

WSCG 2002 contents

POSTERS ONLY

- Cesar,P., Vuorimaa,P.: A Graphical User Interface Framework for Digital Television 1
- Danaher,M.,Creemers,W.: An Approach to Real-Time Plant Generation 5
- Hast,A., Barrera,T., Bengtsson,E.: Reconstruction Filters for Bump Mapping 9
- Hetze,B., Hübsch,G., Kohlschmidt,H.: An Approach for a Campus Visualization System 13
- Chludil,J., Zara, J.: Classification of Systems for Simulation and Visualization of Physical Phenomena 17
- Kim,S.S., Lee,S.H., Park,J.H., Yang,Y.K.: Rule-Based Modeling for 3D GIS 21
- Komzak,J., Slavik, P.: Architecture of System for Configurable GIS Data Compression 25
- Lincke,C., Wüthrich,C.: Ambiguous Digitizations by Dilation 29
- Pintavirooj,C., Sangworasil,M.: 3D Modeling Based on Radon Transform with Application in Volume Measurement 33
- Pourreza,H.R., Rahmati, M., Behazin, F.: Weighted Multiple Bit-Plane Matching, a Simple and Efficient Matching Criterion for Electronic Digital Image Stabilizer Application 37
- Romano,R., Vitulano,D.: A Variational Representation for Efficient Noisy Segmentation 41
- Rudomin, I., Castillo, J.: Real-Time Clothing: Geometry and Physics 45
- Silva, A.C.D.: Graphics Simulator for Adversary Adaptive Agents in War Environment with Real Time Parallel Processing 49
- Teichrieb,V., Frery,A.C., Kelner,J.: DEMEDITOR: A Tool for Editing DEMs 53
- Vanderstockt,Y., Whyte,R.N.: Watershed Transfromation: Reducing the Over-Segmentation Problem by Applying a Noice Reducer and a Region Merger 57
- Mendonça,M., da Silva,I.N., Castanho,J.E.C.: Camera Calibration Using Neural Networks 61
- Strauss,E., Jiménez,W., Giraldi,G., Silva,R., Oliveira,A.: A Surface Reconstruction Approach Based on Multi-resolution Methods and the T-Surfaces Framework 65
