<b>Foreword</b>	
Hrabánková M. ....	5
<b>Evaluating landscape fragmentation within the land-use planning</b>	
Anděl P. ....	6
<b>Removal of heavy metals and some risk elements in constructed wetlands for wastewater treatment</b>	
Kröpfelová L., Vymazal J., Švehla J., Chrastný V. ....	14
<b>Assesment of additional geofactors in Zdíkov - Bohemian forest territory in connection with land use changes monitoring and impact of these changes on the landscape stability</b>	
Škoda S., Váchal J. ....	21
<b>Variant solution of the „Československé armády“ stonepit lake</b>	
Pecharová E., Svoboda I. ....	27
<b>Constructed wetlands for wastewater treatment - Czech Republic experience</b>	
Vymazal J., Kröpfelová L. ....	38
<b>Specifics of landscape structure development in Sokolov basin</b>	
Charvátová E. ....	46
<b>500 years of the transformation of the Elbe river valley landscape and the national stud Kladruby nad Labem</b>	
Trpáková I., Trpák P. ....	54
<b>Evaluation of biological recultivation of extracted sand pit in long term period</b>	
Ondr P. ....	65
<b>Mlýnský potok restoration: 5-year evaluation</b>	
Procházka J., Pechar L., Hakrová P. ....	71
<b>Species richness of agrophytocenoses in selected agricultural companies with conventional and organic farming systems</b>	
Tyšer L., Hamouz P., Nováková K. ....	80

<b>Suggestion of software system and robust statistical method for evaluation of ecological state for biomonitoring of surface water</b> Jarkovský J., Dušek L., Pavliš P. . . . .	85
<b>New method for the Production Potential of farmland determination and evaluation</b> Váchalová R., Váchal J., Pártlová P. . . . .	94
<b>Solar energy dissipation on the tile drained and undrained localities of Dehtáře catchment in the crystalline complex of the Czech Republic</b> Kvítek T., Duffková R. . . . .	103
<b>Analyzing land use changes of intensively utilized agricultural landscape - an example from eastern Czech Republic</b> Skaloš J. . . . .	111
<b>Sociological aspects of cormorant overpopulation (view of tourists and visitors, local population and fishermen) in Třeboňsko landscape protected area and biosphere reserve (the Czech Republic)</b> Boháč J., Šípová M., Roudnická M. . . . .	130
<b>Strategic Programs of Rural Regions' Development in the Context of Environmental Management Systems</b> Houdek K. . . . .	136
<b>Production and ecological value of the mountain meadow depending on the kind of fertilization</b> Kasperczyk M., Szewczyk W., Kacorzyk P. . . . .	141
<b>The influence of different soil vegetation covers onto the volumetric soil weight in different ways of setting land aside</b> Brant V., Pivec J., Neckář K., Venclová V. . . . .	146
<b>Locally ruderalized pastures in national parks of Slovakia</b> Novák J., Kostka R., Slamka P. . . . .	153
