Preface to the Second Edition	xiii
Introduction: Change and Continuity, Power and Creativity	1
An overview of some changes – and the importance of continuity	1
Why do the cultural industries matter?	3
The cultural industries make and circulate texts	3
The cultural industries manage and circulate creativity	4
The cultural industries are agents of economic, social and cultural change	6
Outline of the argument	8
Matters of definition	11
Alternative terms	15
From 'The Culture Industry' to the cultural industries	15
Industries that make texts: the distinctive features	17
Risky business	18
Creativity versus commerce	20
High production costs and low reproduction costs	21
Semi-public goods	21
Misses are offset against hits by building a repertoire	22
Concentration, integration and co-opting publicity	22
Artificial scarcity	23
Formatting: stars, genres and serials	23
Loose control of symbol creators, but tight control of distribution and marketing	24
Author to reader	25
PART ONE ANALYTICAL FRAMEWORKS	27
1 Approaches to Culture	29
Media and cultural economics	30
Liberal-pluralist communication studies	31
Political economy approaches	33
Which political economy?	34
Contradiction	35
The specific conditions of cultural industries	36

Tensions between production and consumption	36
Symbol creators	36
Information and entertainment	37
Historical variations in the social relations of cultural production	37
Sociology of culture and organisational and management studies	37
Radical media sociology/media studies	38
The problem of meaning: thinking about texts	40
Cultural studies approaches	40
Beyond cultural studies versus political economy ... and the rest	44
Production versus consumption	45
Texts, information and entertainment	45
Questions of epistemology	46
Politics and policy	46
Questions of determination and reductionism	47
2 Assessing the Cultural Industries	51
The place of cultural production in economies and societies	51
A question of commodification	55
Business ownership and structure	58
Organisation and creative autonomy	64
Cultural work and its rewards	71
Internationalisation and domination by the USA	74
Digitalisation, convergence and new media	75
Textual change	76
Choice, diversity, multiplicity	76
Quality	77
Texts, social justice and the serving of interests	77
3 Explaining the Cultural Industries	80
Three forms of reduction: technological, economic and cultural	80
Contexts for change and continuity in the cultural industries, 1945–1990	82
Political–economic change: the Long Downturn	83
Political and regulatory change: the rise of neoliberalism	84
Changing business strategies	89
Investment shifts towards service industries	89
Internationalisation	92
Organisational innovation and restructuring	94
Sociocultural and textual changes	95
Technological change: information technology and consumer electronics	97

PART TWO POLICY CHANGE	103
4 Marketisation in Telecommunications and Broadcasting	105
Deregulation, re-regulation and cultural marketisation	109
Telecommunications and broadcasting – why was the state so involved?	111
Telecommunications as a public utility	111
Broadcasting as a national resource and a limited one	112
The power of broadcasting	112
The 1980s: the rationales are dismantled, marketisation follows	113
Challenge to telecoms as utility rationale	113
Challenge to broadcasting as scarce, national resource rationale	114
Challenge to the power of broadcasting rationale	114
Four waves of marketisation	114
The first wave: changes in communications policy in the USA, 1980–1990	116
The second wave: changes in broadcasting policy in other advanced industrial states, 1985–1995	119
Defining characteristics of public service broadcasting systems	119
Variations in public service systems	120
The social and cultural role of PSB	121
PSB under attack: case studies of change	122
The UK	123
France	124
Germany	125
Australia	125
Japan	126
Summary of PSB under attack	127
The third wave: transitional and mixed societies, 1989 onwards	127
India	128
Russia and Eastern Europe	129
China	130
Latin America	130
Summary of marketisation in transitional societies	131
The fourth wave: towards convergence and internationalisation, 1992 onwards	131
Convergence	131
International policy bodies	133

5 Cultural Policy and Copyright Law	137
Cultural policy	138
The GLC moment	139
Local cultural industries policy	140
The creativity cult: cities and clusters	142
UK creative industries policy	144
Creativity, education and the 'new' economy	146
Copyright	149
The WTO enters the field	150
Longer, bigger, stronger copyrights	152
PART THREE: CHANGE AND CONTINUITY IN THE	
CULTURAL INDUSTRIES, 1980 ONWARDS	157
6 Ownership, Structure and Size	159
Ownership and corporate structure: the big get bigger	160
Changing strategies I: conglomeration	164
Changing strategies II: vertical integration	168
Are cultural markets becoming more concentrated? Does it matter?	170
The continuing presence of small companies	174
Interdependence, interfirm networks and alliances	176
Are the cultural industries getting bigger?	177
Cultural industries in modern economies	178
Cultural industries in global business	182
Continuing commodification	184
7 Organisation and Cultural Work	189
Managing creativity	190
The increasing importance of marketing and market research	193
Control of creativity: still loose, but tighter	197
Superstars, authorship and creative autonomy	199
Journalistic autonomy and media moguls	202
Terms and conditions of cultural work	205
Unskilled work	205
Technical workers	205
Creative management	206
Symbol creators	206

8 Internationalisation, Globalisation and Cultural Imperialism	212
Factors behind cultural domination by the USA	213
Size and nature of the domestic market for leisure in the USA	213
Active role of the state in the USA	214
Neither cultural imperialism nor globalisation	214
Television and geocultural markets	219
Reversing cultural flows? The case of Latin American television	221
Transnational TV transmission and reception: neo-imperialism or a new diversity?	226
The international film industry: Hollywood power	228
Other industries, other texts: India and Hong Kong	230
Cultural imperialism and popular music	235
Authenticity versus hybridity	235
Western cultural products can be interpreted in different ways	235
Spread of ownership	236
9 New Media, Digitalisation and Convergence	240
Defining new media	240
Overview of digitalisation – and the chapter	242
Digital games	244
The Internet and World Wide Web	246
Utopianism and market reality	246
Breaking down the Internet and Web	247
The impact of the Internet on the cultural industries	248
Digital distribution – the reinvention of the music business?	249
File-sharing	251
The search for ‘legitimate’ digital distribution	253
The Internet and control of circulation	255
Access and inequality – digital divides	257
Commercialisation of the Internet	258
Convergence – the promise of further wonders	261
Digital television	263
Effects on cultural consumption	265
Effects on cultural production	266
10 Texts: Diversity, Quality and the Serving of Interests	270
Choice, diversity and multiplicity	271
Popular music, concentration and diversity	272

Castells on convergence as homogenisation	274
Television in the USA post-network era	275
The political stance of UK newspapers	277
Social justice and changes in texts	278
Advertising, promotion, commercialism	278
The politics of entertainment	282
The new news	283
Social fragmentation and market segmentation	286
Declining quality?	289
Short attention spans, shock and cultural authority	290
Comparing quality: book publishing	292
Quality, independence and niche markets: cinema in the USA	294
Conclusions: A New Era in Cultural Production?	299
The extent of change	299
Evaluating change/continuity	304
Explaining change/continuity	306
Implications for future study	307
Glossary	309
References	314
Index	335

BOXES, TABLES AND FIGURES

Every effort has been made to trace the copyright holders but if any have been inadvertently overlooked the publisher will be pleased to make the necessary arrangement at the first opportunity.

BOXES

0.1	The core cultural industries	12
0.2	Summary of distinctive features of the cultural industries	18
1.1	Cultural economy	43
2.1	Understanding transitions	54
2.2	The Hollywood oligopoly across the complex professional era	59
2.3	Cultural intermediaries and creative managers	66
2.4	'Stages' of cultural production	68
2.5	Copyright and cultural work	72
3.1	The information society	87
4.1	Defining policy in communications, media and culture	106
4.2	How policy works	107
4.3	The peculiarities of broadcasting regulation in the USA	117
4.4	Main international policy agencies	133
5.1	What is cultural policy?	138
5.2	Creativity: business with feeling	142
5.3	The role of creativity in the new economy	147
6.1	Depth versus breadth in defining cultural industries	180
6.2	Lash and Urry on the 'new core' of modern economies	184
7.1	Stars and 'the right of publicity'	200
7.2	The post-punk intervention	209
8.1	Herman and McChesney: globalisation as cultural imperialism	215
8.2	Asian television on the rise	225
8.3	Arabic television and Al-Jazeera	227
8.4	Opening up world cinema?	233

9.1	Search engines	256
9.2	Web 2.0	260
9.3	Digital television	264
10.1	Chronicles of synergy	280
10.2	The HBO model: high-quality television in the USA but not for everyone	288

TABLES

2.1	Aspects of cultural production in the twentieth century and questions about change and continuity	52
3.1	Comparing the post-war boom and the Long Downturn	85
3.2	The shift to services	89
3.3	Increases in advertising expenditure, 1980–1990	91
4.1	Changes in television funding systems	121
4.2	Marketisation interest groups in Europe	122
6.1	Some major cultural industry mergers and acquisitions	161
6.2	The Big Seven cultural-industry corporations	163
6.3	Conglomeration in the Big Seven	165
6.4	Media concentration in Western Europe	172
6.5	Changes in newspaper market concentration	173
6.6	The largest corporations with cultural industry interests	183
8.1	Domestic films' share of box office receipts, 2004	230
8.2	Most prolific feature film-producing nations	231
9.1	UK television viewing figures: terrestrial versus the rest	250
9.2	Hours per person per year using consumer media in the USA, by media type	250
9.3	Growth of hours per person per year using consumer media, by media type	250

FIGURES

4.1	Four waves of marketisation	116
6.1	A web of collaboration between corporations	178
6.2	Sectors of the U.S. Communications Industry	181
7.1	A typology of creative organisations	191

INDEX

Please note that page references to non-textual information such as Figures or Tables are in *italic* print.
Titles of publications beginning with 'A' or 'The' will be filed under the first significant word.
Footnote references are followed by the letter 'n'.
Boxed references have the letter 'b' following the page number.
Numbers (e.g. 20) are filed as if spelled out (e.g. twenty).
