Preface	xv	Defects of enamel and dentine	33
References	xvii	Regional odontodysplasia (ghost teeth)	33
1 Principles of investigation, diagnosis and treatment	1	Segmental odontomaxillary dysplasia	34
Taking a history	1	Other systemic diseases affecting teeth	35
Consent	5	Extrinsic agents affecting teeth	37
Clinical examination	6	Odontomes	41
Medical examination	8	Disorders of eruption	42
Clinical differential diagnosis	8	3 Disorders of development	45
Investigations	9	Clefts of lip or palate	45
Imaging	9	Cleft lip and cleft palate	45
Histopathology	10	Isolated cleft palate	48
Laboratory procedures	14	Syndromic cleft lip and palate	48
Molecular biological tests	15	Other facial clefts	48
Haematology, clinical chemistry and serology	18	Stafne's idiopathic bone cavity	49
Microbiology	18	Hereditary prognathism	49
Other clinical tests	20	Ankyloglossia	49
Interpreting investigations and making a diagnosis and treatment plan	20	Cowden's syndrome	50
		Other craniofacial malformations	50
		4 Dental caries	53
		Aetiology	53
		Bacterial plaque	53
		Microbiology	54
		Sucrose	57
		Susceptibility of teeth to caries	59
		Saliva and dental caries	60
		Pathology of enamel caries	61
		Pathology of dentine caries	65
		Clinical aspects of caries pathology	68
		Arrested caries and remineralisation	68
		Caries in deciduous teeth	69
		Hidden caries	70
		Root surface caries	70
		Clinical aspects of reactions to caries	70
		5 Pulpitis and apical periodontitis	73
		Pulpitis	73
		Pulp calcifications	77
		Periapical periodontitis, abscess and granuloma	77
		Acute apical periodontitis	78
		Pathology and sequelae	78
SECTION 1: Hard tissue pathology	23		
2 Disorders of tooth development	23		
Abnormalities in the number of teeth	23		
Anodontia and oligodontia	23		
Additional teeth: hyperdontia	24		
Syndromes associated with hyperdontia	25		
Defective enamel formation	25		
Defects of deciduous teeth	25		
Defects of permanent teeth	25		
Amelogenesis imperfecta	25		
Chronological hypoplasia	29		
Molar-incisor hypomineralisation	30		
Defective dentine formation	30		
Osteogenesis imperfecta with opalescent teeth	31		
Dentinogenesis imperfecta	31		
Dentinal dysplasia ('rootless' teeth)	32		

Acute apical (dentoalveolar) abscess	79	8 Infections of the jaws	117
Chronic apical periodontitis and periapical granuloma	81	Normal healing of an extraction socket	117
6 Tooth wear, resorption, hypercementosis and osseointegration	85	Alveolar osteitis	117
Tooth wear	85	Osteomyelitis of the jaws	120
Attrition	85	Acute osteomyelitis	120
Abrasion	85	Chronic osteomyelitis	122
Erosion	86	Diffuse sclerosing osteomyelitis	123
Abfraction	87	Chronic low-grade focal osteomyelitis and sclerosing osteitis	124
Bruxism	87	Osteoradionecrosis	124
Resorption of teeth	88	Proliferative periostitis	125
Hypercementosis	91	Medication-related osteonecrosis of the jaws (MRONJ)	125
Pathology of osseointegration	91	Traumatic sequestrum	127
7 Gingival and periodontal diseases	95	Sclerotic bone islands	128
The normal periodontal tissues	95	9 Major infections of the mouth and face	129
Gingival and periodontal fibres	96	Periapical (dentoalveolar) abscess	129
Gingival crevicular fluid (exudate)	96	Collateral oedema	129
Classification of periodontal diseases	96	'Fascial' or tissue space infections	129
Chronic gingivitis	96	Facial cellulitis	130
Chronic periodontitis	99	Facial abscess	132
Pathology	101	Antibiotic abscess	133
Systemic predisposing factors	103	Necrotising fasciitis	133
General principles of management of chronic periodontitis	105	Cavernous sinus thrombosis	133
Complications of chronic periodontitis	106	Noma (cancrum oris, necrotising stomatitis)	134
Gingival recession	107	Actinomycosis	135
Aggressive periodontitis	108	Other 'actinomycoses'	136
'Prepubertal' periodontitis	109	The systemic mycoses	136
Periodontitis as a manifestation of systemic disease	109	Systemic infections by oral bacteria	137
Down's syndrome	109	10 Cysts in and around the jaws	139
Papillon–Léfevre syndrome	110	Classification of cysts	139
Periodontal (lateral) abscess	110	Common features of jaw cysts	140
Acute pericoronitis	110	Treatment of jaw cysts	141
Acute necrotising ulcerative gingivitis	112	Treatment of soft tissue cysts	142
HIV-associated periodontitis	113	Odontogenic cysts	142
Gingival enlargement	113	Radicular cyst	142
Hereditary gingival fibromatosis	113	Lateral radicular cyst	146
Drug-induced gingival overgrowth	114	Residual radicular cyst	146
Localised juvenile spongiotic gingivitis	115	Inflammatory collateral cysts	146
Plasminogen deficiency gingivitis	115	Dentigerous cysts	146
Other inflammatory gingival swellings	115	Eruption cyst	148
		Odontogenic keratocyst	149
		Basal cell naevus syndrome	153
		Orthokeratinised odontogenic cyst	154

Lateral periodontal cysts	155	Fibroosseous odontogenic lesions	179
Botryoid odontogenic cysts	155	Cemento-ossifying fibromas	180
Glandular odontogenic cyst	156	Cemento-ossifying fibroma	180
Calcifying odontogenic cyst	156	Juvenile ossifying fibroma	181
Carcinoma arising in odontogenic cysts	157	Multiple and syndromic cemento-osseous fibromas	181
Gingival cyst of the newborn	157	Cemento-osseous dysplasias	181
Gingival cyst of adults	158	Periapical cemental dysplasia	181
Non-odontogenic cysts	158	Florid cemento-osseous dysplasia	182
Nasopalatine duct or incisive canal cyst	158	Focal cemento-osseous dysplasia	182
Nasolabial cyst	160	Familial gigantiform cementoma	182
Sublingual dermoid cyst	160	Malignant odontogenic tumours	183
Thyroglossal duct cyst	161	12 Non-odontogenic tumours of the jaws	187
Branchial cyst	161	Exostoses and tori	187
Foregut cyst	162	Osteochondroma	187
Other cysts in other chapters	162	Central giant cell granuloma	188
11 Odontogenic tumours and related jaw lesions	165	Noonan and other syndromes	190
Benign epithelial tumours	165	Langerhans cell histiocytosis	190
Ameloblastomas	165	Osteomas	192
Desmoplastic ameloblastoma	168	Gardner's syndrome	192
Metastasising ameloblastoma	169	Ossifying fibromas	193
Unicystic ameloblastoma	169	Psammomatoid ossifying fibroma	193
Squamous odontogenic tumour	170	Haemangioma of bone	194
Calcifying epithelial odontogenic tumour	170	Melanotic neuroectodermal tumour of infancy	195
Adenomatoid odontogenic tumour	172	Malignant neoplasms of bone	196
Benign epithelial and mesenchymal tumours	172	Osteosarcoma	196
Ameloblastic fibroma	172	Chondrosarcoma	197
Ameloblastic fibrodentinoma and fibro-odontome	173	Ewing's sarcoma	198
Primordial odontogenic tumour	173	Myeloma	199
Odontomes (odontomas*)	173	Amyloidosis	200
Compound odontome	174	Solitary plasmacytoma	200
Complex odontome	174	Lymphomas	200
Other types of odontome	175	Metastases to the jaws	200
Calcifying odontogenic cyst	176	13 Genetic, metabolic and other non-neoplastic bone diseases	205
Dentinogenic ghost cell tumour	176	Genetic diseases of bone	205
Benign mesenchymal tumours	176	Osteogenesis imperfecta	205
Odontogenic fibroma	177	Gnathodiaphyseal dysplasia	207
Granular cell odontogenic tumour	177	Osteopetrosis: marble bone disease	207
Odontogenic myxoma	177	Achondroplasia	207
Normal dental follicle	178	Cleidocranial dysplasia	208
Cementoblastoma	178	Cherubism	208
'Cementomas'	179	Hypophosphatasia	209

Sickle cell anaemia and thalassaemia	210	Giant cell arteritis (temporal arteritis)	231
Gigantism and acromegaly	211	Polymyalgia rheumatica	232
Metabolic bone disease	211	Tetanus and tetany	232
Rickets	211	Pain referred to the joint	232
Vitamin D-resistant rickets	211	Dislocation	232
Hyperparathyroidism	211	Ehlers–Danlos syndrome	233
Other bone diseases	213		
Paget's disease of bone	213		
Fibro-osseous lesions	216		
Fibrous dysplasia	216		
Monostotic fibrous dysplasia	216		
Polyostotic fibrous dysplasia	218		
Albright's syndrome	218		
Osseous dysplasias	218		
Bone 'cysts'	218		
Solitary bone 'cyst'	218		
Aneurysmal bone 'cyst'	220		
Osteoporotic bone marrow defect	221		
14 Disorders of the temporomandibular joints and trismus	223		
Temporary limitation of movement	223		
Infection and inflammation	223		
Injuries	223		
Drugs	224		
Persistent limitation of movement:			
extracapsular causes	224		
Irradiation	224		
Oral submucous fibrosis	224		
Systemic sclerosis and scleroderma	224		
CREST syndrome	225		
Morphoea	225		
Persistent limitation of movement:			
intracapsular causes	226		
Arthritis	226		
Rheumatoid arthritis	226		
Osteoarthritis	227		
Other types of arthritis	228		
Condylar hyperplasia	228		
Neoplasms	229		
Synovial chondromatosis and loose bodies in the temporomandibular joints	229		
Limitation of movement: muscle causes	229		
TMJ pain dysfunction 'syndrome'	229		
		SECTION 2: Soft tissue disease	235
		15 Diseases of the oral mucosa:	
		mucosal infections	235
		Ulcers	235
		Herpesvirus diseases	235
		Primary herpetic stomatitis	235
		Herpes labialis	238
		Herpetic whitlow	239
		Herpes zoster of the trigeminal nerve	239
		Ramsay Hunt syndrome	240
		Cytomegalovirus ulcers	240
		Hand-foot-and-mouth disease	240
		Herpangina	241
		Measles	241
		Chicken pox	241
		Tuberculosis	242
		Syphilis	242
		Candidosis	244
		Thrush	244
		Angular cheilitis	246
		Erythematous candidosis	246
		Acute antibiotic stomatitis	246
		Median rhomboid glossitis	247
		Denture-induced stomatitis	248
		Chronic hyperplastic candidosis	249
		Chronic mucocutaneous candidosis syndromes	250
		16 Diseases of the oral mucosa: non-infective stomatitis	255
		Ulcers	255
		Traumatic ulcers	255
		Eosinophilic ulcer (atypical or traumatic eosinophilic granuloma)	255
		Factitious ulceration (self-inflicted oral ulcers)	255
		Recurrent aphthous stomatitis	256

Behçet's disease	259	18 Benign chronic white mucosal lesions	291
HIV-associated oral ulcers	261	Fordyce spots	291
Nicorandil-induced ulcers	261	Leukoedema	292
Lichen planus and similar conditions	261	Frictional keratosis	292
'Desquamative gingivitis'	262	Cheek and tongue biting	293
Lichen planus	262	Stomatitis nicotina	293
Vulvovaginal-gingival syndrome	267	Oral hairy leukoplakia	294
Malignant change in lichen planus	267	White sponge naevus	295
Lichenoid reactions	268	Candidosis	296
Lichenoid drug reactions	268	Oral keratosis of renal failure	296
Topical lichenoid reactions	268	Skin grafts	296
Graft-versus-host disease	269	Psoriasis	297
Lupus erythematosus	269	Other white lesions	297
Chronic ulcerative stomatitis	270	19 Potentially malignant disorders	299
Immunobullous disease	271	Terminology	299
Pemphigus vulgaris	271	Field change	299
Paraneoplastic pemphigus	273	Erythroplakia	300
Mucous membrane pemphigoid	273	Speckled leukoplakia	300
Erythema multiforme	275	Leukoplakia	300
Stevens Johnson syndrome	277	Proliferative verrucous leukoplakia	302
Toothpaste-induced epithelial peeling	277	Smokeless tobacco-induced	
Other mucosal allergic responses	277	keratoses	302
Oral signs in reactive arthritis	277	Chronic hyperplastic candidosis	304
Mucocutaneous lymph node syndrome		Oral submucous fibrosis	304
(Kawasaki's disease)	278	Lichen planus	305
Miscellaneous mucosal ulcers	279	Lupus erythematosus	306
Wegener's granulomatosis	279	Dyskeratosis congenita	306
Oral reactions to drugs	279	HPV-associated dysplasia	306
Uncommon mucocutaneous diseases	279	Syphilitic leukoplakia	306
17 Tongue disorders	283	Management of dysplastic lesions	307
Normal structures	283	Smoking cessation	312
Furred tongue	283	20 Oral cancer	317
Foliate papillae	283	Epidemiology	317
Lingual varicosities	283	Aetiology	318
Erythema migrans	283	'Early' and 'late' oral carcinoma	321
Lingual papillitis	284	Oral cancer distribution	322
Hairy tongue and black hairy tongue	284	Pathology	322
Glossitis	285	Management	326
Anaemic glossitis	285	Role of the dentist	331
Glossodynia and the sore, physically		Oral cancer screening	332
normal tongue	287	Screening and detection aids	333
Macroglossia	287	Verrucous carcinoma	333
Amyloidosis	287	Diagnostic catches	334
Other diseases affecting the tongue	289		

21 Other mucosal and lip carcinomas	335	Adenocarcinoma not otherwise specified	363
Lip carcinoma	335	Other epithelial lesions	363
Human papillomavirus-associated		Metastatic neoplasms	364
oropharyngeal carcinomas	335	Non-epithelial tumours	364
Nasopharyngeal carcinoma	339	Intraosseous salivary gland tumours	365
Pseudocarcinomas and diagnostic catches	339	Tumour-like salivary gland swellings	365
22 Non-neoplastic diseases of salivary glands	341	24 Benign mucosal swellings	369
Duct obstruction	341	Fibroepithelial polyp, epulis and denture-induced granuloma	369
Salivary calculi	341	Papillary hyperplasia of the palate	370
Salivary duct strictures	342	Pyogenic granuloma and pregnancy epulis	371
Mucocele and salivary cysts	342	Giant-cell epulis	371
Sialadenitis	344	Papillomas	373
Mumps	344	Squamous cell papilloma	374
Bacterial parotitis	344	Infective warts (verruca vulgaris)	374
Chronic sialadenitis	345	Multifocal epithelial hyperplasia	374
Xerostomia	345	Verruciform xanthoma	375
Sjögren's syndrome	346	Calibre-persistent artery	375
Complications	349	Cosmetic implants	376
HIV-associated salivary gland disease	350	25 Soft tissue tumours	377
IgG ₄ sclerosing disease	350	Benign tumours	377
Necrotising sialometaplasia	350	Benign nerve sheath tumours	377
Sarcoidosis	350	Lipoma and fibrolipoma	377
Sialadenosis	350	Granular cell tumour	378
Other salivary gland disorders	351	Congenital (granular cell) epulis	378
Hypersalivation (sialorrhoea or ptyalism)	352	Haemangiomas	379
23 Salivary gland neoplasms	355	Lymphangiomas	380
Salivary gland neoplasms	355	Malignant connective tissue tumours	380
Benign tumours	357	Rhabdomyosarcoma	380
Pleomorphic adenoma	357	Sarcomas of fibroblasts	380
Warthin's tumour	358	Kaposi's sarcoma	380
Canalicular adenoma	359	26 Oral pigmented lesions	383
Basal cell adenoma	359	Diffuse mucosal pigmentation	383
Oncocytoma	359	Localised melanin pigmentation	383
Malignant salivary gland tumours	359	Physiological pigmentation	384
Mucoepidermoid carcinoma	360	Melanotic macules	384
Adenoid cystic carcinoma	361	Oral melanotic macules associated with HIV infection	384
Acinic cell carcinoma	362	Oral melanocytic naevi	384
Secretory carcinoma	362	Melanoacanthoma	385
Polymorphous adenocarcinoma	362	Post-inflammatory pigmentation	385
Salivary duct carcinoma	363	Syndromes with oral pigmentation	385
Epithelial-myoepithelial carcinoma	363	Other localised pigmented lesions	386
Undifferentiated carcinomas	363	Amalgam and other tattoos	386
Carcinoma ex pleomorphic adenoma	363		

Lead line and heavy metal poisoning	387	Leukopenia and agranulocytosis	408
Soft tissue pigmentation	387	Immunosuppressive treatment	408
Melanoma	388	Bone marrow transplantation	408
		Graft-versus-host disease	408
		Other organ transplants	408
		HIV infection and AIDS	408
		Oral lesions in HIV infection	411
		Candidosis	412
		Viral mucosal infections	413
		Bacterial infections	413
		Systemic mycoses	413
		Malignant neoplasms	413
		Lymphadenopathy	414
		Autoimmune disease	414
		Gingivitis and periodontitis	414
		Salivary gland disease	414
		Miscellaneous oral lesions	415
		Oral adverse effects of HAART	416
		Risks of transmission of HIV infection	416
27 Anaemias, leukaemias and lymphomas	391	30 Allergy, autoimmune and autoinflammatory disease	419
Anaemia	391	Allergic or hypersensitivity reactions	419
Sickle cell disease and sickle cell trait	392	Atopy	419
The thalassaemias	393	Contact dermatitis	419
Leukaemia	393	Latex allergy	420
Acute leukaemia	393	Allergy to local anaesthetic	421
Chronic leukaemia	394	Asthma	422
Lymphomas	394	Other type 1 reactions	422
Hodgkin's lymphoma	395	Mucosal allergic responses	422
Non-Hodgkin lymphomas	395	Oral allergy 'syndrome'	422
Burkitt's lymphoma	395	Allergy to metals	422
MALT lymphoma	396	Angio-oedema	423
Nasopharyngeal extranodal NK/T-cell lymphoma	396	Autoimmune diseases	423
Other types of lymphoma	397	The connective tissue diseases	424
Leucopenia and agranulocytosis	397	Rheumatoid arthritis	424
Aplastic anaemia	398	Sjögren's syndrome	424
Agranulocytosis	398	Systemic lupus erythematosus	424
Cyclic neutropenia	398	Systemic sclerosis (scleroderma)	425
28 Haemorrhagic disorders	399	Autoinflammatory diseases	425
Preoperative investigation	399	Sarcoidosis	425
Management of prolonged dental bleeding	399	31 Cervical lymphadenopathy	429
Blood vessel abnormalities	399	Tuberculous cervical lymphadenopathy	430
Hereditary haemorrhagic telangiectasia	399	Atypical mycobacterial infection	431
Angina bullosa haemorrhagica	400	Sarcoidosis	431
Purpura and platelet disorders	401		
Clotting disorders	402		
Haemophilia A	402		
Christmas disease (haemophilia B)	403		
Acquired clotting defects	403		
Combined bleeding disorders	404		
Von Willebrand's disease	404		
Disseminated intravascular coagulation	404		
Plasminogen deficiency	404		
29 Immunodeficiency	407		
Selective IgA deficiency	407		
C1 esterase inhibitor deficiency	408		

Syphilis	432	Coeliac disease	451
Cat-scratch disease	432	Crohn's disease	451
Lyme disease	432	Orofacial granulomatosis	453
Infectious mononucleosis	432	Malabsorption syndromes	453
Acquired immune deficiency syndrome	433	Ulcerative colitis	453
Toxoplasmosis	433	Intestinal polyposis syndromes	454
Mucocutaneous lymph node syndrome	433	Antibiotic-associated colitis	454
Langerhans cell histiocytosis	434	Liver disease	454
Sinus histiocytosis with massive lymphadenopathy	434	Viral hepatitis	455
Castleman's disease	434	Hepatitis A	455
Drug-associated lymphadenopathy	435	Hepatitis E	455
Virchow's node	435	Hepatitis B	455
Delphian node	436	Hepatitis D: the delta agent	457
		Hepatitis C	457
		Control of transmission of viral hepatitis	458
32 Cardiovascular disease	437	35 Nutritional deficiencies	461
General aspects of management	437	Vitamin deficiencies	461
Infective endocarditis	438	Vitamin A deficiency	461
Prevention of endocarditis	439	Riboflavin (B ₂) deficiency	461
Implanted cardiac devices	441	Nicotinamide deficiency	461
		Vitamin B ₁₂ deficiency	461
33 Respiratory tract disease	443	Folic acid deficiency	461
Acute sinusitis	443	Vitamin C deficiency	461
Chronic sinusitis	443	Vitamin D deficiency	462
Odontogenic sinusitis	444	36 Endocrine disorders and pregnancy	463
Fungal sinusitis	444	Pituitary gigantism and acromegaly	463
Allergic fungal sinusitis	444	Thyroid disease	464
Invasive fungal sinusitis	445	Hyperthyroidism	464
Surgical damage to the maxillary antrum	445	Hypothyroidism	464
Displacement of a root or tooth into the maxillary antrum	445	Lingual thyroid	464
Oroantral communication	445	Parathyroid disease	465
Aspiration of a tooth, root or instrument	446	Hyperparathyroidism	465
Tuberculosis	446	Hypoparathyroidism	466
Chronic obstructive airways disease	447	Pseudohypoparathyroidism	466
Asthma	447	Adrenocortical diseases	466
Midfacial destructive lesions	447	Adrenocortical hypofunction or Addison's disease	466
Wegener's granulomatosis	447	Adrenocortical hyperfunction	467
Carcinoma of the antrum	448	Autoimmune polyendocrine syndromes	467
Cystic fibrosis (mucoviscidosis)	449	Diseases of the adrenal medulla	467
Sleep apnoea syndrome	449	Pheochromocytoma	467
Bronchogenic carcinoma	449	Multiple endocrine neoplasia syndromes	468
34 Gastrointestinal and liver disease	451	Diabetes mellitus	468
Gastro-oesophageal reflux and gastric regurgitation	451	Pregnancy	469

37 Renal disease	471	Hydrocephalus	493
Chronic renal failure and dialysis	471	Spina bifida	493
Renal transplantation	471	The muscular dystrophies	493
38 Pain and neurological disorders	473	Myasthenia gravis	493
Dental and periodontal pain	473	40 Mental health disorders	495
Pain in edentulous patients	474	Pain without medical cause	495
Painful mucosal lesions	475	Anxiety disorders	496
Pain in the jaws	475	Depression	496
Postsurgical pain and nerve damage	475	Anorexia nervosa and bulimia nervosa	497
Pain induced by mastication	475	Psychoses and schizophrenia	497
Pain from salivary glands	476	41 Dentistry and elderly patients	499
Neuralgia and neuropathy	476	Dementia	499
Trigeminal neuralgia	476	Other systemic diseases	500
Trigeminal neuralgia in multiple sclerosis	477	Oral disease in the elderly	501
Trigeminal neuropathy	477	42 Complications of systemic drug treatment	503
Glossopharyngeal neuralgia	477	Local analgesics with vasoconstrictors	505
Postherpetic neuralgia	478	Chemical dependence	505
Bell's palsy	478	43 Medical emergencies	507
Burning mouth 'syndrome'	478	Sudden loss of consciousness	507
Atypical facial pain	479	Fainting	507
Atypical odontalgia	479	Acute hypoglycaemia	508
Paraesthesia of the lower lip	479	Anaphylactic reactions	508
Facial palsy	480	Cardiac arrest	509
Bell's palsy	480	Strokes	510
Melkersson–Rosenthal syndrome	481	Circulatory collapse in patients on corticosteroid treatment	510
Other causes of facial palsy	482	Chest pain	511
Headache	482	Angina pectoris	511
Migraine	482	Myocardial infarction	511
Migrainous neuralgia (cluster headache)	482	Respiratory difficulty	512
Intracranial tumours	483	Severe asthma and status asthmaticus	512
Disturbances of taste and smell	483	Left ventricular failure	512
Epilepsy	484	Convulsions	512
39 Physical and learning disability	487	Epilepsy	512
UK discrimination legislation	488	Other emergencies	513
Learning disability	488	Haemorrhage	513
Down's syndrome	489	Violence	513
Fragile X syndrome	490	SECTION 4: Learning guide and self-assessment questions	515
Other chromosomal abnormalities	490	44 Learning guide	515
Behavioural disorders	491	Self-assessment questions	521
Autism	491	Index	529
Attention deficit hyperactivity disorder	491		
Physical impairments	491		
Cerebral palsy	491		
Multiple sclerosis	492
