

Contents

Acronyms.....	5
Introduction.....	7
1 Machining.....	9
1.1 Heat generation in the orthogonal cutting process.....	9
1.2 Factors affecting temperature in metal cutting.....	12
2 Metalworking Fluids.....	13
2.1 Metalworking fluids application to the cutting zone.....	15
2.2 Metalworking fluids reservoirs.....	19
3 Characterization of Metalworking Fluids.....	21
3.1 Emulsifiable oils.....	22
3.2 Semi-synthetic fluids.....	23
3.3 Synthetic fluids.....	23
3.4 Typical metalworking fluid additives.....	24
4 Occupational Exposure to MWFS.....	26
4.1 Skin problems.....	27
4.2 Cancer.....	28
4.3 Lung disease.....	29
5 Problematic Contaminants or Compounds and Their Alternatives.....	30
5.1 Base oils.....	30
5.1.1 Mineral oils.....	30
5.1.2 Synthetic lubricants.....	32
5.1.3 Silicone oils.....	33
5.1.4 Vegetable Oils Base fluids.....	33
5.2 Corrosion inhibitors.....	33
5.3 Metals and metal alloy contaminants.....	36
5.4 Nitrosamines.....	36
6 Microbial Contamination of MWFS.....	38
6.1 Microorganisms commonly occurred in MWFS.....	39
6.2 Metalworking fluids life extension.....	42
6.2.1 Maintenance of MWFS re-circulation system.....	42
6.2.2 Metalworking fluids monitoring.....	45
6.3 Methods used for MWFS sanitization.....	48

6.4	Different approach – utilization of microbial cells in lubrication.....	49
7	Biocides	51
7.1	Occupational Exposure to Biocides.....	51
7.2	Legislative restriction in the use of biocides	55
7.3	The future of microbiological control.....	55
8	Ozone Utilization as a Disinfectant of MWFS	57
8.1	Effectiveness of ozone against bacteria and viruses	58
8.2	Possibilities of ozone application – equipment’s.....	60
8.3	Occupational Exposure to Ozone	61
9	The Study of Microorganisms Elimination in the MWFS by the Ozone	63
9.1	Material and methods.....	63
9.2	Results and discussion.....	67
9.3	Conclusion.....	80
10	The Study of Ozone Impact on the Organic Carbon Content	82
10.1	Materials and Methods.....	82
10.2	Characterization of used metalworking fluids.....	83
10.3	Results and discussion	86
10.4	Conclusion.....	89
10.5	Following research, suggestions and improvements in MWFS sanitation by the ozone	90
	Conclusion.....	91
	Summary	93
	References.....	94
	About the Authors	103
	Subject Index	104
