

CONTENTS

Author’s introduction ..... 4

1 INTRODUCTION ..... 5

2 TERRESTRIAL FSO ARCHITECTURE ..... 6

    2.1 FSO Optical Transmitter ..... 6

    2.2 FSO Optical Receiver ..... 7

        2.2.1 Receiver Noise ..... 9

        2.2.2 Receiver Sensitivity ..... 10

3 SOME DRAWBACKS OF OPTICAL THROUGH-THE-AIR COMMUNICATIONS ..... 13

    3.1 Power Level Diagram of Terrestrial FSO ..... 15

    3.2 Propagation Loss ..... 16

        3.2.1 Gaussian Beam Theory ..... 16

        3.2.2 Propagation Loss in Real FSO ..... 17

        3.2.3 FSO Power Link Margin ..... 17

    3.3 Attenuation Due to Scattering ..... 18

    3.4 Scintillation Loss ..... 19

4 LINK AVAILABILITY ..... 21

    4.1 FSO Availability Obtainable in European Weather Conditions ..... 22

    4.2 Influence of Turbulence on FSO Availability ..... 24

5 PRESENT-DAY AND FUTURE CONCEPTIONS OF TERRESTRIAL FSO LINKS ..... 25

6 DEVELOPMENT OF FSO AT BRNO UNIVERSITY OF TECHNOLOGY ..... 28

7 CONCLUSION ..... 31
