Preface	vii
About the Authors	xi

Chapter 1: Basics of Social Network Analysis 2

1.1 Introduction	3
1.2 The Social Network and How to Represent It	5
1.3 Types of Networks	10
1.4 Network Parts and Levels of Analysis	14
1.5 Networks as Social Structure and Institution	18
1.6 Theoretical Assumptions	18
1.7 Causality in Social Network Studies	20
1.8 A Brief History of Social Network Analysis	22

Chapter 2: Data Collection 26

2.1 Boundary Specification	28
2.2 Data Collection Process	35
2.3 Informant Bias and Issue of Reliability	42
2.4 Archival Data	45

Chapter 3: Descriptive Methods in Social Network Analysis 54

3.1 Graph and Matrix–Social Network Representation	56
3.2 Density	58
3.3 Centrality, Centralization, and Prestige	61
3.4 Cliques	70
3.5 Multidimensional Scaling (MDS) and Dendrogram	73
3.6 Structural Equivalence	75
3.7 Two-Mode Networks and Bipartite Matrix	79

Chapter 4: Inferential Methods in Social Network Analysis 86

4.1 Permutation and QAP (Quadratic Assignment Procedure) Correlation	87
4.2 P* or Exponential Random Graph Model (ERGM)	93

Chapter 5: Social Network Analysis of Work and Organizations	102
5.1 Personal Connections and Labor Market Processes	104
5.2 Intra-Organizational Networks	111
5.3 Inter-Organizational Relations	127
Chapter 6: Social Network Analysis in Crime and Terrorism	138
6.1 Personal Networks, Delinquency, and Crime	139
6.2 Neighborhood Networks	144
6.3 Criminal Networks	147
6.4 Analyzing Social Networks of Terror	151
Chapter 7: Social Network Analysis in Emotional and Physical Health	158
7.1 Social Network Analysis and Emotional Health	160
7.2 Social Network Analysis in Physical Fitness	163
7.3 Social Network Analysis and Illicit Drug Use	166
7.4 Social Network Analysis and Sexually Transmitted Disease	169
Chapter 8: Political Networks	174
8.1 American Politics	177
8.2 Networks in International Relations	192
Glossary	201
References	209
Index	225
