Contents

Part I Demographic Information for Decision-Making: Case Studies

1 **Demographics and Market Segmentation: China and India** 3
Jo M. Martins, Farhat Yusuf, Gordon Brooks, and David A. Swanson

2 **The Drivers of Health Trends: A Decomposition of Projected Health for Local Areas in England** 21
Stephen D. Clark and Philip H. Rees

3 **Demographic Analyses for Public Policy: Projecting the Use of Veteran Educational Benefits in Texas** 41
Michael E. Cline, Steve H. Murdock, and Mary Zey

4 **Residential Fire-Related Injuries and Deaths in Anchorage, Alaska, 2007–2012: Causes and Prevention** 67
Donna Shai

5 **Demographic Projections of Demand for Criminal Court Services Across New South Wales, Australia** 75
Imogen Halstead, Brian Opeskin, and Nick Parr

6 **Projecting Future Demand for Assisted Living: A Case Study** 103
Peter A. Morrison

7 **The Growth of Australia's Very Elderly Population: Past Estimates and Probabilistic Forecasts** 115
Tom Wilson and Wilma Terblanche

Part II Data: Issues and Analyses

8 An Assessment of Historical Demographic Analysis Estimates for the Black Male Birth Cohorts of 1935–39 139
Kirsten West, Jason Devine, and J. Gregory Robinson

9 Reporting of Race Among Hispanics: Analysis of ACS Data 169
Howard Hogan

10 Promises and Pitfalls of the Puerto Rico Community Survey: Lessons from Persons-Per Household and Household Distributions 193
Matt Kaneshiro and Christine Pierce

11 State Longitudinal Data Systems: Applications to Applied Demography 209
George C. Hough Jr. and Melissa M. Beard

12 How Does Access to Primary Care Vary by Type of Insurance and by Rural and Urban Counties in Mississippi? 239
Ron Cossman

13 Lifetime Migration in the United States as of 2006–2010: Measures, Patterns, and Applications 249
Albert I. Hermalin and Lisa J. Neidert

14 Census Costs: Rationale for Re-Designing Traditional Census Data Collection Methodology with the Census-Enhanced Master Address File 287
Alison M. Yacyshyn and David A. Swanson

Part III Projection & Estimation Methods: Evaluations, Examples and Discussions

15 How Accurate Are Japan's Official Subnational Projections? Comparative Analysis of Projections in Japan, English-Speaking Countries and the EU 305
Masakazu Yamauchi, Shiro Koike, and Kenji Kamata

16 Integrated Local Demographic Forecasts Constrained by the Supply of Housing or Jobs: Practice in the UK 329
Ludi Simpson

17 Demographic Forecasting for Local Governments in Queensland, Australia – Difficult, But Effective 351
Kanan M. Saraiya

18 Population Projections by Ethnicity: Challenges and Solutions for the United Kingdom 383
Philip H. Rees, Pia Wohland, Paul Norman, Nikolas Lomax, and Stephen D. Clark

19 Revising Long-Established Population Estimates in Australia: Reasons, Methods and Implications 409
Andrew Howe

20 Creating Population Surfaces for the Analysis of Small Area Change 431
Christopher D. Lloyd

21 Small-Area Population Forecasting: A Geographically Weighted Regression Approach 449
Guangqing Chi and Donghui Wang

22 A New Method for Estimating Small Area Demographics and Its Application to Long-Term Population Projection 473
Takashi Inoue

23 A Long Term Test of the Accuracy of the Hamilton-Perry Method for Forecasting State Populations by Age 491
David A. Swanson and Jeff Tayman
