

Bioethanol 1

Tuesday morning

chairpersons: F. Slabý, J. Zábranská

- | | | |
|-------|---|---|
| 9:10 | Efektivní využití výpalků z etanolového biolihovaru
Efficient utilization of stillages from ethanol bio-distillery
Slabý F. | 5 |
| 9:40 | Energetické využití odpadů z výroby biopaliv
Energetic utilization of wastes from biofuel production
Zábranská J., Pokorná D., Dohányos M., Jeníček P. | 7 |
| 10:00 | Comparison of stillages disposal methods: case study for given distillery
Sajbrt V., Rosol M., Dítl, P. | 8 |

chairpersons: J. Zábranská, F. Slabý

- 10:40 **Liquidation of stillages from bio-ethanol production** 10
Rosol M., Dittl P.
- 11:00 **Получение высокоэффективных спиртов в малогабаритных, малозероёмких и высокопроизводительных установках** 12
The production of bio fuel in a small scaled high efficient installation
Chagin O. V., Blinichev V.N., Krawczyk J.
- 11:20 **Kukufičný biolihovar na produkci biobutanolu, etanolu a acetonu** 13
Com biodistillery for production of biobutanol, ethanol and acetone
Slabý F.

Bioenergetics

Tuesday afternoon

chairpersons: S. P. Rudobashta, A. N. Labutin

- 13:10 **Гелиобиоэнергетическая установка и методика её инженерного расчёта** 15
The Sunbioenergetic Installation and a Method of its Engineering Calculation
Rudobashta S.P., Osmonov O. M.
- 13:30 **Identification of kinetic models of difficult chemical reactions** 17
Labutin A.N., Isajenkov A.E., Labutina T. V., Volkova G. V.
- 13:50 **Biofuels, greenhouse effect and global warming** 18
Hoffman P.
- 14:10 **Utilization of wastes and surpluses from agriculture and food industry for biofuel production** 19
Hoffman P.

Equipment design

Tuesday afternoon

chairpersons: V. N. Blinichev, V. S. Kalekin

- 14:50 **Разработка технологии и аппаратного оформления некаталитического синтеза метанола из газовых выбросов нефтехимических производств** 20
Development of technology and hardware registration of non-catalytic methanol synthesis from gas emissions of petrochemical production
Blinichev V.N., Kadyrov R. F., Arutunov V. S., Chagin O. V., Krawczyk J.
- 15:10 **Рабочий процесс прямоточного поршневого газового двигателя с принципиально новой системой газораспределения** 21
Working process of forward flow reciprocating gas engine with new gas distribution system
Kalekin V.S., Kalekin D.V., Zagorodnikov A.P.
- 15:30 **Studie míchání anaerobních fermentačních reaktorů pro bioplynové stanice** 22
Mixing of anaerobic fermentors for biogas stations – study
Jirout T., Rieger F., Moravec J.
- 15:50 **Návrh systému měření a regulace provozních parametrů fermentoru na výrobu biopaliv** 24
The design of the measurement and operating system for control the process parameters of the biogas production in the reactor
Skočilas J., Dostál M., Šulc R.
- 16:10 **Measurement of heat transfer coefficients in agitated vessel with tube baffles** 25
Dostál M., Petera K., Rieger F.

Biogas

Wednesday morning

chairpersons: J. Koller, P. Jeníček

- 9:00 **Treatment of biogas for use as energy** 26
Koller J., Koman P.
- 9:20 **The improvement of biogas quality by microaerobic hydrogen sulphide removal** 27
Jeníček P., Pokorná D., Zábranská J., Dohányos M.
- 9:40 **Biogas production enhancement by ultrasonic disintegration of biomass** 29
Závacký M., Dittl P.
- 10:00 **Optimization of co-digestion of agricultural residues and industrial wastes** 31
Kacprzak A., Krzystek L., Ledakowicz S.
- 10:20 **Energy and economic comparison of intensification methods of biogas production** 32
Hrušík D., Daněk P., Závacký M., Dittl P.

Biodiesel

Wednesday morning

chairpersons: P. Seichter, T. Jirout

- 11:00 **Příspěvek ke stanovení vlivu míchání na konverzi metylesteru řepkového oleje** 34
The influence of agitation on conversion of oil esterification process
Seichter P., Peší L.
- 11:20 **Injection and combustion of RME with water emulsions in diesel engine** 35
Cisek J.
- 11:40 **Determining rheological properties of CME and SFME biofuels and biocomponents** 36
Wcisło G.

Mechanical processes. Feedstock pretreatment

Wednesday afternoon

chairpersons: F. Rieger, P. Dittl

- 13:30 **Тонкое измельчение сырья для производства биотоплива в сепарационных мельницах** 37
Thin crushing of raw material for manufacture of biofuel in separation mills
Postnikova I.V., Blinichev V.N., Guschina T.V.
- 13:50 **Исследование процесса тонкого мокрого измельчения в двухроторном коллоидно-кавитационном измельчителе** 39
Research of the process of thin wet grinding in two-rotor colloidal cavitation grinder
Blinichev V.N., Postnikova I. V., Zhuravlev V.S.
- 14:10 **Marcov models of solid particles grinding** 41
Zueva G.A., Padokhin V.A., Dittl P.
- 14:30 **Effect of intense mechanical impact on the rheological properties of the aqueous solution on the base sodium carboxymethylcellulose** 43
Aleksieva O., Rodionova A., Padokhin V.
- 14:50 **Hydrolyza lignocelulózových plodin a odpadů pro výrobu biopaliv** 44
Hydrolysis of lignocellulosic plants and wastes for biofuel production
Jirout T., Kokrhelová K., Skočilas J.
