

# Contents

<b>Introduction</b> .....	1
Evidence-Based Medicine (EBM) .....	1
Delayed Diffusion of EBM in Radiology and Peculiar Features of Evidence-Based Radiology .....	5
Health Technology Assessment in Radiology and Hierarchy of Studies on Diagnostic Tests .....	7
Why do we Need Biostatistics? .....	11
The Structure of this Book .....	13
References .....	15
<b>1. Diagnostic Performance</b> .....	19
1.1. The Results of an Examination Compared to a Reference Standard .....	20
1.2. Measures of Diagnostic Performance .....	21
1.3. Sensitivity, Specificity, FN Rate and FP Rate .....	22
1.4. Predictive Values, Diagnostic Accuracy and Disease Prevalence .....	25
1.5. Bayes' Theorem, Likelihood Ratios and Graphs of Conditional Probability .....	32
1.6. Cutoff and ROC Curves .....	36
References .....	40
<b>2. Variables and Measurement Scales, Normal Distribution, and Confidence Intervals</b> .....	41
2.1. Variables and Measurement Scales .....	42
2.1.1. <i>Categorical Variables</i> .....	42

2.1.2. Discrete Numerical Variables .....	43
2.1.3. Continuous Numerical Variables .....	43
2.1.4. Measurement Scales .....	44
2.2. Gaussian Distribution .....	45
2.3. Basics of Descriptive Statistics .....	51
2.3.1. Measures of Central Tendency .....	51
2.3.2. Data Spread about the Measurement of Central Tendency: Variance and Standard Deviation .....	54
2.4. Standard Error of the Mean .....	56
2.5. Standard Error of the Difference between Two Sample Means ..	59
2.5.1. Paired Data .....	61
2.6. Confidence Intervals .....	61
2.7. Confidence Interval of a Proportion .....	63
References .....	64
<b>3. Null Hypothesis, Statistical Significance and Power .....</b>	<b>67</b>
3.1. Null Hypothesis and Principle of Falsification .....	68
3.2. Cutoff for Significance, Type I or $\alpha$ Error and Type II or $\beta$ Error .....	70
3.3. Statistical Power .....	71
3.4. Why 0.05? .....	74
3.5. How to Read a $p$ Value .....	75
References .....	76
<b>4. Parametric Statistics .....</b>	<b>77</b>
4.1. The Foundations of Parametric Statistics .....	78
4.2. Comparison between Two Sample Means: Student's $t$ Test ..	80
4.2.1. The Link with Confidence Intervals .....	85
4.3. Comparing Three or More Sample Means: the Analysis of Variance .....	86
4.3.1. ANOVA for Independent Groups .....	87
4.3.2. ANOVA for Paired Data .....	89
4.4. Parametric Statistics in Radiology .....	91
References .....	92
<b>5. Non-Parametric Statistics .....</b>	<b>93</b>
5.1. One Sample with Two Paired Measurements .....	94
5.1.1. Variables Measured with Dichotomous Scale .....	94
5.1.2. Variables Measured with Ordinal Scales .....	98
5.1.3. Variables Measured with Interval or Rational Scales ..	100
5.2. Two Independent Samples .....	101
5.2.1. Variables Measured with Nominal or Ordinal Scales ..	101
5.2.2. Variables Measured with Interval or Rational Scales ..	102
5.3. Three or More ( $k$ ) Dependent Samples .....	103
5.3.1. Variable Measured with Dichotomous Scale .....	103

5.3.2. <i>Variables Measured with Ordinal, Interval or Rational Scale</i> .....	104
5.4. Three or More (k) Independent Samples .....	104
5.4.1. <i>Variables Measured with Nominal or Ordinal Scale</i> ...	104
5.4.2. <i>Variables Measured with Interval or Rational Scale</i> ..	105
5.5. Some Considerations Regarding Non-Parametric Tests .....	106
References .....	107
<b>6. Linear Correlation and Regression</b> .....	109
6.1. Association and Causation .....	109
6.2. Correlation between Continuous Variables .....	111
6.3. Interpreting the Correlation Coefficient .....	113
6.4. Test for Significance .....	115
6.5. Rank Correlation .....	116
6.6. Linear Regression .....	118
6.6.1. <i>Coefficients for Linear Regression</i> .....	119
6.7. Interpreting the Regression Line .....	122
6.8. Limitations of the Use of the Regression Line .....	124
References .....	124
<b>7. Reproducibility: Intraobserver and Interobserver Variability</b> .....	125
7.1. Sources of Variability .....	125
7.2. Why do we Need to Know the Variability of Measurements? .....	128
7.3. Intraobserver and Interobserver Variability for Continuous Variables: the Bland-Altman Analysis .....	129
7.4. Interpreting the Results of Bland-Altman Analysis .....	134
7.5. Intra- and Interobserver Variability for Categorical Variables: the Cohen k .....	136
References .....	140
<b>8. Study Design, Systematic Reviews and Levels of Evidence</b> .....	141
8.1. Phases 1, 2, 3, and 4 of Pharmacologic Research .....	142
8.2. Study Classification .....	144
8.3. Experimental Studies and Control Group .....	145
8.4. Observational Studies .....	148
8.5. Randomized Controlled Studies: Alternative Approaches ...	149
8.6. Studies on Diagnostic Performance: Classification .....	150
8.7. Randomization and Minimization .....	153
8.8. Sample Size .....	155
8.9. Systematic Reviews (Meta-analyses) .....	159
8.10. Levels of Evidence .....	160
References .....	163

<b>9. Bias in Studies on Diagnostic Performance .....</b>	165
9.1. Classification .....	166
9.2. Bias Affecting External Validity .....	167
9.2.1. <i>Study Design</i> .....	168
9.2.2. <i>Subject Selection</i> .....	170
9.2.3. <i>Radiologic Methods and Reference Standard</i> .....	173
9.2.3.1. Diagnostic Technology (Technologic Obsolescence) .....	173
9.2.3.2. Imaging Protocol .....	174
9.2.3.3. Imaging Analysis .....	174
9.2.3.4. Reader Training and Experience .....	174
9.2.3.5. Reference Standard .....	174
9.2.4. <i>Statistical Analysis</i> .....	175
9.3. Bias Affecting Internal Validity .....	175
9.3.1. <i>Protocol Application</i> .....	175
9.3.2. <i>Reference Standard Application</i> .....	176
9.3.3. <i>Data Measurement</i> .....	176
9.3.4. <i>Reader Independence</i> .....	178
9.4. A Lot of Work to Be Done .....	178
References .....	179
 <b>10. How to Write a Radiologic Paper .....</b>	181
10.1. Major Papers, Minor Papers, Invited Papers .....	182
10.2. Which Medical Journal? .....	184
10.3. Do we Always Need Institutional Review Board Approval and Informed Consent? .....	201
10.4. Title, Running Title and Title Page .....	202
10.5. Four-section Scheme, Section Size and Editing Sequence ..	203
10.6. «Introduction»: Why did you do it? .....	204
10.7. «Materials and Methods»: What did you do and how did you do it? .....	205
10.8. «Results»: What did you Find? .....	209
10.9. «Discussion»: What is the Meaning of your Findings? ..	210
10.10. «References» .....	211
10.11. «Abstract» and «Keywords» .....	212
10.12. Shared Rules .....	213
10.13. Other Recommendations .....	213
10.14. Dealing with the Editor's Response and the Reviewers' Opinions .....	215
10.15. To Conclude .....	218
References .....	219
 <b>Subject and Noun Index .....</b>	221
