

CONTENTS

Contents	3
1 Introduction	5
2 Polarization maintaining fibers	6
2.1 Elliptical core fibers	6
2.1.1 Exact approach	6
2.1.2 Approximate methods	7
2.2 Microstructured optical fibers	8
2.2.1 Basic properties	8
2.2.2 Modeling methods for microstructured optical fibers	9
3 Spectral interferometry	12
3.1 Measurement methods	13
3.1.1 Equalization wavelength method	13
3.1.2 Measurement far from stationary phase point	14
3.1.3 Tandem configuration	14
4 Discussion of research work	15
4.1 Measurement and computation of MOF birefringence dispersion	15
4.2 Measurement of the group index dispersion	18
4.3 Absolute birefringence dispersion measurement	21
4.4 Measurement of chromatic dispersion of polarization modes	23
4.5 Tandem configuration	28
5 Summary and conclusion	32
6 Abstract	33
7 List of discussed papers	34
8 References	35
