1. Investigation and application of advanced materials, technologies and solutions in dam engineering

ID 8 Waves in underground pumped storage plants	1
Pummer Elena, Schüttrumpf Holger	
ID 19 Lateral spread of instability in a slope failure	2
Chugh Ashok K., Griffiths D. V.	
ID 25 General aspects and engineering properties of black shale mining material used for embankment dams	3
Haselsteiner Ronald, Ersoy Burcu, Kerres Daniel	
ID 29 Effect of clay minerals on the resistant of clay core against hydraulic fracturing	4
Djarwadi Didiek, Suryolelono Kabul Basah, Suhendro Bambang, Hardiyatmo Hary Christady	
ID 31 The influence of early stress-relaxation creep on the design of large RCC dams	5
Shaw Quentin	
ID 34 Relationship between the production process and the long-term behavior of asphalt facings on rock-fill dams (AFRD)	6
Smesnik Mathias, Tschernutter Peter	
ID 36 Technical solutions on concrete for Kasabori dam heightening	7
Kawasaki Hideaki, Iwasaki Satoshi, Miyano Takeshi, Hagiwara Yasuyuki	
ID 42 Internal damage assessment of concrete arch dam by multi-laminate model upon recorded micro-geodesy data	8
Sadrejad Amir aldin, Nikkhah Majid, Mousavi Aghdam Mirsina, Sharif Tehrani Zahra	
ID 49 Study on scouring phenomena at downstream of dam during flood control	9
Kitamura Yuichi, Takagi Shingo	
ID 52 Efficient repairing and reinforcement method for AFRD damaged by the earthquake	10
Tsukada Tomoyuki, Shimazaki Masaru, Mizuno Takahiro	
ID 56 Seismic analysis based on results of the laboratory shaking table tests for the dam-model	11
Matsuura Masakazu, Ieda Hiroyuki, Tagashira Hidekazu, Sato Seichi	
ID 57 CMDs on low modulus foundations, Four first experiences in Iran	12
Ghezel Ayagh Ahmad, Mohammadian Abbas, Fadaei Mansour	
ID 61 Application of perfectly matched layer in dam-foundation interaction analysis	13
Pourdeilami Abbas, Davoodi Mohammad, Jafari Mohammad Kazem	
ID 63 Application of artificial neural networks and numerical modeling to identify deformation modulus of rock masses	14
Tayaran Narges Saadat, Motevalli Zadeh Mehdi, Javadi Farshid, Jamali Saeed, Sheibany Farhad	
ID 64 Numerical study of characteristics and discharge capacity of piano key weirs	15
Hu Han, Yang Wei, Wang Cai-huan, Hou Dong-mei	
ID 69 Upstream face of CMDs (Case Study: first CMDs in IRAN)	16
Ghezel Ayagh Ahmad, Mohammadian Abbas, Fadaei Mansour, Araghian Hamidreza	
ID 76 Trial mix and full-scale trial embankment for RCC dam at Nam Ngiep 1 hydropower project	17
Aosaka Yushi, Seoka Tadahiko, Forbes Brian A., Cockcroft John, Murakami Yoshikane, Asakawa Makoto	
ID 83 Proposing a fully automatic cementitious mix production system	18
Fujiwara Munekazu, Miyairi Itsuki, Sakazume Shunsuke	
ID 85 Dam concrete compaction management system	19
Uekou Katsuhiro, Furuya Hiroshi, Nakane Wataru, Sakazume Shunsuke	
ID 88 An experimental study on permeability of soils under shear deformation using remodeled torsional shear apparatus	20
Hisano Akihiro, Takabatake Masaharu	
ID 89 Grouting method for dam reservoir foundation by effective use of ground water flow	21
Kawashima Fumiharu, Tsukada Tomoyuki, Tsuruta Shigeru	

ID 91 Further study on sudden enlargement step aerator	22
Li Jing, Zeng Xiang, Zhou Chi	
ID 95 Innovation and development of dynamical balanced lock conveyance system	23
Yaozu Jiang, Yingzhuo Wu, Jing Li, Min Fan	
ID 96 Study of seismic performance evaluation method for concrete gravity dams on low stiffness foundation	24
Shiono Tomohiro, Yamaguchi Chihiro, Nakano Yasushi, Tsukada Tomoyuki	
ID 104 Strengthening mechanism of controlled grouting for rockfill materials: a preliminary numerical study	25
He Jialong, Zhou Yuande, Jin Feng, Zhang Chuhan	
ID 107 Construction of a tunnel spillway at large water depth	26
Takahata Ken, Yoshioka Ryoichi, Konagai Akihiro	
ID 114 Effects of inhomogeneous rock foundation on the static stability of gravity dams including seepage through the foundation	27
Taghavi Ganji Hamid, Alembagheri Mohammad	
ID 122 Earthquake damage estimation of concrete gravity dams	28
Alembagheri Mohammad	
ID 125 Study on seepage behavior of rock chip dam and its application	29
Li Nenghui, Liu Linjun, Xie Xinghua, Guo Jianshe, Tan Yefei, Tan Haijin	
ID 127 Improving spillway capacity in Germei Chay dam	30
Partovi Azar Shabnam, Ahmadi Adli Sara	
ID 133 Dam foundation design for the main dam at Nam Ngiep1 hydropower project in Laos	31
Tabuchi Takahisa, Murakami Yoshikane, Asakawa Makoto, Seoka Tadahiko, Ueda Kazuhiro	
ID 137 Damage observation in earthdam using pile group system under strong vibration	32
Gordan Behrouz, Adnan Azlan	
ID 138 Eastern Nile trans-boundary cascade dams: spillway design flood estimation techniques and selection criteria	33
Abebe Haile Michael	
ID 139 The influence of deformation on asphalt concrete-core rockfill dams and the reinforcement measures	34
Yu Hongmin	
ID 144 Seepage analysis for Gambiri diversion dam using finite element method	35
Soleymani Samane, Bahrami Hamid	
ID 145 Slope stability analysis in Shurijeh earth-fill dam using numerical models	36
Soleymani Samane, Bahrami Hamid	
ID 150 Design substantiation of dikes for salt dumps and brine storage	37
Glagovsky Viacheslav, Prokopovich Vladimir, Sozinova Tat'yana, Gibyanskaya Elena	
ID 162 Experimental study of ski jump spillway at the Nam Ngiep1 Hydropower Project in Laos	38
Takahashi Takuma, Murakami Yoshikane, Asakawa Makoto, Tsutsui Shoji, Aosaka Yushi	
ID 171 Marlborough dam construction challenges	39
Guan Polly, Robinson James, Fleming Ron	
ID 187 Estimating the effect of ice pressure on a concrete dams displacement with regression models	40
Hellgren Rikard, Malm Richard, Persson Anton, Klasson Svensson Emil	
ID 190 The effect of local aeration of Roberts splitters on cavitation risk	41
Calitz Gerard, Basson Gerrit Roux	
ID 197 Basic constitutive models for cemented material dams	42
Noorzad Ali, Badakhshan Ehsan, Vaezi Iman	
ID 203 Design and construction of high asphalt core embankment dams	43
Hoeg Kaare, Wang Weibiao	
ID 217 Jatibarang dam: a case study of foundation treatment on volcanic deposits	44
Hartanto Tri, Malindo Muhamad Duki	
ID 222 Kwaggaskloof Dam: Major rehabilitations every 20 odd years...	45
Reynolds Sonel, Oosthuizen Chris	

ID 223 Study of appropriate criteria to controlling the crust compaction of Herat Dam	46
Aleml Afshin, Zare Elham	
ID 230 Evaluating permeability and groutability at the Karun 4 dam Iran using Lugeon values and grout Take	47
Hosseiny Sohi Seyed Mohammad, Koch Manfred, Ashjari Javad	
ID 236 Effect of ground motion excitations on seismic response of concrete gravity dams	48
Seleemah Ayman, Zeidan Bakenaz, Rashed Ahmed, Elprince Mohammed	
ID 237 The hardfill mellegue amont dam to take over the ancient mellegue dam: a simultaneous rationalization of design, execution and materials	49
Dhiab Nour el Houda, Belaid Moncef	
ID 257 Dynamic analysis of concrete gravity dams in crack presence considering the dynamic interaction of dam	50
Ghezelsofloo Abbas Ali, Najmoddin Behzad, Bayati Hamidreza	
ID 259 Underwater placement of impermeable geomembrane mattresses as upstream facing and blanket	51
Scuero Alberto, El-Ashaal Ashraf, Vaschetti Gabriella, Zuffi Paolo	
ID 265 Comparison of hydraulic parameters in 1D analyze software and 3D simulation at high velocity chute	52
Nematzadeh Rasoul, Hassanzadeh Yousef, Hamidzadeh Iraj	
ID 267 Seismic analysis of dam-massed foundation reservoir system by using a feasible boundary condition	53
Mohammadnezhad Hamid, Ghaemian Mohsen, Noorzad Ali	
ID 288 Response of plastic concrete cut-off walls to dynamic loads as sealing material in the rockfill dams	54
Ghezelsofloo Abbas Ali, Sedighian Ahmad, Alimirzaei Hosein	
ID 299 The synthesis technology of temperature tracks controlling of hydraulic lining concrete during construction period	55
Fan Qixiang, Zheng Bin, Xu Chuanwen	
ID 301 Assessment of global stability of soils with respect to internal erosion	56
Říha Jaromír, Hala Mario	
ID 302 The application of a new type composite cementitious materials concrete in high velocity spillway tunnel	57
Fan Qixiang, Xu Chuanwen, Zhu Zhenggui, Nie Qinghua	
ID 304 Research of technical requirements to low heat portland cement used for Ultra-high arch dam concrete	58
Wenwei Li, Qixiang Fan, Xinyu Li, Zhajun Wen	
ID 310 Pore water pressure development and dissipation in core of Masjed-e-soleyman rockfill dam	59
Akhtarpour Ali, Soroush Abbas, Salari Morteza	
ID 312 Experimental and numerical investigation of a labyrinth weir at Turhal Dam	60
Ayata Gulcan	
ID 317 Numerical and physical model study investigating plunge pool scour in Mosul Dam	61
Aladwani Zahida Ahmad, Mahmood Abdulsalam Abdulqader	
ID 319 Simulation and inversion analysis of working performance of jinping high arch dam	62
Yi Liu, Guoxin Zhang	
ID 324 The special treatment of Cheragh-Vays dam foundation	63
Hafezquran Amir	
ID 345 Developments in the design, construction and operation of large capacity multi Strand Anchors in Australia	64
Wark Robert, Sinclair Mark, Rodd Richard, Ladiges Sean	
ID 348 Optimization of grout curtains parameters in relation to water pressure tests and water losses criteria	65
Bednarova Emilia, Kopcakova Barbara, Magula Peter, Skvarka Juraj	
ID 354 Stability analyses of Atatürk dam, Turkey as based on the updated seismic data and design code	66
Tosun Hasan, Oguz Selami	
ID 360 Dynamic analysis for fixing dam general foundation and expected permanent deformation of logia dam	67
Abdurahman Mohammed Abdulkadir, Seifu Leulseged Abayneh	
ID 362 Analysis of the test's results for Large-scale triaxial cyclic on core mixed sample material of Roudbar Lorestan Dam	68
Akbari Hossein, Imam Reza	

ID 365 Engineering simplified method for calculating earthquake-induced settlement and pore pressure rise	69
Kteich Ziad, Labbé Pierre, Semblat Jean-Francois, Javelaud Emmanuel, Bennabi Abdelkrim	
ID 368 Mechanical characterization of soil-rockfill mixtures	70
Brito Andrea, Caldeira Laura, Maranhã João	
ID 372 Evaluation of the effect of concrete blocks on seismic response of Bhumibol Dam using in-situ dynamic tests	71
Chaiprakaikeow Susit, Bay James, Chaowalittrakul Nampol, Brohmsubha Potcharapol	
ID 381 Investigation creep behavior of underground gallery (case study: Givi Dam)	72
Negahdar Alireza, Negahdar Hassan, Eshragi Reza	
ID 392 Numerical modeling for seepage analysis at Selorejo dam, Indonesia	73
Windianita Kamsiyah, B. Raharjo M. Teguh, Winari Teguh, Hidayat Fahmi, Valiant R. Raymod, Harianto Harianto	
ID 399 Verification of numerical analysis of ghoocham dam with instrumentation data	74
Hajihassani Hamidreza, Rezaee Hooman	
ID 421 Concrete dam crack monitoring system with high-resolution image processing	75
Funchal de Faria Étore, Guillermo Vellacich Más Luis, Andrade de Moura Anderson, de Souza Nogueira Daniele, Grizella Palacio Scherzer Laura	
ID 445 Site characterization for dam foundations	76
McLeod Harvey, Small Andy, Mitchell Peter	
ID 446 Investigation of venting turbidity currents in the Rudbar-Lorestan reservoir in Iran	77
Amini Azin, Venuleo Sara, Chamoun Sabine, De Cesare Giovanni, Schleiss Anton, Takhtemina Fakhredin	
ID 448 An improved methodology for meshing 3-D earth dam structures	78
Fredlund Murray, Myhre Todd	
ID 449 Efficient solution for remediation of water canals – case history of usage of Bituminous geomembrane for reconstruction of derivation canal dikes in Slovakia	79
Misar Ivan, Jůn Petr, Breul Bertrand, Moeglen Jacques	
ID 451 Spiral flow and pressure fluctuations in high shaft spillways	80
Brouček Miroslav, Satrapa Ladislav, Králík Martin	
ID 459 Change of the technical solution for the tightening of the Runcu storage reservoir	81
Bratianu Gheorghe, Ghihanis Monica	
ID 461 Dams design and construction challenges of Peter Sutherland Sr. G.S. Project	82
Bibeau Johanne, Demers Luc	
ID 463 Numerical prediction of the face slab deformation of a concrete face rockfill dam	83
Moussai Belkacem, Abdellaoui Merouane	
ID 464 Application of new Austrian Guideline on Concrete Dams	84
Zenz Gerald, Staudacher Edwing	
ID 470 Research and application of the superficial insulation scheme of Xiluodu concrete arch dam	85
Fan Qi-Xiang, Wu Kun, Chen Wen-Fu	
ID 471 Study of key technologies for reservoir-induced earthquake monitoring system in the lower reaches of the Jinsha River	86
Qixiang Fan, Hongfu Lei, Sanda Yu, Wanzheng Chen	
ID 472 investigation of scour downstream stilling basin covered with six-legged elements in dam engineering	87
Chahardah-Cheriki Gholizadeh Parvin, Shafai-Bajestan Mahmood	
ID 474 Sensitivity analysis of the effect of the permeable spur dikes on scour hole dimensions in a 90 degree bend	88
Shahabi Maryam, Kashefipour Seyed Mahmood	
ID 477 Modelling issues in the structural analysis of existing concrete gravity dams	89
Andreini Marco, De Falco Anna, Marmo Giovanni, Mori Matteo, Sevieri Giacomo	
ID 499 Technical surveys of dams by Scientific Divers – in-situ investigations and their implication	90
Stanulla Richard, Hein Steffen, Pohl Thomas, Grab Thomas, Ganß Robert, Merkel Broder	

2. Enhancements in dam surveillance systems for dam safety and site security

ID 11 Experience and prospect of dam surveillance system in China	91
Wang Shi-jun, Gu Yan-chang, Pang Qiong	
ID 12 Adaptive filtering of automatic monitoring system based on unascertained rational number	92
Li Ziyang, Ma Fuheng, Guo Li, Hu Jiang	
ID 39 Evaluation procedure for the dam safety by analysis which used stochastic approach to measurement data	93
Choi Hong Suk, Lee Jong Keun, Kwon Hyeok Kee, Sim Yun Tae	
ID 50 Development of new maintenance program for scouring measures at downstream of dam	94
Takagi Shingo, Sato Mai, Kitamura Yuichi	
ID 77 New technology research on inner deformation monitoring of high concrete face rockfill dam	95
Zhou Yanzhang, He Ning, Sun Rujian, Wang Guoli, Wang Zhangchun, He Bin, Qian Yajun, Li Denghua, Yao Mingshuai, Zhang Xian, Mei Jufu, Huang Zhousheng	
ID 92 System in visual inspection applied to consultation of dams	96
Pinto Coelho Dimilson, Patias Josiele, Franoso Rebutini Figueira Isabella, Porchetto Neves Claudio, Rodrigo Ruiz Garay Victor	
ID 94 Key technologies applied in the transformation of panjiakou dam safety monitoring system	97
Hu Zuo Liang	
ID 98 Inspection of construction joints in the concrete dam body by the impact elastic wave method	98
Ichikawa Shigeki, Kamada Toshiro, Sugiura Tomonobu, Hayashi Naoyoshi	
ID 115 Deformation monitoring of rockfill dams in normal times and after earthquakes using satellite SAR data	99
Sato Hiroyuki, Sasaki Takashi, Kondo Masafumi, Kobori Toshihide, Onodera Aoi, Yamaguchi Yoshikazu, Yoshikawa Kazuo, Sango Daisuke, Morita Yasunari	
ID 123 Dynamic interaction of submerged intake towers with dam and foundation	100
Alembagheri Mohammad	
ID 167 Dam clinic: novel approach for effective operation and maintenance of large dams in Iran	101
Etaati Hassan, Kheirkhah Nasser, Yousefi Saied	
ID 182 The safety criteria from dam instruments for improvement the Lampao dam in Thailand	102
Nanudorn Ekkapong, Sopanangkool Poemporn	
ID 211 Structural safety control of the Feiteceiro dam based on an automated data acquisition system	103
Cunha Joo, Mata Juan, Losada Ortiz Gonzalo	
ID 220 Monitoring and evaluation of dam safety after impounding of Jatibarang Dam. Semarang-Indonesia	104
Malindo Muhamad Duki, Hiroshi Shimizu	
ID 229 A field experiment with fibre optics detecting groundwater flow and piping behind a summer dike	105
Koelewijn Andr� Ren�, Taccari Maria Luisa, van Beek Vera Maria	
ID 275 Technical analysis of accelerometer devices by shaking table test	106
Akbari Hossein, Rezaei Reza	
ID 276 The thermal behavior of the concrete of Cahora Bassa dam	107
Carvalho Ezequiel Fernandes, Matsinhe Bruno Tib�rio, Oosthuizen Chris, Hattingh Louis	
ID 279 Dam safety information system in Finland	108
Isom�ki Eija	
ID 282 The communication surveillance system of huge hydropower cascade in upper Yangtze River	109
Liu Yu, Pan Yu, Xiao Xue, Zhang Xinnan	
ID 287 The modernization of the monitoring constructions behavior equipment in Romania	110
Iacob Irinel Daniela, Abdulamit Cheral	
ID 291 Structural measurements of dynamic response of hydraulic structures	111
Klun Mateja, Zupan Dejan, Kry�anowski Andrej	
ID 305 Unconfined compression strength for mixture of cement grout, bentonite and fly ash	112
Taherkhani Reza, Saeedi Azizkandi Alireza, Ghiassian Hossein	
ID 322 Study on distribution of displacement observation points for inverse analysis requirement of gravity dams	113
Li Tongchun, Lin Chaoning, Liu Xiaoqing	

ID 329 Dam Safety Emergency Plan (DSEP) for Hydropower Plants	114
Tipol Farah Hanan, Chia Chong Kian, Bujang Felix Farentino	
ID 330 Determination of limit values for safety assessment of embankment dam	115
Chalmovsky Juraj, Mica Lumir, Riha Jaromir, Spano Miroslav, Vrabel Jan	
ID 338 Some practical thoughts on inspection galleries and their role in dam safety and dam security	116
G. Membrillera Ortuño Manuel, Fleitz Jürgen	
ID 339 Dam monitoring and rehabilitation works on Kayabeyi RCC Dam	117
Verdianz Markus, Güven Selami, Abiral Ali Enver	
ID 349 Fibre-optic temperature monitoring for seepage detection in embankment and tailings dams	118
Johansson Sam, Sjö Dahl Pontus	
ID 361 Arch dam deformation prediction using computational intelligence techniques	119
Marence Miroslav, Mihaylova Angela, Hristova Annie, Chacon-Hurtado Juan Carlos	
ID 364 Leak detection in earth dams using optical fiber distributed temperature sensor	120
Garandet Aurélie, Bonelli Stéphane, Lamour Vincent, Ducret Damien, Tatin Maxime	
ID 369 Development of stage-discharge relationship in the river upstream of a small dam	121
Kim Min Ji, Jun Kyung Soo	
ID 380 Monitoring of the seepage controlling system of the Karun 4 dam in Iran	122
Hosseiny Sohi Seyed Mohammad, Koch Manfred, Ashjari Javad	
ID 382 Assessment of the Porce II dam	123
Duque Rivera Alexi Adriana, Cardona Camilo Andrés	
ID 383 Methodology for the definition of auscultation thresholds	124
Duque Rivera Alexi Adriana	
ID 402 Peak ground acceleration recorded at dams in Korea in 2016	125
Shin Dong-Hoon, Yum Kyung-Taek, Jo Seong-Bae	
ID 417 Sarima modeling for prediction of displacement control of the shell dam of funil hydroelectric Plant	126
da Silva Ribeiro Lucas, Wilhelm Volmir, Funchal de Faria Étoe, José Pires Filho Celso	
ID 418 Analysis of dam displacements by spaceborne SAR interferometry	127
Lazecky Milan, Bakon Matus, Perissin Daniele, Papco Juraj, Gamse Sonja	
ID 433 Radar monitoring results at Samarco tailings storage facilities after Fundão Dam failure	128
Castilho Breno, Carneiro Samuel, Marques Eduardo	
ID 434 The future of infrastructure: Dams and the Internet of Things	129
Dustin J. Shaun, Marr Allen	
ID 460 The use of InSAR data to monitor slope stability of dams and water reservoirs	130
Raventós Josep, Arroyo Marcos, Garcia Guerra Juan Manuel, Conde Aritz, Salva Borja, Garcia Maite	
ID 498 The enhanced seismic surveillance system for Chirkey dam safety (Caucasus, Russia)	131
Antonovskaya Galina, Moshkunov Konstantin, Dubinsky Sergey, Kapustian Natalia	

3. Uncertainties and risk-informed decision making in dam design, construction and operation

ID 47 Dam safety risk assessment of Shatoot storage dam	132
Bemani-Yazdi Ali Asghar, Mohammadi Arezoo	
ID 59 Valley narrowing of an arch dam during its initial impounding	133
Liang Guohe, Li Qingbin, Zhu He, Fan Qixiang, Hu Yu	
ID 71 Reliability analysis for slope stability of embankment dam	134
Xu Zeping, Yang James, Zhang Qing, Yang Ping	
ID 74 A risk-based approach to optimize cascading dams remediation.	135
Roberds William, Downing Bruce, Hawson Herb	
ID 75 Development of remediation options for an ageing dam	136
Downing Bruce, Simzer Jenna, Hawson Herb	

ID 79 Application of risk informed decision making and potential failure mode analysis to improve critical infrastructure resiliency of in anticipation of a dam or levee break	137
Beduhn Robert	
ID 108 Site selection of the proposed Noordoewer/Vioolsdrift Dam in the Orange River, South Africa	138
Badenhorst Danie, Fynn Cameron, Lombaard Jaretha	
ID 116 Probabilistic seismic demand analysis of jointed gravity dams	139
Ghasemi Gavabar Saeid, Alembagheri Mohammad	
ID 118 Seismic reliability analysis of gravity dams founded on heterogeneous rock foundations	140
Taghavi Ganji Hamid, Alembagheri Mohammad	
ID 129 Risk analysis of dam located over active fault	141
Rezaifardi Maryam	
ID 143 Dam-Break Risk Assessment of Upper Cisokan PSPP Dam using GIS Technology and Flood Modeling	142
Rizcanofana Rochamukti, Rizaldi Taqwa, Suwanda Jefry, Urfa Annisa, Hadi MS Sofan, Detrian Irsyad	
ID 149 Quantitative Risk Analysis to inform safety investments in Jaime Ozores Dam (Spain)	143
Setrakian-Melgonian Manuel, Escuder-Bueno Ignacio, Castillo-Rodriguez Jesica T., Morales-Torres Adrián, Simarro-Rey Dolores	
ID 160 Risk assessment for a dam with a vegetation-lined spillway	144
Bowles David, Anderson Loren, Chauhan Sanjay, Diffin Nicole, Hansen Tor, Kelly Bethany, Monroe Adam, Thelen Michael	
ID 165 Risk-based cost analysis of diversion systems, case study: Karun 4 dam in south west of Iran	145
Heidari Ali, Saghafian Bahram, Eghbal Akhlaghi Maryam	
ID 174 Use of quantitative risk results to inform dam safety governance application to Vado dam (Spain)	146
Galán Martín David, Escuder Bueno Ignacio, Morales-Torres Adrian	
ID 194 Selecting dam type based on geological and economical aspect	147
Nadya Yulianti Dewi, Sofan Hadi M. Suistama, Caesar Utama Yudhiro, Saputra Yodi	
ID 201 Addressing the Failure Modes of Risk Informed Decision Making	148
Halpin Eric C., Escuder-Bueno Ignacio	
ID 224 Estimating operational risks and human error at USACE flood risk management and hydropower projects	149
Robert Patev, Komey Adiel, Baecher Gregory	
ID 240 Use of parameters identified by inverse analysis in an earth- and rockfill dam application	150
Tormanovic Jasmina, Mattsson Hans, Knutsson Sven, Laue Jan	
ID 242 Reliability-based rock erodibility for dam foundations, spillways and tunnels	151
George Michael	
ID 272 Analysis of the cause of the valley shrinkage and its influence on the deformation and stress of the super high arch dam	152
Youzhi Liu, Guoxin Zhang, Qixiang Fan, Heng Cheng, Yi Liu, Jianfang Xiang	
ID 277 Findings of the ussd blind prediction workshop for seismic event at a concrete dam	153
Percell Phoebe	
ID 280 Operation rules at Poiana Uzului dam imposed by risk level constrains	154
Stematiu Dan, Sirbu Neculai	
ID 283 The relative importance analysis of risk factors for dams during construction	155
Ge Wei, Li Zongkun, Li Wei, Wang Juan	
ID 311 Increase quality in dam construction by using optimized formwork solution in combination with concrete	156
Guttenbrunner Andreas, Zitzenbacher Andreas	
ID 321 Risks of exceeding time and cost in construction of hydropower projects	157
Riemer Wynfrith	
ID 327 Identification of safety risk factors based on improved analytic hierarchy process for earth dams	158
Liu Xiaoqing, Shen Junrong, Wu Haoran, Li Tongchun	
ID 332 Discussion for evaluation of seismic risk analysis of dams in Iran	159
Komak Panah Ali, Rahmani Hamidreza	

ID 335 Research on lifecycle risk prevention and control for cascade reservoirs Zhou Xingbo, Zhou Jianping, Du Xiaohu	160
ID 336 Research on risk prevention and control for cascade reservoirs: risk cascade dam type and risk grade criteria Zhou Xingbo, Zhou Jianping, Du Xiaohu	161
ID 340 Methodology for determination of limit values for dam safety supervision using the Eurocodes Adam Karel, Hodák Jiří	162
ID 341 Dam categorization in Czech Republic using the GIS data Černý Ondřej, Hodák Jiří, Kantor Tomáš	163
ID 347 Uncertainty reduction of seismic fragility of intake tower using bayesian inference and mcmc simulation Choi Byoung Han, Alam Jahangir, Kim Dookie	164
ID 355 Total risk and seismic hazard analyses of large dams in northwest Anatolia, Turkey Tosun Hasan, Tosun Turgut Vatan	165
ID 371 System approach and simulation in risk assessment of dams Zielinski Przemyslaw, Perdikaris John, Zhou Ross, Salloum Tareq, Sakamoto Derek	166
ID 375 Bedrock erosion in spillways – remediation measures proposed for two large dams Eriksson Per, Persson Jonas, Nilsson Carl-Oscar, Yang James	167
ID 385 Uncertainties and risk-informed decisions making of Keureuto Dam grouting works design Ardiana Junira, - Samadi, Saputra T. Maksal, Murwanto Eko	168
ID 395 Terlicko Dam, rehabilitation works Kratochvil Dalibor, Peterek Lumir	169
ID 408 Uncertainties in seismic hazard assessment within stable continental regions (SCRs): case study conducted in oman Nayeb Asadollah Damavandi Saeed, Rezaeian Alireza	170
ID 410 Safety multi-criteria analysis for ageing dams Christophe Picault, Damien Ducret, Xavier Bancal	171
ID 440 Managing uncertainties during the construction of an RCC dam in Vietnam Kirby Andrew, Blower Tim, Meldrum Jack	172
ID 487 Seepage analysis of an off-stream reservoir, in Iran Salari Morteza, Abrishami Saeed, Akhtarpour Ali, Bolouri Bazaz Jafar	173
ID 489 Drafting adequate provisions in a dam construction & erection or rehabilitation contract to cope with uncertainties /unforeseen events: risk allocation between the Employer and the Contractor Geisseler Bettina	174
ID 494 Monitoring of dams by SAR Interferometry: the potential of satellite and terrestrial techniques Mazzanti Paolo, Perissin Daniele, Rocca Alfredo, Brunetti Alessandro, Antonielli Benedetta	175
ID 511 The research on the internal flow pattern characteristics of steep slope tunnel Li Xuehai, Chen Wen, Li Heng	176
 4. Balancing technical, socio-economic and environmental aspects of dam engineering	
ID 13 Approval procedure of dam development and management in Indonesia Yuliningtyas Cristina Dwi	177
ID 22 Reservoir system operation considering environmental flow: a case of Geum River Basin, Republic of Korea Park Sangkwon, Babel Mukand Singh	178
ID 105 Analysis of reservoir-induced seismic in Three Gorges Reservoir Zeng Xinxiang, Hu Xiao, Chang Tinggai, Zhu Hongbing	179
ID 106 Competing factors for the sizing of a new dam in the Orange River, South Africa Pieterse Hermien, Badenhorst Danie, Mahlanga Luyanda	180

ID 112 Desalination process as an important role in design of Sei Gong Dam as an estuary dam located in small island	181
Mayangsari Anissa, Gartika Robby Indra	
ID 134 Flood control reservoir Neuwuerschnitz – a successful compromise between dam engineering and environmental protection	182
Haufe Dr. Holger	
ID 186 Development and operation of sustainable hydropower infrastructures: examples as good practices	183
Branche Emmanuel	
ID 247 Site C hydroelectric project: predicted changes in Peace River morphology and sediment transport	184
Nistor Craig, Martin Violeta	
ID 333 Assessing the welfare of dam affected society in Sumedang, Indonesia: policy recommendations for future improvement	185
Wiryawan Bangkit A., Nur 'Aini Yenni, Sinarwati Retno	
ID 352 The Hampstead Heath Scheme in the City of London - a very difficult scheme	186
Hughes Andy	
ID 366 A sustainable approach to deal with sediments considered as wastes in EU	187
Branche Emmanuel	
ID 404 Achieving environmental and social safeguards for sustainable hydropower development in Himachal Pradesh, India	188
Sharma Devendra Kumar, Gupta Hemant Kumar	
ID 407 Planning and design of environmentally sustainable Thana-Plaun hydroelectric project on Beas river in India	189
Sharma Devendra Kumar, Gupta Hemant Kumar	
ID 412 Khersan III, construction of a large arch dam, considering environmental impacts of construction methods	190
Ghamari Habashi Mohammad, Azarin Azadeh, Ghaedi Mohammad Reza	
ID 438 The socio economical, technical and environmental concerns in regard with Chitgar Lake through design and implementation of integrated hydraulic system	191
Zolfagharian Mahdi, Emam Ali, Karimi Leila, Esmaeeli Peyman	
ID 454 The EURCOLD Manifesto	192
Mazzà Guido	
ID 455 Societal risk - how we measure and evaluate it	193
Zielinski Przemyslaw	
ID 480 Improving modified icold method with loss of life index for dam safety risk assessment in Indonesia	194
Henrianto Anto, Triweko R.W	
ID 492 Improving biodiversity management	195
Vanier Benoit	
ID 493 Sustainability: financial implications for the design and operation of dams	196
Hotchkiss Rollin H.	
ID 496 Analysis of pressure and velocity in stepped spillway by Fluent (Case study: Siah-Bisheh dam)	197
Bagherinia Mahsana, Barani Gholam-Abbas, Nikpour Mohammad Reza	
ID 510 The distribution of sediments deposition in the Three Gorges Reservoir	198
Lu Jinyou, Yao Shiming, Zhou Yinjun	

5. Advancements in analysis and design within flood protection reservoirs, levees and tailing dams

ID 17 Internal erosion in flood protection embankments, levees and tailings dams	199
Bridle Rodney	
ID 24 Assessment of erosion and suffosion processes of Treysa-Ziegenhain embankment dams	200
Haselsteiner Ronald, Kerres Daniel	
ID 40 Prevention of internal erosion and excess seepage in the reservoir of HPP Dubrava in Croatia	201
Skopal Vedran, Padovan Božo, Mahnić Mario	

ID 78 Application research on dynamic control of reservoir water level in flood season based on flood utilization	202
Yang Qing, Liu Wei	
ID 80 Contribution to the increase of the hydrological safety of tailings dams	203
Petkovski Ljupcho, Mitovski Stevcho	
ID 148 Ten years of lessons learned from English levee performance during severe flood events	204
Simm Jonathan, Flikweert Jaap-Jeroen, Hollingsworth Claire, Tarrant Owen	
ID 151 Levees and flood defences: an international community and recent advances	205
Tourment Remy, Bottema Marcel, Van Meindert, Sharp Michael K, Simm Jonathan	
ID 152 Inventory and review of levees in the united states	206
McVicker Jamie	
ID 158 Development of guidelines for a levee safety program	207
Sharp Michael	
ID 170 Safety of dams, weirs and levees during flood discharges in Slovakia	208
Kasana Andrej, Bednarova Emilia, Minarik Marian, Novak Vladimir	
ID 173 Design of dams for mining industry	209
Herza Jiri, Phillips John	
ID 192 Assessment of internal erosion in the glacial till core of a Swedish dam	210
Silva Ingrid, Lindblom Jenny, Viklander Peter, Laue Jan	
ID 215 Tailings impoundment stabilization to mitigate mudrush risk	211
Adams Amy, Friedman Daniel, Brouwer Ken, Davidson Scott	
ID 243 Methodology for mapping of potentially flooded areas from hypothetical dam break of Lajeado HEPP	212
Pupim Pedro Henrique, Santini Mauricio, Dall Aglio Millton, Nascimento Jefferson	
ID 244 Occurrence of leakages, stability assessment and remedial measures on the derivation channel Sucany	213
