

PANORAMA DE LA GUITARE

A treasury of the classical guitar: as a solo and concerto instrument, and as a partner to other instruments, in music from Europe and Latin America that spans five centuries. This box assembles all the releases from a ground-breaking series, *Panorama de la guitare*, which showcased luminaries of the guitar's 'new golden age' in the 1960s and 70s. Most of these recordings are making their first appearance on CD, and all have been remastered from the original tapes in 24bit/96kHz, revealing the sound of the instrument in its true intimacy and beauty.
