

TABLE OF CONTENTS

PREFACE	6
SUBJECT SYLLABI	7
INTRODUCTION	9
I PRINCIPLES OF SOIL DRAINAGE AND IRRIGATION	10
1.1 Water in Soil.....	10
1.2 Measuring Soil Moisture.....	12
1.2.1 Electrical Resistance Blocks	12
1.2.2 Tensiometers	13
1.2.3 Feel Method.....	13
1.2.4 Portable Measuring Devices.....	13
1.2.5 Other Ways to Measure Soil Moisture.....	14
1.2.6 Placement in the Soil.....	15
1.3 Water in Plant.....	16
1.4 Many Impacts of Drainage.....	20
1.5 Many Impacts of Irrigation	22
1.6 References	23
II DRAINAGE	24
2.1 Types of drainage.....	24
2.1.1 Surface Drainage.....	24
2.1.2 Subsurface Drainage	27
2.2 Calculation of drainage parameter	49
2.3 Practical Building and Maintenance of Drainage	53
2.3.1 Building of Surface Drainage.....	54
2.3.2 Building of Subsurface Drainage	54
2.3.3 Maintenance of Surface Drainage.....	61
2.3.4 Maintenance of Subsurface drainage.....	61
2.4 References	63
III. IRRIGATION	64
3.1 Total and Supplemental Irrigation.....	64
3.2 Crop Water Requirements.....	65
3.2.1 CropWat Model.....	66
3.3 Method of irrigation	68
3.3.1 Surface Irrigation.....	68
3.3.2 Pressurized Irrigation	70
3.4 Practical Building and Maintenance of Irrigation.....	89
3.4.1 Building of Surface Irrigation	89
3.4.2 Design of Pressurized Irrigation.....	92
3.4.3 Maintenance of Surface Irrigation.....	95
3.4.4 Maintenance of Pressurized Irrigation	96
3.5 Water quality problems	97
3.5.1 Salinity	97
3.5.2 Water Infiltration Rate	99
3.5.3 Toxicity	99
3.5.4 Miscellaneous.....	100
3.6 References	101
IV. SOIL EROSION - THEORY AND PRACTICAL APPLICATIONS	102
4.1 Introduction	102
4.1.1 Natural and Man-made Erosion	102
4.1.2 Natural Erosion Overall Description.....	103

4.1.3 Overall Description of Erosion in a Man-made Landscape	103
4.2 Soil Erosion Definition.....	104
4.2.1 Notion of “Soil Erosion”	104
4.2.2 Soil Erosion Normal and Accelerated	105
4.3 Factors of Soil Erosion	105
4.3.1 Factors Characteristics	106
4.3.2 Combination of Factors	106
4.3.3 Anti-erosion Functions of Forest.....	106
4.3.4 Erosion Effect of Roads	107
4.3.5 Erosion Effect of Wood Logging	107
4.3.6 Erosion Effect of Grazing	108
4.3.7 Erosion Effect of Burning Tropical Forests	109
4.4 Resulting Effects of Soil Erosion	109
4.5 Weathering and Soil Erosion.....	111
4. 5.1 Introduction	111
4. 5.2 Mechanical Weathering.....	111
4. 5.3 Chemical Weathering.....	112
4. 5.4 Effects of Weathering.....	112
4.6 Erosion Processes.....	113
4.6.1 Kinds of Erosion Processes	113
4.6.2 Gravity Erosion	113
4.6.3 Water Erosion.....	114
4.6.4 Ice Erosion.....	119
4.6.5 Wind Erosion.....	120
4.7 Soil Erosion and Climate Change	124
4.8 Expansion of Erosion and its Consequences.....	125
4.8.1 Extent of Erosion.....	125
4.8.2 General Statements.....	126
4.8.3 Erosion Process Consequences	127
4.9 Erosion Control Measures	131
4.9.1 Water Erosion Control Measures	131
I. Organizational Water Erosion Control Measures	132
II. Agronomic Water Erosion Control Measures	133
III. Technical Water Erosion Control Measures	134
4.9.2 Wind Erosion Control Measures	136
I. Organizational Wind Erosion Control Measures	136
II. Agronomic Wind Erosion Control Measures	138
III. Technical Wind Erosion Control Measures and Windbreaks	140
4.10 Determination of Soil Erosion Danger.....	143
4.10.1 General Statements.....	143
4.10.2 Main Erosion Factors; their Determination.....	144
V. CONSERVATION TECHNOLOGIES.....	147
5.1 Introduction	147
5.2 Land Management Factors	147
5.3 Land Conservation Factors.....	148
5.3.1 Decision to Adopt Soil Conservation technologies.....	148
5.3.2 Three Stages of the Farmer’s Decision-making Process.....	149
5.3.3 The Impact of Some Factors on Farmer’s Decision-making	149
5.3.4 Farmer’s Approach.....	150
5.4 Dimension of the Land Conservation.....	150

5.4.1 Political Ecology Framework.....	150
5.4.2 Four Areas of Problems.....	151
5.5 Factors Affecting the Adoption of Soil Conservation.....	155
5.5.1 Farmer's Age.....	155
5.5.2 Education Level.....	156
5.5.3 Membership in Farmers' Organisation	156
5.5.4 Household Size.....	156
5.5.5 Household Income.....	156
5.5.6 Total Farm Area	156
5.5.7 Tenure Status.....	156
5.5.8 Credit Effects.....	157
5.5.9 Access to Technical Assistance.....	157
5.5.10 Access to Markets	157
5.6 Soil Conservation Technologies.....	157
5.6.1 Attributes of the Technology.....	157
5.6.2 Dimensions of Soil Conservation Technologies	159
5.6.3 Repertoire of Soil Conservation Technologies	160
5.6.4 Supplementary Physical, Agronomic and Soil Fertility Measures	168
5.6.5 Implementation of Hedgerow Intercropping.....	169
5.6.6 Rationale for the Adaptation of Hedgerow Intercropping	170
5.6.7 Impact of Adaptations of Hedgerow Intercropping	172
5.6.8 Plot or Field-level Impacts of Hedgerow Intercropping	172
5.7 References	174
