

# TABLE OF CONTENTS

<b>List of Figures, Tables, and Boxes</b>	<b>xiii</b>
<b>Preface</b>	<b>xxi</b>
<b>Acknowledgments</b>	<b>xxvii</b>
<b>About the Authors</b>	<b>xxix</b>
<b>Introduction</b>	<b>xxxi</b>
<b>PART I. MIXED METHODS 101</b>	<b>1</b>
<b>Chapter 1. Definition and Overview of Mixed Methods Designs</b>	<b>3</b>
Definition and Characteristics of Mixed Methods Research	3
Key Factors in Mixed Methods Research Designs	9
<i>Integration of Data</i>	10
<i>Relative Timing</i>	12
<i>Implications of Linkages for Methods in Each Component</i>	13
Primary Mixed Methods Study Designs	13
Examples From Peer-Reviewed Published Literature	17
<i>Convergent Design</i>	18
<i>Exploratory Sequential Design</i>	21
<i>Explanatory Sequential Design</i>	25
<i>Concurrent Embedded Design</i>	28
<i>Case Study Using a Convergent Design</i>	31
Summary and Key Points	33
Review Questions and Exercises	34
References	34
<b>Chapter 2. Applications and Illustrations of Mixed Methods Health Sciences Research</b>	<b>37</b>
Relevance of Mixed Methods Research in the Health Sciences	38
<i>Clinical Research</i>	41
<i>Health Services Research</i>	43
<i>Implementation Science</i>	44

Illustrations From Mixed Methods Studies in the Health Sciences	45
<i>Example of a Convergent Design With a CBPR Orientation</i>	46
<i>Example of an Exploratory Sequential Design Using a Patient-Centered Outcomes Research Orientation</i>	55
<i>Example of an Explanatory Sequential Design Using an Implementation Science Orientation</i>	63
Summary and Key Points	70
Review Questions and Exercises	70
References	71
<b>Chapter 3. Determining the Appropriateness and Feasibility of Using Mixed Methods</b>	<b>73</b>
Defining the Nature of the Research Question	74
Developing the Rationale and Aims for a Mixed Methods Study	77
Key Considerations at the Planning Stage of a Project to Determine Feasibility	81
<i>Team Composition</i>	83
<i>Team Collaboration</i>	91
<i>Resources</i>	93
<i>Timeline</i>	94
<i>Dissemination</i>	96
Summary and Key Points	97
Review Questions and Exercises	98
References	98
<b>PART II. GETTING MIXED METHODS RESEARCH FUNDED</b>	<b>101</b>
<b>Chapter 4. Writing a Scientifically Sound and Compelling Grant Proposal for a Mixed Methods Study</b>	<b>103</b>
Before You Write	104
<i>Choosing a Funding Institution</i>	104
<i>Communicating With Funders</i>	107
<i>Developing a Realistic Timeline</i>	109
Trends in Funding for Mixed Methods Studies	109
Writing a Mixed Methods Proposal	112
<i>Alignment Across Components of the Grant</i>	112
<i>Title</i>	114

<i>Background and Significance</i>	115
<i>Study Aims</i>	115
<i>Research Plan or Methods</i>	118
<i>Investigative Team and Environment</i>	124
<i>Cover Letter</i>	128
<i>Think Like a Reviewer</i>	129
Summary and Key Points	131
Review Questions and Exercises	132
References	132

## **Chapter 5. Examples of Funded Grant Applications**

<b>Using Mixed Methods</b>	<b>135</b>
Real-World Examples of National Institutes of Health Grant Applications	136
Major Research Funding	137
Small Research Grants	143
Career Development Awards	151
Tips From the Field	157
Summary and Key Points	166
Review Questions and Exercises	166
References	167

## **Chapter 6. Assessing Quality in Mixed Methods Studies**

The Importance of Research Quality for Different Audiences	170
Common Standards of Quality in Qualitative and Quantitative Research	170
Additional Standards for Quality in Designing and Conducting Mixed Methods Studies	179
Conceptualization and Justification of the Study as Mixed Methods	182
Design Quality	183
Adherence to Respective Standards of Quality for Qualitative and Quantitative Research	184
Adherence to Standards for Mixed Methods Data Analysis	186
Quality of Analytic Integration	188
Quality of Interpretation	189
Examples of Threats to Quality in the Design and Conduct of Mixed Methods Studies	189

Summary and Key Points	194
Review Questions and Exercises	194
Case #1	195
Case #2	195
Case #3	196
References	197

## **PART III. DESIGNING AND IMPLEMENTING A MIXED METHODS STUDY** **201**

### **Chapter 7. Sampling and Data Collection in**

<b>Mixed Methods Studies</b>	<b>203</b>
Principles of Sound Sampling	204
Principles of Sampling in Mixed Methods Studies	205
Practices of Sampling in Mixed Methods Studies	207
<i>Interdependent Sampling</i>	208
<i>Independent Sampling</i>	211
<i>Combined Sampling</i>	213
<i>Sampling Considerations Unique to Mixed Methods</i>	216
Approaches to Data Collection in Mixed Methods Studies	219
<i>"Fitting" Data Across Components</i>	221
<i>Building Team Capacity for Data Collection</i>	223
<i>Logistics of Implementing Data Collection</i>	225
Summary and Key Points	226
Review Questions and Exercises	226
References	227

### **Chapter 8. Data Analysis and Integration in**

<b>Mixed Methods Studies</b>	<b>229</b>
Importance of Integration of Mixed Methods Data	230
Developing a Data Analysis Plan	231
<i>Aligning the Overall Analysis Plan With the</i>	
<i>Study Aims and Design</i>	232
<i>Determining the Priority of Study Components</i>	232
<i>Defining the Points of Integration</i>	233
Approaches to Integration in Data Collection and Analysis	234
<i>Data Integration Through Merging</i>	235
<i>Data Integration Through Embedding</i>	236
<i>Data Integration Through Connecting</i>	238
Implementing Data Integration	242

<i>Addressing Divergence</i>	242
<i>Using Computer Software</i>	246
Integration in Interpreting and Presenting Findings	247
<i>Narrative Approaches</i>	248
<i>Joint Displays</i>	250
<i>Data Transformation</i>	251
Summary and Key Points	254
Review Questions and Exercises	254
References	254
<b>Chapter 9. Managing Mixed Methods Teams</b>	<b>259</b>
Why Think About Mixed Methods Teams?	260
Mixed Methods Teams as Representational Groups	260
Considerations and Guiding Principles	
for Managing Teams	263
<i>Dealing With Differences</i>	265
<i>Trusting the "Other"</i>	268
<i>Creating a Meaningful Group</i>	269
<i>Handling Conflict and Tension</i>	271
<i>Enacting Effective Leadership Roles Within the Team</i>	273
Single Investigator Research	276
Summary and Key Points	277
Review Questions and Exercises	278
References	278
<b>Chapter 10. Implementation Issues in</b>	
<b>Mixed Methods Research</b>	<b>281</b>
Working With Human	
Research Protection Programs	282
<i>Human Research Protection Program Overview</i>	282
<i>Human Research Protection Program</i>	
<i>Considerations Unique to Mixed Methods Research</i>	283
Recommendations for Preparing	
a Strong Mixed Methods Application	
for Human Research Protection Program Review	285
<i>Review Application Instructions Thoroughly</i>	286
Contact Human Research	
<i>Protection Program Staff Before Submission</i>	289
<i>Communicate Clearly and Effectively</i>	289
<i>Form a Mixed Methods Team With Necessary Expertise</i>	290

Key Issues for Specific Mixed Methods Design Types	291
<i>Convergent Designs</i>	292
<i>Exploratory Sequential Designs</i>	293
<i>Explanatory Sequential Designs</i>	294
<i>Emergent Designs</i>	296
Implementation Challenges	
and Strategies From the Field	298
<i>Prioritizing Components and Findings</i>	299
<i>Team Approaches to Data Analysis</i>	301
<i>Incorporating Mixed Methods Expertise</i>	303
Summary and Key Points	305
Review Questions and Exercises	305
References	306
<b>PART IV. DISSEMINATING FINDINGS</b>	<b>307</b>
<b>Chapter 11. Publishing Mixed Methods Studies</b>	
<b>in the Health Sciences</b>	<b>309</b>
Challenges and Opportunities in Publishing Mixed	
Methods Research in the Health Sciences	310
Developing a Publication Strategy and Plan	312
<i>Deciding on the Overall Approach to Publications</i>	312
<i>Choosing a Target Journal</i>	315
<i>Creating a Strong Author Team</i>	318
<i>Principles and Practices for Writing a Mixed</i>	
Methods Manuscript	319
<i>Know the Standards for Reporting Mixed Methods Studies</i>	319
<i>Write with the Audience in Mind</i>	320
<i>Address Data Integration in Methods</i>	322
<i>Select Optimal Presentation for Results</i>	322
<i>Be Sure the Abstract and Cover Letter Credibly</i>	
Convey Mixed Methods	323
Cover Letter	327
Responding to Peer Reviews for Mixed Methods Studies	329
Example of Letter for Revision and Resubmission	333
Summary and Key Points	341
Review Questions and Exercises	341
References	342

## **Additional Materials**

Appendix A. Biographies of Contributing Experts	345
Appendix B. Methodology for National Institutes of Health RePORTER Analysis of Trends in Funding for Mixed Methods Research	357
Appendix C. Assessing Rigor in Quantitative Health Sciences Research	359
Appendix D. Assessing Rigor in Qualitative Health Sciences Research: Consolidated Criteria for Reporting Qualitative Research (COREQ)	363
Appendix E. Quick Resource: A Short List of Readings and References	367
Appendix F. Qualitative Analysis Software Comparison Table	369
Glossary of Key Terms and Definitions	373

<b>Index</b>	<b>385</b>
