introduction xv

CHAPTER ONE

UNDERSTANDING THE MIGRATION PROCESS 1

Bonnie Parks

Assembling the Team 1

Identify the Migration Lead (Project Manager) 2

Organize 2

Communicate 2

Motivate 2

Delegate 2

Assemble the Rest of the Team 3

Develop Your Project Plan 3

Clean Your Data 4

Bibliographic Data 5

Acquisitions Data 6

Holdings and Electronic Resources Data 6

Item Data 7

Patron and User Data 7

Integrating with Other Systems 8

A Few Words to the Wise 8

Conclusion 9

CHAPTER TWO**FORMATS AND DATA CLEANING 11***David Forero***Understanding Standards 11****Mapping the Transfer 13****Delimiters 15**

Record and Field Delimiters 16

Markup Delimiters 17

Data Cleaning 19**Solving Problems at a High Level 20**

Importing to a Spreadsheet 21

Reordering Names 22

Cleaning up Dates 25

Evaluating Spreadsheet Cleanup 27

Solving Problems at a Low Level 27

Interrogating the File 28

Coping with Delimiters within Fields 29

Reordering Data within Fields 30

Review 32**Resources 32****CHAPTER THREE****THINKING BEYOND EXCEL 33***Kate Hill***Why Learn a New Tool? 34****Getting Started 34****Modifying Data Structures 36****Finding Errors in Your Data 38****Transforming Data 42****Saving Your Steps and Exporting Your Data 44****Resources 45**

CHAPTER FOUR**WORKING WITH MARC DATA 49**

*Terry Reese***Getting Started 50****Available Tools 50**

MarcEdit 51

Working with MarcEdit 52

Character Conversions 53

Character Normalizations 54

Data Preparation 58

Splitting up Files 59

Joining Files 61

Extracting Selected Records 62

Data Validation 67

Record Editing 68

Global Editing Tools 72

Global Replace 74

Add/Delete Field Data 76

Build New Field 80

Copy Field Function 81

Edit Indicators Function 82

Edit Field Data Function 82

Edit Subfield Data Function 82

Swap Field Function 85

Working with Non-MARC Metadata 86

XML Functions/Framework 86

OAI-PMH Harvester 90

Batch Harvesting 90

Single-Server Harvesting 91

Merging Record Data 93

Beyond the Editor 97

OpenRefine Integration 97

MARC SQL Explorer 101

MarcEdit Application Programming Interfaces 103

Conclusion 107**Notes 107**

CHAPTER FIVE

BIBLIOGRAPHIC AND ITEM DATA 109*Kelley McGrath*

System Architecture	109
Bibliographic Data Quality	111
System Control Numbers	112
Local Data and Local Edits	115
Local Record Has a Bibliographic Utility Number That Describes a Different Resource	115
Local Edits to Enhance or Correct Master Records	116
Institution-Specific Local Data	116
Online Resources	117
Other Cleanup	118
Item Records	118
Boundwith Records	120
Call Numbers	121
General Error Checking	125
Exporting Data and After	125
Resources	126

CHAPTER SIX

ACQUISITIONS 127*Siôn Romaine*

Decide What to Migrate . . . Or Not	128
Determine Your Institutional Requirements	128
Determine What Records Should Be Migrated	129
Understand the System Architecture and Map the Data	130
Order Records	131
Vendor Records	132
Funds	132
Invoices	133
License Records	134
Authorizations and Permissions	134

Know Your Data . . . and Clean It Up	134
Mapping Your Data to the New System	135
Order Record	135
Clean Your Data (Before and After)	136
Review and Document Existing Workflows and Build New Ones	136
Workflow Checklist	137
Communicate	139
Vendors	140
Information Technology Staff	140
Central Accounting	140
Library Staff outside Acquisitions	141
Library Staff inside Acquisitions	141
Resources	141
Related Issues Discussed in Other Chapters	142
Reference	142

CHAPTER SEVEN

PATRON DATA AND AUTHENTICATION 143

Nathan Mealey

Migrating User Data: Overview	143
Step 1: How Does Your New System Store and Use Patron Data?	144
Determining What User Data Fields to Plan	144
Core Data	144
Supplementary Data	145
Identifying How the New System Uses Patron Data	145
Step 2: How Does Your New System Store Data Relative to Your Current System?	146
What Data Do You Already Have?	146
Comparing Patron Data between Your Old and New Systems	147
Step 3: Identifying and Understanding the Tools That You'll Use to Migrate Your Data	148
Does Your New Vendor Provide System-Specific Migration Tools?	148
Does Your Vendor Expect a Specific Format for the Data?	149

Step 4: Developing and Testing Your Data-Migration Strategy	150
Will You Need to Do Any Data Transformation, and Can You?	150
Are There Any Gaps in Your Exported Data?	151
Will You Need to Convert the Format of Your Data?	152
Conducting a Test Load of Your Patron Data	152
Step 5: Migrating Your Data and Post-Migration Testing	153
Step 6: Moving from Data Migration to Data Maintenance	154
Developing Your Regular Patron Load	154
Augmenting Your Patron Data to Take Advantage of New Features	155
Setting up User Authentication	156
Common Types of User Authentication	156
What Authentication Method(s) Are You Using Now?	157
What Authentication Options Does Your Campus Support?	159
Understanding Your New System's Authentication Options	160
Choosing Your Authentication Option(s)	161
Will You Need to Set up Multiple Authentication Options?	161
Selecting Your Authentication Option(s)	162
Implementing User Authentication	164
Resources	165

CHAPTER EIGHT

SERIALS 167

Elan May Rinek

Scanning Your Environment	168
Identify Data Sources	168
Analyze Current Infrastructure	168
Analyze New Infrastructure	170
Develop a Plan for Migration	171
Mapping Fields	172
Testing Data	173
Develop a Plan for Post-Migration	173
Keeping Staff Sane during and after Migration	174

CHAPTER NINE**ELECTRONIC RESOURCES MANAGEMENT 175**

Todd Enoch

Data Types	175
Step 1: Investigation	177
Step 2: Determining Philosophy and Focus	179
Step 3: Identifying Data Sources	179
Step 4: Mapping Fields	181

CHAPTER TEN**INSTITUTIONAL REPOSITORIES AND DIGITAL COLLECTIONS 183**

Kyle Banerjee

Steps Involved in Migrating a DAM/IR	184
Determine the Nature of Collections	185
Understanding Metadata in a DAM/IR	185
Determine Access Controls in Place	187
Identify Import and Export Methods Supported on Old and New Systems	188
Harvesting	188
Delimited File Transfer	192
XML (eXtensible Markup Language)	193
API (Application Programming Interface)	193
Embedding Metadata Directly in Objects	194
Other Export Options	195
Verify Exported Metadata and Objects	195
Identify and Address Schema Differences	196
Verify Imported Metadata and Objects	197

Configure System	198
User Accounts and Authentication	198
Look and Feel	198
Collections, Metadata, and Vocabularies	198
Integrating with Other Systems	199
Update Entries to Handles, DOIs, and PURLs	199
Transitioning Statistics	199
Update URLs in Catalogs, Websites, Documentation, and Marketing Materials	200

Resources	200
------------------	------------

CHAPTER ELEVEN

MIGRATING TO SHARED SYSTEMS 201

Al Cornish

Shared Bibliographic Standards and Policies	202
Data Sharing	202
Contractual Agreement with Vendor (Commercial Shared System)	203
Migration Scope	203
System Infrastructure	204
Implementation Methodology	204
Number of Data Loads	205
The Migration Process	205
Support Request Submission	205
Other Pre-Migration Work	206
Team Structure	206
Vendor-Side	206
Shared System Group/Consortium-Side	207
Project Milestones	207
Lessons Learned	209
Need for Sustainability in Human Resources	209
Access to Legacy Management System(s) Post-Migration	210
Benefits of Single-Group Migration	210
Importance of Local Project Management Skills	211
Conclusion	211

CHAPTER TWELVE**WORKING WITH LIBRARY VENDORS 213**

Kate Thornhill

The Three-Legged Digital Library Chair	213
SaaS Vendor Relationships and Communication	215
Migration Strategy for Working with a Vendor	218
Pre-Migration Assessment	218
Continuously Managing Business Relationships with Vendors	222

CHAPTER THIRTEEN**TESTING AND GOING LIVE 225**

*Bonnie Parks***Circulating Library Materials 226**

Data Integrity	226
Create and Modify Users	226
Check out, Return, and Renew Materials	227
Additional Circulation Functions	227

Systems Administration	228
Integrations with Other Systems	229
Other System Functions	229

Acquisitions and ERM Functionality	229
Data Integrity	230
Create and Update Information	230

Cataloging	230
Data Integrity	231
Importing and Exporting	231
Create and Update Information	231

A Few Words to the Wise 232

Acronyms	235
About the Contributors	237
Index	239
