

# CONTENTS

## PART I:

Lesson 1	Human Body .....	9
	Nouns of Greek and Latin Origin .....	12
Lesson 2	Stomatology .....	14
	Purpose .....	16
Lesson 3	Biochemistry .....	17
	Instruments and Containers .....	19
	Quantity .....	20
Lesson 4	Cell .....	22
	Mathematical Symbols and Operations .....	25
Lesson 5	Tissues .....	27
	Measurement I .....	30
Lesson 6	Blood .....	32
	Shapes and Properties .....	33
Lesson 7	Respiratory System .....	35
	Location .....	36
Lesson 8	Circulatory System .....	39
	Measurement II .....	42
Lesson 9	Digestive System .....	44
	Stating Functions .....	47
Lesson 10	Urinary System .....	49
	Frequency .....	51
	Measurement III .....	51
Lesson 11	Nervous System .....	53
	Histogram .....	55
Lesson 12	Sense Organs .....	57
	Actions in Sequence .....	58
Lesson 13	Infectious Diseases .....	60
	Actions and Results .....	62
Lesson 14	First Aid for Emergences .....	64
	Instructions .....	65
Lesson 15	Medical Examination .....	67
	Method .....	68

	Word Study – Verbs .....	69
	Information Transfer .....	69
Lesson 16	Hospital Care .....	71
	Relative Sequence of Premodifiers .....	74
Lesson 17	National Health Service in Great Britain .....	75
	Comparison and Contrast .....	77
Lesson 18	Medical Genetics .....	79
	Cause and Effect .....	81
<b>PART II:</b>		
	Who Is Who .....	85
	Writing Letters .....	87
	Congress .....	88
	Curriculum Vitae and Resumé .....	92
	How to Write Medical Papers .....	94
<b>APPENDIX:</b>		
	Reproductive system .....	99
	Endocrine System .....	102
	Medical Documentation .....	104
	Some Abbreviations .....	111
	112 False Friends .....	113
VOCABULARY .....		119
BIBLIOGRAPHY .....		145
