I.	Objective of the methodology	7
II.	Description of the methodology	7
1.	INTRODUCTION	7
1.1	Plant genetic resources	7
1.2	Regeneration of genetic resources	8
1.3	Space isolation	8
1.4	Technical isolation	8
1.5	Pollinators	9
2.	METHODOLOGY	9
2.1	Technical isolators	9
2.2	Growing technology	11
2.3	Utilization of the pollinators	13
2.3.1	Honey-bee (<i>Apis mellifera</i> L.)	14
2.3.2	Evaluation of using the honey-bees as pollinators	16
2.3.3	Bumble-bees (<i>Bombus terrestris</i> L., <i>Pyrobombus lapidarius</i> L.)	17
2.3.4	Evaluation of using the bumble-bees as pollinators	18
2.3.5	Conclusion	20
III.	Comparison of a novelty in the procedures	20
IV.	Description of the methodology application	20
V.	References to the related literature	21
V.1.	Literature cited in the text	21
V.2	Further references non-cited in the text	22
VI.	List of publications preceded the methodology	22
VII.	Enclosures	23
