

L. BODLÁK, P. HESSLEROVÁ, K. KŘOVÁKOVÁ, E. PECHAROVÁ

Evaluation of quality of the post-mining reclaimed landscape by means of the landscape functions

V. BUDÍNSKÝ and L. PAROHA

STOP DUST: A communication support for mining permit application at Bilina opencast mine

B. BUSYGIN, I. GARKUSHA, K. SERGIEIEVA

Using the space survey data for fire objects monitoring of the Donetsk coal basin

Z. BZOWSKI, K. BOJARSKÁ

Integrated instrumental analytical system in carboniferous waste rocks monitoring for the non-soil reclamation of coal mine waste dumps

R. CELLA, R. CICCU and S. DESSI

Preparation of artificial substrates for plant growth optimization in environmental restoration

R. CICCU AND C. TODDE

Conversion of old salt-works into a urban park in the city of Cagliari

O. CUDLÍN, M. HAIŠOVÁ, B. MIKLAS, E. PECHAROVÁ

Comparison of different types of spoil heap reclamation from the small mammal biodiversity perspective - preliminary results

NURAY DEMIREL, SEBNEM DUZGUN and MUSTAFA KEMAL EMIL

Landuse change detection in a surface coal mine area using multi-temporal high resolution satellite images

K. DIMITROVSKÝ, I. KUPKA, J. ŠTIBINGER, M. KASL

Categorization processes of landscape rehabilitation affected by mining and activities

V. DIRNER, E. KULOVÁ, A. DOBEŠ

Qualitative analysis of problems associated with waste deposition in underground mine workings

V. DIRNER, E. KULOVÁ, A. DOBEŠ

Impact of mining on the environment

R. S. DIVI

Geostatistical assessment of groundwater and its pollution in Kuwait

A. FARAHMAND, D. MORADKHANI and B. SEDAGHAT

Study of environmental aspects of the Ilmenite concentration plant residues

J. GARCÍA-NAVARRO, A. de GUZMAN, M. CERVANTES

A study on the mix design and fundamental properties of pre-cast concrete artifacts prepared with coarse and fine recycled aggregates

M. GEORGESCU, H. AVRAM, H. BOBAR, L. DUMITRESCU

The risks assessment of Rosia Montana mining project - Romania

M. GHANBARI, M. OSANLOO, Y. AZIMI

Developing a new algorithm for mine closure planning

L. GUO, P. FECKO, Z. HU, S. ZENG, CH. YANG, M. MARSCHALCO , L. ZHOU

Strategic research on China mining closure

D. GUSAT and C. DREBENSTEDT

Thermo-mechanical modelling of surface movements induced by underground coal fires

**M. HAIGH, H. REED, A. FLEGE, M. D'AUCOURT, K. PLAMPING, M. CULLIS,
P. WOODRUFFE**

Effect of planting method on the survival of *Alnus glutinosa*
and *Quercus petraea* saplings in compacted coal-mine spoils, South Wales

A. HEKMAT, M. OSANLOO

Reducing the negative environmental impacts of mining activity in open pit mines
by selecting the efficient block size

H. HERTLING

From deposit modelling to the mine plan engineering guidance in a Greenfield project
for the opening of a lignite open-cast mine during the preparation and development phase

H. HRAJNOHOVA-GILLAROVA, T. KAZMIERSKI, E. PECHAROVA, M. MARTIS

What can offer us reclaimed landscape surrounding future lake Medard?

CHENG LIN-LIN, HU ZHEN-QI

Design of the public participation in mine land reclamation bond system in China

A. ISHIMOV, C. DREBENSTEDT

Mathematical and experimental analysis of the sedimentary processes during hydraulic filling
of tailings

A. ISHIMOV, C. DREBENSTEDT

Use of waste from phosphate processing for soil improvement

A. D. JACOBS, M. HITCH

Experimental mineral carbonation: approaches to accelerate CO₂ sequestration
in mine waste materials

P. JOLAS, B. HOFMANN

Analysis of the planned post-mining landscape of MIBRAG's open-cast mines with regard
to a possible environmental impact of alteration processes in mixed dumps

Z. KÁROVÁ, Z. FRIC, M. MARTIŠ, E. PECHAROVÁ

Does the landscape management influence butterflies?

M. F. KERMANI, F. P. HASSANI, S. HAJ-ZAMANI, I. ISAGON

An investigation into the mechanical properties of gelfill and hydraulic backfill in various
curing temperatures

M. KOVACS, L. TOTH, A. DRAGHICI AND G. GHEORGHE

Analyzing the methods used for optimization of the qualitative parameters
of the waste waters at the mines in the Jiu valley

D. KRATOCHVIL, D. SANGUINETTI, T. MURRAY

Innovative water treatment reduces life cycle costs and contributes to sustainability in mining and power generation

G. A. KUDAIKULOVA, B. R. RAKISHEV, B. A. AITUGULOVA

Ecologically pure drilling muds for the drilling of variable purposes wells

C. KURTULUŞ, A. BOZKURT, H. ENDEŞ

Analysis of ground vibrations from multihole hole blasts

KUN SANG LEE

Effects of permeability heterogeneity on the performance of surfactant-enhanced remediation

G. LEE, C. M. NECULITA, J.W. JUNG, H. SONG, G.J. YIM, S.W. JI

Appropriate reactive mixtures of organic wastes for the treatment of mine drainage in Korea

C. LUPU, I. TOTH, D. TAMAS, E. CHIUZAN, C. TOMESCU, M. MORAR

Recovery and capitalization of methane emitted by the mines in operation-power generating alternative solution and for diminishing the adverse impact over the environment

N. MASUDA and H. UEDA

An analysis on AMD treatment cost in Japan

M. E. MENEGAKI, D. C. KALIAMPAKOS

Landscape impacts in open pit mine design: introducing a new method

A. G. MERMA, L. V. GONZALES and M. L. TOREM

Fundamental aspects of oily waters treatment from the mineral industries by electrolytic techniques

K. MODIS

Spatiotemporal mapping of ground water pollution in a Greek lignite basin, using geostatistics

D. MORADKHANI, B. SEDAGHAT and A. KHODADADI

Environmental assessment of Ni-Cd purification filter cake in IZMDC plants

D. MORADKHANI, B. SEDAGHAT and A. KHODADADI

Decreasing of heavy metal contamination in zinc leach residues

N. MOSAVAT and Z. NALBANTOGLU

Permeation of compacted clay with organic fluids

TOYO HARU NAWA, HIRONOBU NISHI

Sustainability of construction industry - Quality control of fly ash for its application into construction materials

V. ONDRÁČEK, M. REHOR, J. BRABENEC

Restoration and revitalization of areas of the Severočeské doly a.s. Chomutov company damaged by mining activities

V. ONDRÁČEK, M. REHOR, J. BRABENEC

Application of modern environmental restoration methods on the Radovesice dump

M. PATRUCCO, D. PEILA, M. FALANESCA

Risk analysis approach for rock-falls in quarries

V. PAVLOVIC, I. JAKOVLJEVIČ, S. STEPANOVIČ

Open pit mine Drmno coal characteristics analysis for long-term thermo power plant supply regarding desulphurization device

E. PEKPAK, S. YONCACI and M. G. KILIC

An overview of underground coal gasification and its applicability for Turkish lignite

G. A. H. PINO, A. P. CARDOSO, M. L. TOREM

Biosorption of Cd^{2+} and Mn^{2+} by coconut shell powder

G. PIVNYAK, B. BUSYGIN, I. GARKUSHA

Geographic information technology monitoring and mapping of coal fires in Ukraine, according to the space survey

G. PIVNYAK, B. BUSYGIN, S. NIKULIN

Geoinformation system RAPID as the means of solving the problems of environment and nature management

G. G. PIVNYAK, Y. T. RAZUMNIY, A. B. IVANO V, A. V. RUKHLOV

Reduction of coal consumption in Ukrainian power industry

R. POULIN

Environmental bonding in mining - three jurisdictions compared

J. PROCHÁZKA, J. BROM, V. NEDBAL, E. PECHAROVÁ

Vegetation cover and their functioning in dependence on the reclamation of the Velká podkrušnohorská dump during last 20 years using satellite data analysis

A. RAEISZADEH, K. BEHROUZI

Design and manufacturing of laboratory column flotation cell for processing of Chador Malu iron ore deposit

E. S. RAHIMI, M. ORAKI, H. SAMARE

The comparison of empirical methods for ground vibration prediction due to blasting in project of pump powerhouse Siahbishe potential

B. R. RAKISHEV, S. K. MOLDABAEV, Z. B. RAKISHEVA

Ecological load decrease by the new order of the flat dipping coal layers opening

SHAO YANG, YANG FAN

The construction and considerations of National Mine Park in the resource-exhausted cities in China

O. M. SHASHENKO, O. O. SDVYZHKOVA and D. V. BABETS

Method of argument group account in geomechanical calculations

S. Z. SHKUNDIN, I. V. STEPANIAN

Detecting dust occupational lung pathology by neural network algorithms for acoustical spirometry data recognition

M. SCHMIDT

Development of a multifunctional postmining landscape in the Area of GroBstolpen landscaped lake (United Schleenhain open-cast mine)

M. STRUZINA and C. DREBENSTEDT

Use of HDD-Technology for effective dewatering of soils

I. SVOBODA and M. VRBOVÁ

The future lake at the Bílina opencast mine residual pit

A. SZÖLLÖSI-MOTA, I. NALBOC, M. PRODAN

Increasing safety in fieldamp mines by monitoring the atmosphere behind stoppings with the help of gas-chromatographic method

A. SZWILSKI, J. SMITH, J. CHAPMAN

Internet-based virtual environments to support mine safety training and simulations

L. TRPÁKOVÁ, P., TRPÁK, P., SKLENIČKA, J., SKALOŠ, B., ENGSTOVÁ

Reconstruction of historical land use of the Sokolov Region as the basis for the recovery of land affected by surface mining

WU XIAO, ZHENQI HU, JING LI, HEYU ZHANG, JIALIANG HU, PINGPING ZHANG

Research of land reclamation and ecological restoration in the resource-exhausting city - A case study of Huaibei in China

FAN YANG, YANG SHAO, MA GUICHEN

Utilization of InSAR differential interferometry for surface deformation detection caused by mining

A.L YEDILBAYEV, V.F. ZYABKIN, L.V. KUBEYEVA, A.V. BUTAKOV, V.S. MUZGINA

Ecological aspects when carrying out detail geological exploration

T. M. YEGULALP

Integrated steel production with carbon capture and sequestration

A. A. ZHANBATYROV, A. I. KOKETAYEV

Decreasing of negative influence on environment when carrying out mining and processing operations

B. ZIMMER

Development of an on-line coal quality management system in a lignite open pit mine in Serbia

V. F. ZYABKIN, L. V. KUBEYEVA, V. D. YUGAY

Prospects of sustainable development of ferrous metallurgy of Kazakhstan on the basis of opening of large-scale titanomagnetite deposits
