PART I

Human learning

1 A philosophical perspective on human learning	3
Some relevant tenets of existentialism	5
Learning about human learning	8
Current understanding of the processes of human learning	13
Types of learning	27
Conclusion	31
2 It is the person who learns	32
The mind-body relationship	33
The body	37
The mind	42
The self and identity	46
The person	48
Conclusion	49
3 Learning in the social context	52
The nature of the life-world	53
Culture	55
Space	63
Time	65
Conclusion	69

in the

4 Experience – from which we learn	70
<i>The nature of experience</i>	71
<i>Expanding our understanding of experience</i>	76
<i>Conclusion</i>	86
5 The transformation of experience	87
<i>The cognitive dimension</i>	88
<i>Types of thinking</i>	101
<i>Styles of thinking</i>	106
<i>The emotion and action</i>	108
<i>Conclusion</i>	116
6 The person: changing and becoming more experienced	119
<i>The outcomes of learning: being and becoming a person</i>	119
<i>Other outcomes of learning</i>	130
<i>Conclusion</i>	132
7 Lifelong learning	133
<i>Towards a theory of lifelong learning</i>	133
<i>Lifelong learning: a selection from recent scholarship</i>	139
<i>Towards a comparative perspective</i>	141
<i>Conclusion</i>	142
PART II	
Towards a comprehensive theory	143
8 Learning and action	145
<i>Behaviourism</i>	146
<i>Social learning</i>	151
<i>Action learning</i>	154
<i>Conclusion</i>	156
9 Cognitive theories	157
<i>Confucian philosophy</i>	158
<i>Gestalt theories</i>	161
<i>Cognitive developmental theorists</i>	162
<i>Lev Vygotsky</i>	163
<i>Yrjö Engeström</i>	165

	Ference Marton and colleagues	168
	Robert Gagné	170
	C. Argyris and D. Schön	171
	Jack Mezirow	173
	Danny Wildermeersch	175
	Conclusion	176
10	Emotions and learning	177
	The brain and the mind	178
	Developing the person in relationship	179
	Time	180
	Motivation and disjuncture	180
	Experience	181
	Thought and action	181
	The outcomes of learning – the more experienced person	182
	Non-learning	182
	Conclusion	183
11	Experiential learning	184
	John Dewey	184
	Freedom to learn – Carl Rogers	185
	Andragogy as experiential learning – Malcolm Knowles	186
	David Kolb	188
	David Boud	189
	Edward Cell and learning to learn from experience	190
	Weil and McGill – four villages	192
	Conclusion	193
12	Towards a comprehensive theory of human learning?	194
	The person-in-the-world	194
	Learning and the person	195
	Experience and its transformation	197
	A comprehensive theory?	197
	Notes	201

	Index	213

Figures and tables

Figures

1.1	Kolb's learning cycle	8
1.2	The process of learning	9
1.3	The person-in-the-world	15
1.4	The person experiencing the world	16
1.5	The transformation of sensations: initial and non-reflective learning	20
1.6	The transformation of the person through learning	23
4.1	A paradox of interest and time	79
9.1	The four equilateral triangles	166

Tables

5.1	Selman's stages of perspective taking	88
5.2	Piaget's stages of cognitive development	89
5.3	Fowler's stages of faith development	94
5.4	Kohlberg's stages of moral development	95
5.5	Sternberg's thinking styles	107
5.6	A theoretical analysis of conscious action	111
7.1	Erikson's eight ages of man	136
7.2	Learning styles	138
