PART I

Food is disconnected from nature 1

- 1 Introduction: food production and nature conservation: conflicts and solutions 3
Iain J. Gordon, Geoff R. Squire and Herbert H.T. Prins

PART II

The future challenge for food security and nature conservation 13

- 2 Feeding the 10 billion within the Sustainable Development Goals framework 15
Munir A. Hanjra, Andrew Noble, Simon Langan and Jonathan Lautze
- 3 Limits to crop production 41
Geoff R. Squire

PART III

Approaches to protecting nature and producing more food

69

- 4 Can a nature reserve help feed a family? Protected areas and food security 71
Nigel Dudley and Sue Stolton
- 5 Protected areas, ecosystem services, and food production 90
Jeffrey A. McNeely
- 6 Agricultural intensification and diversity for reconciling production and environment: the role of integrated crop–livestock systems 113
Gilles Lemaire, Julie Ryschawy, Paulo César de Faccio Carvalho and François Gastal
- 7 A landscape approach to integrating food production and nature conservation 133
Ivette Perfecto and John Vandermeer

PART IV

A new agenda for food production and nature conservation

153

- 8 New technologies: costs and benefits for food production in contrasting agro–ecological production systems 155
Michael J. Robertson, Nigel P. Preston and Graham D. Bonnett
- 9 Utilising genetic diversity to feed the world 173
Nigel Maxted and Anne Lauvie
- 10 How should land be used? Bioenergy and responsible innovation in agricultural systems 204
Alison Mohr, Orla Shortall, Richard Helliwell and Sujatha Raman
- 11 Innovative pasture cropping: an ecological approach to farming 223
Ndungu wa Mungai and Colin Seis
- 12 Nature's role in feeding the 10 billion: how biodiversity can benefit agriculture 238
Rob Brooker

PART V**A future framework for linking food production and nature conservation 259**

- 13 Rebalancing food production and nature conservation:
the need for design-oriented research 261
*Walter A.H. Rossing, Rodolphe Sabatier, Félix Teillard,
Jeroen C.J. Groot and Pablo Tittone*
- 14 Markets to support sustainable food production:
potentials and challenges of alternative provisioning 281
Cristina Grassini
- 15 Global–local governance for generating transformative
pathways towards sustainable food provisioning and
nature conservation 295
Rosemary Hill and Jessica Duncan

PART VI**Re-engaging food production and nature conservation 331**

- 16 Conclusion: re-engaging agriculture with nature 333
Iain J. Gordon, Geoff R. Squire and Herbert H.T. Prins

Index 343
