1 Tumours of the pituitary gland	11		
WHO classification of tumours of the pituitary	12	Spindle epithelial tumour with thymus-like differentiation	123
Introduction	13	Intrathyroid thymic carcinoma	125
Pituitary adenoma	14	Paraganglioma and mesenchymal/stromal tumours	127
Somatotroph adenoma	19	Paraganglioma	127
Lactotroph adenoma	24	Peripheral nerve sheath tumours	128
Thyrotroph adenoma	28	Benign vascular tumours	129
Corticotroph adenoma	30	Angiosarcoma	129
Gonadotroph adenoma	34	Smooth muscle tumours	132
Null cell adenoma	37	Solitary fibrous tumour	133
Plurihormonal and double adenomas	39	Haematolymphoid tumours	135
Pituitary carcinoma	41	Langerhans cell histiocytosis	135
Pituitary blastoma	45	Rosai–Dorfman disease	136
Craniopharyngioma	46	Follicular dendritic cell sarcoma	136
Neuronal and paraneuronal tumours	48	Primary thyroid lymphoma	137
Gangliocytoma and mixed gangliocytoma–adenoma	48	Germ cell tumours	139
Neurocytoma	49	Secondary tumours	142
Paraganglioma	50		
Neuroblastoma	51	3 Tumours of the parathyroid glands	145
Tumours of the posterior pituitary	52	WHO classification of tumours of the parathyroid glands	146
Mesenchymal and stromal tumours	55	TNM staging of tumours of the parathyroid glands	146
Meningioma	55	Parathyroid carcinoma	147
Schwannoma	56	Parathyroid adenoma	153
Chordoma	57	Secondary, mesenchymal and other tumours	159
Haemangiopericytoma/Solitary fibrous tumour	58		
Haematolymphoid tumours	60	4 Tumours of the adrenal cortex	161
Germ cell tumours	61	WHO classification of tumours of the adrenal cortex	162
Secondary tumours	63	TNM classification of tumours of the adrenal cortex	162
		Adrenal cortical carcinoma	163
2 Tumours of the thyroid gland	65	Adrenal cortical adenoma	169
WHO classification of tumours of the thyroid gland	66	Sex cord–stromal tumours	173
TNM classification of tumours of the thyroid gland	67	Adenomatoid tumour	174
Introduction	68	Mesenchymal and stromal tumours	175
Follicular adenoma	69	Myelolipoma	175
Hyalinizing trabecular tumour	73	Schwannoma	176
Other encapsulated follicular-patterned thyroid tumours	75	Haematolymphoid tumours	177
Tumours of uncertain malignant potential	76	Secondary tumours	178
Non-invasive follicular thyroid neoplasm with papillary-like nuclear features	78		
Papillary thyroid carcinoma	81	5 Tumours of the adrenal medulla and extra-adrenal paraganglia	179
Follicular thyroid carcinoma	92	WHO classification of tumours of the adrenal medulla and extra-adrenal paraganglia	180
Hürthle (oncocyctic) cell tumours	96	TNM staging of tumours of the adrenal medulla and extra-adrenal paraganglia	180
Poorly differentiated thyroid carcinoma	100	Introduction	181
Anaplastic thyroid carcinoma	104	Phaeochromocytoma	183
Squamous cell carcinoma	107	Extra-adrenal paragangliomas	190
Medullary thyroid carcinoma	108	Head and neck paragangliomas	190
Mixed medullary and follicular thyroid carcinoma	114	Sympathetic paraganglioma	192
Mucoepidermoid carcinoma	117	Neuroblastic tumours of the adrenal gland	196
Sclerosing mucoepidermoid carcinoma with eosinophilia	119	Composite phaeochromocytoma	204
Mucinous carcinoma	121	Composite paraganglioma	206
Ectopic thymoma	122		

6 Neoplasms of the neuroendocrine pancreas	209
WHO classification of neoplasms of the neuroendocrine pancreas	210
TNM classification of tumours of neuroendocrine pancreas	210
Introduction	211
Non-functioning (non-syndromic) neuroendocrine tumours	215
Insulinoma	222
Glucagonoma	225
Somatostatinoma	227
Gastrinoma	229
VIPoma	231
Serotonin-producing tumours with and without carcinoid syndrome	233
ACTH-producing tumour with Cushing syndrome	234
Pancreatic neuroendocrine carcinoma (poorly differentiated neuroendocrine neoplasm)	235
Mixed neuroendocrine–non-neuroendocrine neoplasms	238
Mixed ductal–neuroendocrine carcinomas	238
Mixed acinar–neuroendocrine carcinomas	239
7 Inherited tumour syndromes	241
Introduction	242
Multiple endocrine neoplasia type 1	243
Multiple endocrine neoplasia type 2	248
Multiple endocrine neoplasia type 4	253
Hyperparathyroidism–jaw tumour syndrome	255
Von Hippel–Lindau syndrome	257
Familial paraganglioma–phaeochromocytoma syndromes caused by <i>SDHB</i> , <i>SDHC</i> , and <i>SDHD</i> mutations	262
Neurofibromatosis type 1	266
Carney complex	269
McCune–Albright syndrome	272
Familial non-medullary thyroid cancer	275
Cowden syndrome and <i>PTEN</i> -related lesions	275
Familial adenomatous polyposis and <i>APC</i> -related lesions	276
Non-syndromic familial thyroid cancer	277
Werner syndrome and Carney complex	278
<i>DICER1</i> syndrome	280
Glucagon cell hyperplasia and neoplasia	282
