

Special Issue: The Downy Mildews - Genetics, Molecular Biology and Control

Edited by: A. Lebeda · P.T.N. Spencer-Philipps · B.M. Cooke

Foreword 1

Evolution and taxonomy

Progress and challenges in systematics of downy mildews and white blister rusts: new insights from genes and morphology

H. Voglmayr 3

Genetic variation and molecular biology

Classical and molecular genetics of *Bremia lactucae*, cause of lettuce downy mildew

R. Micheltore · J. Wong 19

Species hybrids in the genus *Phytophthora* with emphasis on the alder pathogen *Phytophthora alni*: a review

T. Érsek · Z.Á. Nagy 31

Proteomic analysis of a compatible interaction between *Pisum sativum* (pea) and the downy mildew pathogen *Peronospora viciae*

R.C. Amey · T. Schleicher · J. Slinn · M. Lewis · H. Macdonald · S.J. Neill · P.T.N. Spencer-Phillips 41

Host-parasite interactions

Tapping into molecular conversation between oomycete plant pathogens and their hosts

M. Tör 57

Diversity of defence mechanisms in plant-oomycete interactions: a case study of *Lactuca* spp. and *Bremia lactucae*

A. Lebeda · M. Sedlářová · M. Petřivalský · J. Prokopová 71

Natural history of *Arabidopsis thaliana* and oomycete symbioses

E.B. Holub 91

Population diversity and epidemiology

Comparative epidemiology of zoospore plant pathogens

M.J. Jeger · M. Pautasso 111

Structure and variation in the wild-plant pathosystem: *Lactuca serriola*-*Bremia lactucae*

A. Lebeda · I. Petrželová · Z. Maryška 127

Development of detection systems for the sporangia of *Peronospora destructor*

R. Kennedy · A.J. Wakeham 147

Chemical and biological control

Fungicide modes of action and resistance in downy mildews

U. Gisi · H. Sierotzki 157

Activity of carboxylic acid amide (CAA) fungicides against *Bremia lactucae*

Y. Cohen · A. (E.) Rubin · D. Gotlieb 169

Beta-aminobutyric acid-induced resistance in grapevine against downy mildew: involvement of pterostilbene

A.R. Slaughter · M.M. Hamiduzzaman · K. Gindro · J.-M. Neuhaus · B. Mauch-Mani 185

Effects of garlic (*Allium sativum*) juice containing allicin on *Phytophthora infestans* and downy mildew of cucumber caused by *Pseudoperonospora cubensis*

D. Portz · E. Koch · A.J. Slusarenko 197

Instructions for Authors for *Eur J Plant Pathol* are available at <http://www.springer.com/10658>.
