Acknowledgments	ix
Introduction: Inquiry in the Classroom: Identifying Necessary Components of a Useful Definition <i>Eleanor D. Abrams, Sherry A. Southerland, and Celia A. Evans</i>	xi
Section I: Students' Knowledge and Skill With Inquiry <i>Norman G. Lederman, Sandra K. Abell, and Valarie Akerson</i>	
• Editor's Note: Describing Section I's Use of Inquiry in the Classroom	3
• Vignette	4
• What Students Need to Know and Do in Inquiry-Based Instruction <i>Sandra K. Abell</i>	7
• How Do I Do This? Skills Students Need for Inquiry <i>Valarie Akerson</i>	18
• What Did You Do in Science Today? <i>Norman G. Lederman</i>	25
Section II: Selecting and Using Inquiry Approaches to Teach Science: The Influence of Context in Elementary, Middle, and Secondary Schools <i>Larry D. Yore, Laura Henriques, Barbara Crawford, Leigh Smith, Susan Gomez-Zwiep, and John Tillotson</i>	
• Editor's Note: Describing Section II's Use of Inquiry in the Classroom	39
• Introduction	41

- Inquiry in Elementary Classrooms:
Vignette 45
- Inquiry in Middle School Classrooms:
Vignette 53
- Inquiry in Secondary School Classrooms;
Vignette 64
- Examining the Effect of the Context 79

Section III: Accommodating Student Diversity Within Inquiry

Liza Finkel, Kathleen Greene, and Jose Rios

- Editor's Note: Describing Section III's Use of
Inquiry in The Classroom 91
- Vignette 93
- Inquiry-Based Instruction and Diverse Learners
Liza Finkel 97
- Gender and Inquiry in the Classroom: Contexts and Contests
Kathleen Greene 107
- Inquiry for Diverse Student Populations: Promises and Pitfalls
Jose Rios 117
- Transformative Inquiry: Implications and Conclusions
Liza Finkel 130

Section IV: Standardized Tests and Inquiry: How the Accountability Movement Acts to Prevent Changes in Science Classrooms

Sherry Southerland, Eleanor Abrams, and Todd Hutner

- Editors' Note: Describing Section IV's Use of
Inquiry in the Classroom 143
- Vignette 144
- Introduction
Sherry A. Southerland 148
- Assessing Student Understanding in
an Inquiry-Based Learning Environment
Eleanor Abrams 150
- The "Problem" of Inquiry: The Divide Between Educating for
Credentialing and Educating for a Democracy
Sherry A. Southerland and Todd Hutner 157

- Is There Room for Inquiry in a World of Accountability?
Sherry Southerland and Eleanor Abrams 165

Section V: Teacher Knowledge and Enacting Inquiry

John Settlage, Lee Meadows, Mark Olson, and Margaret Blanchard

- Editors' Note: Describing Section V's Use of Inquiry in the Classroom 171
- Physical Science Vignette: Heat and Temperature 172
- Teacher Knowledge About Inquiry: Incorporating Conceptual Change Theory
Lee Meadows 177
- A Framework for Examining Professional Knowledge for Teaching Science via Inquiry
Mark Olson 191
- Moving Past a Belief in Inquiry as a Pedagogy: Implications for Teacher Knowledge
John Settlage 204
- Requisite Teacher Knowledge About Inquiry: Resources for Thinking About Teaching for Inquiry
John Settlage and Margaret Blanchard 216

Section VI: Student-Scientists Partnerships: Exploring One Example of Inquiry in the Classroom

David M. Moss, Barrett N. Rock, and Catherine Koehler

- Editors' Note: Describing Section IV's Use of Inquiry in the Classroom 233
- Vignette 234
- Inquiry and Student-Scientist Partnerships
David M. Moss 238
- The Science of a Student-Scientist Partnership
Barrett N. Rock 243
- Real Science in Real Schools?
Catherine Koehler 248
- Making a Student-Scientist Partnerships Work
David M. Moss 252
