

TABLE OF CONTENTS:

1	BENEFICIATION; SECURING FUTURE SUPPLY, PROCESSING FRESH FLY ASH AND RECLAIMING LANDFILLED ASH	2
2	MINERALOGICAL AND MECHANICAL PROPERTIES OF FLY ASH PRODUCED BY AMO POWER STATION WITH RESPECT TO SOIL TREATMENT	9
3	STATUS OF CCPs AND ITS IMPACT ON TRADE AND UTILIZATION	13
4	EFFECT OF INCORPORATING QUARRY CLAY ON THE PRODUCTION OF ALKALI-ACTIVATED COAL FLY ASH BRICK	21
5	ALKALI ACTIVATED FLY ASH MORTARS: IDENTIFICATION OF CHLORIDE TRANSPORT COEFFICIENT FOR VARIOUS MIXTURE COMPOSITIONS	27
6	RECOVERY AND PROCESSING OF WET-STORED FLY ASH FOR USE IN CONCRETE CONSTRUCTION	31
7	EXPERIENCES WITH USING CLASS C FLY ASH IN REFRACTORY MATERIALS	39
8	SYNTHESIS OF ULTRAMARINE BLUE FROM BLACK COAL FLY ASH	45
9	AIR-ENTRAINMENT AND FREEZE-THAW DURABILITY OF MODERN FLY ASH CONCRETES	49
10	MECHANOCHEMICAL ACTIVATION OF FLY ASHES: A WAY TO INCREASE THE AMOUNT OF FLY ASHES IN CONCRETE BY KEEPING THE STANDARDS OF QUALITY	57
11	IMPLEMENTATION OF BASIC WORK REQUIREMENT 3 IN HARMONIZED PRODUCT STANDARDS - UPDATE ON CEN/TC 351 FOR TEST PROCEDURES AND STATUS OF WORK IN CEN/TC 104/WG4 FOR IMPLEMENTATION INTO EN 450-1 -	65
12	UTILIZATION OF COAL BOTTOM ASH IN CONCRETE MANUFACTURING	73
13	TERNARY BINDER INCORPORATING CFBC FLY ASH: MICROSTRUCTURE EVOLUTION AND MICROMECHANICAL STRENGTH PREDICTIONS	82

14	SUITABILITY OF COAL FLY ASH FOR THE DEVELOPMENT OF GEO-POLYMER BINDERS: EFFECTS OF PRECURSOR PROPERTIES AND SYNTHESIS PARAMETERS	87
15	RECLAIMING DEGRADED SOUTH AFRICAN SOILS WITH SILICEOUS COAL FLY ASH	94
16	ALUMINIUM EXTRACTION FROM ULTRAFINE COAL FLY ASH BY THERMOCHEMICAL PROCESSING WITH AMMONIUM SULPHATE AND/OR AMMONIUM BISULPHATE	101
17	UTILISATION OF COAL BOTTOM ASH FOR THE PRODUCTION OF COMPRESSED BUILDING BLOCKS IN SUB-SAHARAN COUNTRIES	107
18	ENVIRONMENTAL TESTING OF FLY ASH FOR CONCRETE IN GERMANY - A REALLY NEW APPROACH?	115
19	NEW PROCEDURE FOR ASH SPECIMEN PREPARATION WITH LOWER TENSION	123
20	PRACTICAL UTILIZATION OF NUMERICAL MODELLING IN ENERGY INDUSTRY	129
21	CURRENT STATE OF COAL ASH UTILIZATION AND EFFORTS TO EXPAND THE UTILIZING FIELD IN JAPAN.	135
22	LEACHING OF TRACE ELEMENT IN SOILS AMENDED WITH COAL FLY ASH	137
23	MECHANICAL ACTIVATION OF FLY ASHES: A GOOD STARTING POINT FOR THE ACCELERATION OF CHEMICAL ACTIVATION	147
