

CONTENT

1.	INTRODUCTION	3
2.	GENERAL PART	5
2.1.	Essentials of cytological examination	5
2.2.	Preparation of cytological specimens	7
2.3.	Cellular composition of cerebrospinal fluid	9
2.3.1.	ELEMENTS OF THE LYMPHOCYTIC SERIES	9
2.3.2.	ELEMENTS OF THE MONOCYTIC SERIES	11
2.3.3.	ELEMENTS OF THE MYELOID SERIES - GRANULOCYTES	14
2.3.4.	EPITHELIAL CELLS OF THE CSF TRACT	16
2.3.5.	TUMOR CELLS	17
2.3.6.	MICROORGANISMS	19
2.3.7.	IMMUNOLOGICAL APPENDIX	19
2.4.	Classification of cytological findings in cerebrospinal fluid	24
2.5.	Staining methods used in the cytology of cerebrospinal fluid	34
3.	SPECIAL PART	46
3.1.	Cytological manifestation in bacterial neuroinfections	46
3.2.	Tuberculous meningitis	49
3.3.	Viral neuroinfections	51
3.4.	Herpetic encephalitis	54
3.5.	Neuroborreliosis + Appendix I: Findings in CSF in neuroborreliosis	57
3.6.	Cryptococcus meningitis	61
3.7.	Neurosarcoidosis	62
3.8.	Neurosyphilis	62
3.9.	Polyradiculoneuritis Guillain-Barré	63
3.10.	Peripheral paresis of facial nerve	64
3.11.	Meningism	65
3.12.	Toxic encephalopathies	66
3.13.	Multiple sclerosis	67
3.14.	Intermeningeal hemorrhage	69
3.15.	Intraparenchymatous cerebral hematoma	73
3.16.	Cerebral ischemia	75
3.17.	Tumorous diseases of CNS	77

4.	PUBLICATIONS	82
4.1.	Parameters of cerebrospinal fluid in the patients with neuroborreliosis	82
4.2.	Cytological findings in cerebrospinal fluid in multiple sclerosis	90
5.	RECOMMENDED LITERATURE	104
6.	LIST OF ABBREVIATIONS AND ACRONYMS	124
7.	PICTORIAL PART	126
