1. Introduction: Describing therapies for aphasia 1

Sally Byng and Judy Duchan

About the chapters in this volume 2

Summary 10

Using this book 12

References 12

2. Controlling language and life: Therapy for communication and identity in a bilingual speaker 15

Deborah Cairns

Introduction 16

Tony—background information 17

Therapy interventions 21

The Bilingualism Project 23

The Communication Book/Portfolio Project 27

Reviewing the benefits of therapy 30

Future challenges 32

Acknowledgments 32

References 32

Appendices 33

3. Reassembling language and identity: A longitudinal programme involving psycholinguistic and social approaches in the life of a young man with aphasia 35

Claire Gatehouse and Liz Clark

Introduction 35

Section one 36

Discussion of section one 46

Section two 50

References 56

4. Beyond the simple sentence level: a case study of a client with high level aphasia 59

Debbie Graham

Background 59

Assessment 60

The first phase of therapy: Syntax, phonology, and morphology (6 months post-onset) 61

The second phase of therapy: On-line processing, complex sentences, low frequency verbs 62

The third phase of therapy: Organisational skills and discourse cohesion 64

Summary 65

Acknowledgments 66

Appendices 81

**6. A group approach to the long-term
rehabilitation of clients with acquired brain
injury within the community 83**

Sally McVicker and Leonie Winstanley

Introduction 83

Procedures: Rationales for the group
therapy 86

Methods 87

Therapy 87

Results 90

Discussion 94

References 98

Appendices 99

**7. "What's in a name?" Improving proper name
retrieval through therapy 101**

Ann Montagu and Jane Marshall

Introduction 101

Communication profile 102

Proper and common nouns 103

Therapy rationale 104

The therapy study 105

Post-therapy assessment 107

Follow-up maintenance assessment 107

Results 107

Discussion 112

Conclusions 114

Acknowledgments 114

Notes 114

References 115

**8. Symptom-based versus theoretically motivated
therapy for anomia: A case study 117**

Lisa Perkins and Fiona Hinshelwood

Background 117

The client and initial symptom-based
therapy 117

Theoretically motivated assessment 118

Assessment of single word processing 118

Assessment of sentence-level processing 119

Theoretically motivated, thematic role
therapy 122

Reassessment 123

FR's views of the effect of therapy 126

Discussion 126

Note 127

References 127

**9. Therapy for life: Challenging the boundaries
of aphasia therapy 129**

Carole Pound

Introduction 129

The context of therapy 130

Tony 130

Assessment results 131

Phase 1 therapy 132

Phase 1 therapy outcomes 135

Phase 2 therapy 137

Questions and challenges 144

Acknowledgments 145

Postscript 145

References 145

Appendices 147

**10. Replicating therapy—more than just more
of the same? 151**

Jo Robson and Simon Horton

Introduction 151

Part one: A single case study of writing
therapy 152

Part two: A group study using residual
orthographic skills in a group of jargon
speakers 153

Part three: Two therapists with the same
client—is it the same therapy? 157

Conclusions 159
