialized tools.....	28
7. Conclusion	29
8. References.....	29
Relevancia vo svetle interaktívnej revolúcie - Mirka GREŠKOVÁ a Jela STEINEROVÁ	32
Relevance in the light of interactive revolution - Mirka GREŠKOVÁ a Jela STEINEROVÁ	32
1. Abstract	32
2. Introduction	33
3. Principles of interaction - driving forces of web 2.0 and science 2.0.....	33
4. Interactive models of information use.....	34
5. Human information behavior in electronic environment.....	34
6. Relevance assessment research.....	35
7. Impact of interactive revolution on the information ecology concept	36
8. Research on interaction of human with information search agent	37
8.1 Methods	37
8.2 Generalized model of interaction with search agent	38
8.3 Recommendations for performance improvements	39
9. Conclusion	42
10. References	42
Design informačného systému v kontextu sociálnej informatiky - Michal LORENZ.....	44
Design of Information System in Context of Social Informatics - Michal LORENZ	44
1. Abstract	44
2. Introduction	44
3. Productivity paradox.....	44
4. Reasons of failure of information systems	45
5. Social informatics	46
6. Context in HCI.....	47
6.1 Situated action models.....	47
6.2 Activity theory	48
6.3 Distributed cognition	48
6.4 Social informatics	48

7. Methods of social contextual design	49
7.1 Contextual inquiry	49
7.2 Socio-technical walkthrough	49
7.3 Ethnographic analysis of cooperative interaction	49
7.4 Social design of computing	50
8. Conclusion	50
9. References	51
Sémiotika v kontextu testování použitelnosti - Jan BREJCHA	53
Semiotics in the context of usability study - Jan BREJCHA	53
1. Abstract	53
2. Introduction	53
3. Evaluation approaches and methods	54
4. Research problem and future work	55
5. Final remarks	55
6. References	55
Spojení problematiky efektivního čtení a HCI - Richard PAPIK a Barbora DROBÍKOVÁ	57
Relationship between effective reading and Human-computer interaction -	
Richard PAPIK a Barbora DROBÍKOVÁ	57
1. Abstract	57
2. Introduction	58
3. HCI and cognitive processes	58
3.1 Reading generally	59
3.1.2. Second model - cybernetic reading model	60
3.2 Ergonomics and HCI	62
4. Conclusion	65
5. References	65
Role mediátora v procesu vytváření grafických rozhraní - Michal HOŘAVA	67
The role of a mediator in the process of creating graphical interfaces - Michal HOŘAVA	67
1. Abstract:	67
2. Introduction	67
3. Do attractive products work better?	68
4. Human-Computer Interaction is an interdisciplinary field	68
5. How to communicate design?	69
6. Transformer	70
7. Another alternative - Mediator	70
8. Design Communicator	70
9. Conclusion - Points for discussion	71
10. References	71
