Section I

Special Issue

Selected papers from the 2016 Capstone Design Conference

Guest Editors

Susannah Howe—Smith College, USA
Steven Beyerlein—University of Idaho, USA
Scott Palo—University of Colorado, USA
Peter Rogers—The Ohio State University, USA
R. Keith Stanfill—University of Florida, USA
Patsy Brackin—Rose-Hulman Institute of Technology, USA
Junichi Kanai—Rensselaer Polytechnic Institute, USA
Jim Vallino—Rochester Institute of Technology, USA

Section II

Contributions in: Design Thinking, Service-Oriented Design, Flipped-Classroom, Project Based Learning, Game-Based Learning, Team-Building, Quality Assurance, Assessment, Online Laboratories, Distance Learning, Educational Resources, Motivation, STEM, K-12 Education, Operations Management, Computer Engineering, Electronics Engineering, Mechanical Engineering

Ahmad Ibrahim	1387	Editorial
Patsy Brackin, Susannah Howe, Peter Rogers, R. Keith Stanfill, Steven Beyerlein, Junichi Kanai, Jim Vallino and **Scott Palo**	1388–1392	Guest Editorial: The 2016 Capstone Design Conference
Susannah Howe, Laura Rosenbauer and **Sophia Poulos**	1393–1421	The 2015 Capstone Design Survey Results: Current Practices and Changes over Time
Robert A. Hart and **Todd W. Polk**	1422–1431	An Examination of the Factors that Influence Students' Capstone Project Choices
Gregory J. Kowalski and **Bridget M. Smyser**	1432–1441	Success Factors for International Students in Capstone Design Teams
Charles Pezeshki, Jacob Leachman and **Steven Beyerlein**	1442–1452	Managing Project Scope for Successful Engineering Capstone Projects
Olga Pierrakos	1453–1267	Changing the Culture in a Senior Design Course to Focus on Grit, Mastery Orientation, Belonging, and Self-Efficacy: Building Strong Academic Mindsets and Psychological Preparedness
Keelin Leahy, Dan Phillips, Elizabeth Debartolo, Patsy Brackin, Steve Chenoweth and **Allen White**	1468–1484	Encouraging Creativity in Capstone Design
Victoria Matthew, Thema Monroe-White and **Morgan Miller**	1485–1498	Integrating Entrepreneurship into Capstone design: An Analysis of Faculty Practices & Perceptions
Baldur Steingrimsson, Robert Jones, Faryar Estesami and **Sung Yi**	1499–1512	Ecosystem for Engineering Design Learning—A Comparative Analysis
Jay R. Goldberg and **Pascal Malassigné**	1513–1520	Lessons Learned from a 10-Year Collaboration Between Biomedical Engineering and Industrial Design Students in Capstone Design Projects
Ben Lutz and **Marie C. Paretti**	1521–1533	Exploring Student Perceptions of Capstone Design Outcomes
Kristine R. Csavina, Adam R. Carberry and **Cherrylynne R. Nethken**	1534–1542	Understanding Perceptions of Reflection Among Engineering Educators and Students
Eduardo de S. Zancul, Luiz F.C. dos S Durão, Roseli de Deus Lopes, Davi Nakano, Paulo Blikstein, Gustavo G. Majzoub and **Danilo L. Dalmon**	1543–1560	An Empirical Study on Design-Based vs. Traditional Approaches in Capstone Courses in Engineering Education
Sang-Yoon Bae, Jukrin Moon and **James R. Morrison**	1561–1574	Design of Engineering Courses as a Service: Emotions, Senses and Implementation
Jacqulyn Baughman, Lesya Hassall and **Xiaowei Xu**	1575–1585	Student Perceptions of Flipping a Mechanical Engineering Design Course

MAJETEK
ÚSTŘEDNÍ KNIHOVNY
ČVUT

Jasmina Berbegal-Mirabent, Dolors Gil-Doménech and **Inés Alegre**	1586–1597	Where to Locate? A Project-Based Learning Activity for a Graduate-Level Course on Operations Management
Mehmet Cengiz, Kokten Ulas Birant, Pelin Yildirim and **Derya Birant**	1598–1617	Development of an Interactive Game-Based Learning Environment to Teach Data Mining
Vaidotas Barzdenas, Gediminas Grazulevicius and **Aleksandr Vasjanov**	1618–1626	A New Approach for the Successful Team Building in VLSI Design Projects
Issam Damaj and **Ashley Ater Kranov**	1627–1642	Sustainable Practices in Technical Education: A Quality Assurance Framework
Carmen González-Lluch, Pedro Company, Manuel Contero, Jorge D. Camba and **Jesús Colom**	1643–1653	A Case Study on the Use of Model Quality Testing Tools for the Assessment of MCAD Models and Drawings
Hong Zhou, Zhongcheng Lei, Wenshan Hu, Qijun Deng Dongguo Zhou and **Zhi-Wei Liu**	1654–1663	A Multi-criteria Method for Improving the Assessment of Students' Laboratory Work Using Online Laboratory
N. Efkolidis, C. García-Hernández, J. L. Huertas-Talón and **P. Kyratsis**	1664–1671	Sustainability and Distance Learning: Technical Universities Sharing High Cost Resources
Chao-Tung Liang, Franck Zenasni, Yu-Cheng Liu and **Chaoyun Liang**	1672–1683	The Role of Intrinsic Motivation in Student Imagination: A Comparison Between Engineering and Science Majors
Vytautas Štuikys, Renata Burbaitė, Tomas Blažauskas, Dominykas Barisas and **Mikas Binkis**	1684–1698	Model for Introducing STEM into High School Computer Science Education
Kumar Yelamarthi, Brian DeJong, Tolga Kaya, Matthew Prewett and **Daniel Chen**	1699–1709	Engaging Secondary School Teachers in Engineering Design: Lessons Learned and Assessment of a Research Experience for Teachers Program
	1710	Guide for Authors
