<i>List of photographs</i>	vii
<i>List of figures</i>	viii
<i>Notes on contributors</i>	xii
<i>Preface</i>	xiii
Chapter 1 Transportation and geography	1
<i>CONCEPTS: 1 What is transport geography?</i>	1
2 Transportation and space	11
3 Transportation and commercial geography	20
4 The geography of transportation networks	28
<i>CASE STUDY: Strategic maritime passages</i>	36
Chapter 2 Transportation and the spatial structure	49
<i>CONCEPTS: 1 Historical geography of transportation: the emergence of mechanized systems</i>	49
2 Historical geography of transportation: the setting of global systems	64
3 Transport and spatial organization	70
4 Transport and location	77
5 Future transportation	82
<i>CASE STUDY: Transport corridors</i>	89
Chapter 3 Transportation, economy and society	95
<i>CONCEPTS: 1 Transportation and economic development</i>	95
2 Transportation and society	105
3 Transport costs	107
4 Transport supply and demand	115
<i>CASE STUDY: The cruise industry</i>	120
Chapter 4 Transportation modes	127
<i>CONCEPTS: 1 Transportation modes, modal competition and modal shift</i>	127
2 Road transportation	131
3 Rail Transportation	135
4 Maritime transportation	140
5 Air transport	147
6 Intermodal transportation and containerization	155
<i>CASE STUDY: High-speed rail systems</i>	166

Chapter 5	Transportation terminals	173
	<i>CONCEPTS: 1 The function of transport terminals</i>	173
	2 The location of terminals	180
	3 Port terminals	185
	4 Rail terminals	192
	5 Airports	197
	<i>CASE STUDY: Mega airport projects</i>	203
Chapter 6	International trade and freight distribution	207
	<i>CONCEPTS: 1 Transborder and crossborder transportation</i>	207
	2 Transportation, globalization and international trade	213
	3 Freight transportation and value chains	221
	4 Logistics and freight distribution	230
	<i>CASE STUDY: Inland ports and logistics zones</i>	241
Chapter 7	Urban transportation	248
	<i>CONCEPTS: 1 Transportation and the urban form</i>	248
	2 Urban land use and transportation	258
	3 Urban mobility	266
	4 Urban transport problems	273
	<i>CASE STUDY: City logistics</i>	281
Chapter 8	Transport, energy and environment	288
	<i>CONCEPTS: 1 The environmental impacts of transportation</i>	288
	2 Transportation and energy	294
	3 Transport and sustainability	301
	<i>CASE STUDY: Green logistics</i>	306
Chapter 9	Transport planning and policy	311
	<i>CONCEPTS: 1 The nature of transport policy</i>	311
	2 Transport planning	317
	3 Transport safety and security	323
	4 Transportation and disasters	328
	<i>CASE STUDY: Information technologies and mobility</i>	335
Chapter 10	Methods in transport geography	340
	<i>METHODS: 1 Methods in transport geography</i>	340
	2 Graph theory: definition and properties	343
	3 Graph theory: measures and indices	350
	4 Geographic Information Systems for Transportation (GIS-T)	356
	5 Transportation and accessibility	361
	6 Network data models	367
	7 Transport technical and economic performance indicators	373
	8 The Gini coefficient	376
	9 Spatial interactions and the gravity model	380
	10 Market area analysis	385
	Conclusion: issues and challenges in transport geography	393
	<i>Glossary</i>	401
	<i>Index</i>	429
