

CONTENTS

I. Chemical technology in sustainable agriculture and environment protection

P. Grzesiak, M. Grobela, R. Motała, G. Schroeder, Heavy metals complexing by triazine and phenoxycarboxylic acid derivatives	9
B. Dolińska, Z. Dobrzański, A. Mikulska, T. Trziszka, F. Ryszka, The influence of synthesis conditions on calcium salts efficiency	16
J. Hoffmann, K. Hoffmann, D. Korniewicz, Z. Dobrzański, A. Korniewicz, Physico-chemical assessment of different kinds of feed phosphates	25
A. Jarośniński, L. Madejska, P. Radomski, Effect of temperature on degree of magnesium removal from zinc concentrate	30
A. Jarośniński, K. Fela, Chemical treatment as a low-magnezium zinc concentrate production method	36
J. Baron, M. Olek, W. Żukowski, S. Kandefer, Thermal utilisation of rubber wastes containing steel elements	44
A. Pawelczyk, M. Steininger, D. Prządo, Prospects for utilization of phosphate neutralization sludges in agriculture	58
P. Lochyński, B. Szczygieł, Study into the electropolishing of stainless steel 304 for food production	64
B. Kucharczyk, J. Zabrzęski, Activity of the monolithic 0.15% Pt/0.12% MnO/Al ₂ O ₃ catalyst in the oxidation of carbon oxide	70
N. Kowalenko, A. Czagarowski, W. Chojnowski, B. Dec, Optimization of caramel colour E-150c production from UF sweet whey permeate	75
S. Modelski, A. Witek-Krowiak, R.G. Szafran, Microfiltration of brevery yeast suspension in the flat module	84
J. Koralewska, K. Piotrowski, N. Hutnik, A. Matynia, Continuous reaction-crystallization of hydroxyapatite in a DTM crystallizer with a liquid jet-pump of ascending suspension flow in a mixing chamber	91
S. Kandefer, M. Olek, W. Żukowski, J. Baron, J. Zabagło, Disposable cellulose packagings – thermal energy recovery through combustion inside a bubbling fluidised bed	99
G. Poźniak, J. Hoffmann, Removal of metals from aqueous media by dialysis enhanced complexation	114
G. Poźniak, R. Poźniak, Removal of cobalt and lead from aqueous media by hybrid membrane processes	121
F. Bubel, Study on efficacy of municipal sewage sludge utilization by a method of composting in rotational reactor	130
A. Witek-Krowiak, R.G. Szafran, S. Modelski, Methanol removal from wastewater in the air gap distillation process	138

K. Krupa-Żuczek, Z. Kowalski, Z. Wzorek, M. Konopka, Analysis of bone sludge ashes from the rotary kiln	144
K. Krupa-Żuczek, Z. Kowalski, Z. Wzorek, Characteristic of bone sludge and products of their calcination	151
S. Żelazny, A. Jarosiński, Influence of heat treatment of the gypsum waste on mechanical properties of anhydrite binders	157

II. Biochemistry and environment

T. Trziszka, Z. Dobrzański, Selected bioactive egg preparations in the prevention of civilisation diseases	165
A. Bala, W. Zaborska, Inhibition of enzymatic hydrolysis of urea by fungicide: 2,3-dichloro-1,4-naphthoquinone	171
G. Bartkowiak, E. Wyrzykiewicz, G. Schroeder, Orotic acid derivatives with potential biological activity: 2-bromoalkylthiootrotic acids	177
M. Bednarska, R. Polechoński, The effect of the temperature on survival of the <i>Escherichia coli</i> in water under laboratory conditions	184
G. Pasternak, B. Kołwzan, An effect of phenol on oxygen consumption rates of bacteria degrading S-heterocyclic compounds	188
E. Śliwka, B. Kołwzan, G. Pasternak, J. Klein, Mutagenicity assessment of the used lubricating oils	194
M. Borowiec, M. Huculak, J. Skut, K. Hoffmann, A. Trusz-Zdybek, J. Hoffmann, Microbiological analysis of activated sludge cultivated under laboratory conditions for biodegradation tests	200
M. Brzezińska-Rodak, E. Żyłańczyk-Duda, B. Lejczak, The influence of the biocatalysis conditions on the reductive activity of the <i>Penicillium minioluteum</i> strain	206
P. Szatkowski, M. Klimek-Ochab, B. Lejczak, Biodegradation of glyphosate by mesophilic fungal strains isolated from the natural environment	210
A. Zielińska, K. Chojnacka, Effect of light intensity, medium composition and mixing on the growth of <i>Chlorella kessleri</i>	216
I. Michalak, K. Chojnacka, The comparison of the biosorption properties of two freshwater macroalgae – <i>Vaucheria</i> sp. and <i>Pithophora varia</i> Wille	223

III. Analytical methods and measurements in agricultural production and environment monitoring

S. Kinal, B. Król, W. Tronina, Estimation of the structure and granularity of various forms of chromium	235
E. Pecka, M. Meus, The comparison of an accuracy and precision of chloride ions determination in water solutions using Mohr's and HPIC chromatography method	240
M. Krawczyńska, J. Biazik, K. Grabas, J. Rybak, The preliminary ecotoxicological assessment of flotation tailing pond Konrad 3 in Warta Bolesławiecka (Lower Silesia)	247
A. Pawelczyk, D. Prządo, M. Steininger, Research on PCB contents in selected water intakes located in vicinity of city of Wrocław	256
M. Kowalska-Górska, A. Bronowska, The impact of the copper sulphate on the changes in copper concentration in carp's (<i>Cyprinus carpio</i> L.) spawn and roe	262
M. Kowalska-Górska, M. Senze, A. Szymańska, The impact of the ice surface on the oxygen concentration in small Wrocław's water reservoirs	267

M. Gałczyńska, A. Horak, Share of macroelements content (N, P) on contamination in water of midfield ponds near Żabów	273
M. Gałczyńska, The influence of macroelements content on conductivity in water of midfield ponds on the area of Pyrzyce	281
K. Chojnacka, U. Zaleska-Dorobisz, H. Górecka, Z. Dobrzański, H. Górecki, K. Zygałlik, The study on silver accumulation in environmental and biological material	288
M. Senze, M. Kowalska-Górska, M. Krasoń, Selected tributaries of the Oder river within the boundaries of the city of Wrocław – water pollution with biogenic compounds	295
B. Cabaj, M. Dziubak, A. Kiepas-Kokot, A. Łysko, M. Gibczyńska, Contents of macroelements in arable lands belonging to farms declaring conversion to organic production	301
P. Pięta, K. Grabas, A. Czarny, Detection of proteins in water by biosensors	309
Ł. Wall, The assessment of meadow sward contamination with heavy metals originating from high concentration of these elements in Lower Silesian soils	313
Ł. Wall, The assessment of providing plants with macroelements originating from selected soils of high heavy metals content in the region of Lower Silesia	321

IV. New trends in agricultural production and food processing

Z. Spiak, G. Kulczycki, Ł. Wall, J. Spiak, A. Piwowar, Mineral fertilizers and their application in sustainable agriculture (current state and prospects)	331
A. Andruszewska, S. Rólski, K. Wielgusz, Lubofos type fertilizers in flax cultivation	342
M. Anioł, A. Jarosz, A. Żołnierczyk, The influence of the kind of extractant on the protein content in the spent hop	348
B. Cabaj, M. Gibczyńska, T. Cabaj, The impact of fertilizers with addition of sulphur on light soil reaction changes	356
A. Demczuk, E. Sacała, E. Grzyś, J. Tokarz, Sensitivity of two varieties of maize to BOA (2-benzoxazolinone)	362
K. Heller, S. Rólski, M. Byczyńska, Synthesis of poly(aspartic) acid for increasing fertilizer efficacy and yielding capacity in flax	369
M. Gibczyńska, M. Romanowski, L. Lewandowska, B. Cabaj, Effect of liming and mineral fertilization on ionic and weight ratio of macroelements in light soil	376
M. Romanowski, M. Borowski, P. Kujawa, B. Cabaj, D. Brzostowska-Żelechowska, Impact of effective microorganisms (EM) on growth and yield of sunchoke (<i>Helianthus tuberosus</i> L.) in biomass crops. Efficiency of EM-1 preparation effect depending on various number of plants	384
U. Sienkiewicz-Cholewa, H. Sztuder, Effectiveness of potassium-magnesium fertilisation of selected crop plants	392
H. Sztuder, S. Strączyński, Effect of fertilizer application techniques on mineral soils nitrogen content. Part I. Winter wheat	398
S. Strączyński, H. Sztuder, Effect of fertilizer application techniques on mineral soils nitrogen content. Part II. Winter rape	405
H. Sztuder, Effect of liquid fertilisers containing microelements on yield level and quality of selected crop plants	412
R. Bodkowski, B. Patkowska-Sokoła, S. Zieliński, An influence of an addition of isomerised poppy seed oil on intramuscular fat content in meat of young bulls, fatteners and lambs	418
R. Bodkowski, M. Janczak, D. Jankowska, P. Święch, B. Patkowska-Sokoła, The study on chosen features of fur coat of reindeers (<i>Rangifer tarandus</i>)	425
R. Bodkowski, B. Patkowska-Sokoła, An influence of isomerised poppy seed oil addition on an adiposis of carcass of young bulls, fatteners and lambs	433

R. Bodkowski, B. Patkowska-Sokoła, An influence of isomerised poppy seed oil on fatty acids profile of fat of young bulls, fatteners and lambs	440
Z. Dobrzański, R. Kupeczyński, J. Abramyk, M. Adamski, K. Pogoda-Sewerniak, Mineral profile of blood serum in two different breed of dairy cows	448
R. Kupeczyński, M. Szoltysik, M. Kuczaj, W. Janeczek, G. Chládek, The content of fatty acids in milk fat of cows of different breeds	455
S. Opaliński, M. Korczyński, W. Gbioreczyk, Z. Dobrzański, A. Kotecki, Application of <i>Miscanthus giganteus</i> straw as a component of poultry bedding – laboratory-scale investigation	463
B. Patkowska-Sokoła, R. Bodkowski, W. Zawadzki, Z. Dobrzański, Z. Usydus, M. Janczak, An influence of lard application in rats feeding on lipid indices of their blood and adiposis	469
R. Puchała, The role of feed in formation of technological properties of fish meat	476
A. Rybka, Comparison of primary production intensity in organically and minerally fertilized fish ponds	481
Z. Usydus, J. Szlinder-Richert, B. Patkowska-Sokoła, M. Malesa-Ciećwierz, R. Bodkowski, Concentration of omega-3 polyunsaturated fatty acids (PUFAs) of fish oil	491
A. Wójcik, K. Iwańczuk-Czernik, E. Rumińska, D. Witkowska, T. Mituniewicz, J. Sowińska, Ł. Choraży, Some blood parameters of broilers chicken in the fodder chromium biocomplex and different variants of pre-slaughter handling	498
H. Żelazny, Environmental factors in fattening houses favour carbonatization processes of concrete constructions	502
M. Konopka, Z. Kowalski, J. Cholewa, A.K. Nowak, Production of plasma from pork blood	508

V. New methods and technologies of deodorization in industrial and agricultural production as well as in municipal management

*Works supported by the Ministry of Science and Higher Education
in the framework of a grant no. PBZ-MEiN-5/2/2006*

J. Zwoździak, I. Sówka, M. Szklarczyk, A. Zwoździak, P. Zwoździak, New methods and technologies of deodorization in industry, agriculture and municipal management	517
B. Breza-Boruta, Z. Paluszak, Level of microbiological pollution of atmospheric air at and in the vicinity of poultry abattoir	522
E. R. Grela, W. Semenik, Effect of phase feeding on fattener performance, metabolic blood profile and reduced nitrogen emission to environment	528
J. Hoffmann, G. Gryglewicz, K. Hoffmann, S. Gryglewicz, Concentration of odoriferous substances for analysis of their content in fertilizer plants	537
M. Korczyński, S. Opaliński, W. Gbioreczyk, Z. Dobrzański, R. Kołacz, Application of bentonite and vermiculite to limit the emission of ammonia from cattle manure	543
A. Kulig, G. Sinicyn, B. Czyżkowski, K. Lelicińska-Serafin, Z. Heidrich, J. Podedworna, Identification and survey of the sources of potential olfactory impact in municipal management in Poland	549
K. Zygałlik, B. Patkowska-Sokoła, Z. Dobrzański, D. Jankowska, Significance of sulphur in farm animals	564
S. Opaliński, M. Korczyński, R. Kołacz, Z. Dobrzański, Application of selected mineral sorbents for ammonia adsorption – laboratory test	570
L. Tymczyna, A. Chmielowiec-Korzeniowska, J. Kusiak, A. Drabik, Biofiltration for air pollution control of inorganics and sulfur pollutants generated in pig facilities	577
