

Table of Contents.

Preface	ix
Surveys & Expositions:	
G. Buskes & A. van Rooij <i>The Bornological Tensor Product of two Riesz Spaces</i>	3
Melvin Henriksen <i>Old and New Unsolved Problems in Lattice-Ordered Rings</i>	11
P. Jipsen & C. Tsinakis <i>A Survey of Residuated Lattices</i>	19
Vincenzo Marra & Daniele Mundici <i>MV-Algebras and Abelian ℓ-Groups: a Fruitful Interaction</i>	57
Jorge Martínez <i>Hull Classes of Archimedean Lattice-Ordered Groups</i>	89
R. H. Redfield <i>Surveying Lattice-Ordered Fields</i>	123
Research Articles:	
B. Banaschewski <i>Stone's Real Gelfand Duality in Pointfree Topology</i>	157
K. Boulabiar <i>The Range of Lattice Homomorphisms on f-Algebras</i>	179
G. Buskes & A. van Rooij <i>The Bornological Tensor Product of two Riesz Spaces: Proof and Background Material</i>	189
James A. Cole <i>Non-distributive Cancellative Residuated Lattices</i>	205
Michael R. Darnel <i>Reconstructing $C(G)$ from a Plenary Subset.</i>	213

Nikolaos Galatos

The Undecidability of the Word Problem for Distributive Residuated Lattices ... 231

Anthony W. Hager, Chawne M. Kimber & Warren Wm. McGovern

Least Integer Closed Groups 245

J. Ma & P. Wojciechowski

Structure Spaces of Maximal ℓ -Ideals of Lattice-Ordered Rings 261

Jorge Martínez

Polar Functions, I: The Summand-Inducing Hull of an Archimedean ℓ -Group with Unit 275

Néstor G. Martínez & Alejandro Petrovich

A Priestley-type Method for Generating Free ℓ -Groups 301

R. Raphael & R. G. Woods

On the Epimorphic Hull of a Ring of Continuous Functions 313
