

	Foreword by Roberto Weinstein	V
	Foreword by Scott D. Ganz	VI
	Introduction	IX
<b>1</b>	<b>Basic Principles for the Use of CBCT in Dentistry</b>	<b>1</b>
	Principles of Digital Radiology	2
	Computed Tomography	9
	Image Postprocessing	17
	References	30
<b>2</b>	<b>Changes in Basal Bones from Infancy to Senescence</b>	<b>33</b>
	Growth and Development of Facial Bones in 3D Images	34
	Theories on Control of Craniofacial Growth	45
	Bone Resorption and Atrophy of the Basal Bone	47
	Implant Therapy and Craniofacial Growth	61
	References	64
<b>3</b>	<b>Systematic CBCT Analysis of the Maxilla and Mandible</b>	<b>65</b>
	Radiologic and Clinical Anatomy of the Maxilla	66
	Radiologic and Clinical Anatomy of the Mandible	82
	Clinical Examples	96
	References	162
<b>4</b>	<b>Evolution of Cephalometry</b>	<b>165</b>
	Concepts of Cephalometry	166
	Dysgnathic Presentations in 3D	188
	References	202

<b>5</b>	<b>Atlas of Cephalometric Landmarks</b>	<b>205</b>
	Introduction to Cephalometry	206
	Atlas of Skeletal Landmarks	211
	Atlas of Soft Tissue Landmarks	244
	References	288
<b>6</b>	<b>3D Analysis of Soft Tissues</b>	<b>289</b>
	Esthetic Analysis of Soft Tissues Using 3D Cephalometry	290
	Diagnostic 3D Analysis of Soft Tissues with Multiplanar Cephalometric Analysis: Clinical Cases	332
	References	350
<b>7</b>	<b>3D Analysis of the Temporomandibular Joint</b>	<b>353</b>
	Anatomy and Pathology of the TMJ	354
	Radiologic Examinations of the TMJ	357
	References	369
<b>8</b>	<b>3D Analysis of Airway Spaces</b>	<b>371</b>
	Obstructive Sleep Apnea	372
	Risk Factors for Obstruction of the Airways and Development of OSA	372
	References	380
<b>9</b>	<b>3D Analysis of Impacted Teeth</b>	<b>381</b>
	Impaction of the Permanent Maxillary Canine	382
	3D Imaging and Diagnosis of Impacted Mandibular Third Molars	422
	References	447
