

TABLE OF CONTENT

TABLE OF CONTENT.....	3
ABSTRACT.....	5
ABSTRAKT.....	6
1. THEORETICAL BACKGROUND.....	7
1.1 Biomaterials.....	7
1.2 A brief overview of polymers.....	7
1.3 Polymeric biomaterials.....	8
1.4 Biocompatibility of polymeric materials.....	8
1.5 Surface modification of polymeric materials.....	9
1.6 Plasma surface treatment.....	10
1.7 Bioactive surface coatings of the polymeric materials.....	10
1.7.1 Bioactive surface coating to avoid biomaterial induced infections.....	11
1.7.2 Bioactive surface coating to enhance cell interaction.....	13
1.7.3 Bioactive surface coating to avoid thrombus formation.....	14
AIMS OF THE WORK.....	15
2. EXPERIMENTAL PART.....	16
2.1 Preparation of surface for antibacterial activity.....	17
2.2 Preparation of surface for enhanced cell interaction.....	17
2.3 Preparation of surface to avoid blood thrombus formation.....	18
2.4 Characterization techniques.....	19
2.4.1 Surface wettability testing.....	19
2.4.2 Surface morphology analysis by scanning electron microscopy.....	20
2.4.3 Surface topographic analysis by atomic force microscopy.....	21
2.4.4 Surface spectroscopic analysis by Fourier transform infrared spectroscopy.....	22
2.4.5 Surface chemical analysis by X-ray photoelectron spectroscopy.....	23
2.4.6 Antibacterial activity test.....	24
2.4.7 Cell adhesion and proliferation test.....	24
2.4.8 Anticoagulation activity test.....	25
3. RESULTS AND DISCUSSIONS.....	26
3.1 Antibacterial surface results.....	26
3.1.1 Surface wettability behaviour.....	26

3.1.2	Fourier transform infrared spectra investigations	27
3.1.3	X-ray photoelectron spectroscopy investigations	28
3.1.4	Scanning Electron Microscopy characterizations	28
3.1.5	Antibacterial activity results.....	29
3.1.6	Conclusions	30
3.2	Cell interaction results	31
3.2.1	Surface wettability behaviour.....	31
3.2.2	Fourier transform infrared spectra investigations	31
3.2.3	X-ray photoelectron spectroscopy investigations	32
3.2.4	Scanning electron microscopy characterizations	33
3.2.5	Atomic force microscopy characterizations.....	33
3.2.6	Cell morphology and proliferation investigations	34
3.2.7	Conclusions	35
3.3	Blood thrombosis results	35
3.3.1	Surface wettability behaviour.....	36
3.3.2	Fourier transform infrared spectra investigations	37
3.3.3	X-ray photoelectron spectroscopy investigations	38
3.3.4	Scanning electron microscopy characterizations	39
3.3.5	Atomic force microscopy characterizations.....	40
3.3.6	Anticoagulation activity studied in Vitro.....	41
3.3.7	Conclusions	43
