Foreword.....	13
Chapter 1	17
What Went Wrong?—An Organized Review of Follies and Failures	17
Management Failures—Lapses in Risk Management and Control	19
1. Managed Buffers for Yield Assuming Markets Would Always Be Liquid	19
2. Overconfident that Wholesale Funds Providers Will Always Be Willing to Lend.....	20
3. Tolerated Excessive Liquidity Mismatches	20
4. Ignored "Worst-Case" Stress Tests and the Cassandra Effect	23
5. Moved Risks Off-Balance Sheet and Out of Sight	24
6. Risk Taking Not Matched by Risk Management	25
7. Misallocation of Risk Resources	26
8. Misaligned Incentives	27
9. Organizational and Execution Weaknesses.....	27
10. Overreliance on Ratings	28
Liquidity Risk Measurement Failures.....	29
1. Failure of Some Institutions to Embrace Forward- Looking Measures.....	29
2. Failed to Perform "Worst-Case" Stress Tests	29
3. Misunderstanding and Misapplying VaR	30
4. Insufficient Data—Especially for New Products	32
5. Confusion between "Risk" and Uncertainty	32
6. Preparing to Fight the Last War.....	34
7. Severely Underestimated Potential Funding Requirements	35
8. Failed to Recognize Risk Linkages and Macro Factors	36
Liquidity Risk Regulatory Failures.....	37
1. Capital Is Not a Solution for Liquidity Risk.	37
2. Basel II Arbitrage Increased Liquidity Risk on Balance Sheet...	38
3. Basel II Arbitrage Contributed to Increases in Off-Balance Sheet Risks	39
4. Permitted a Large Increase in Systemic Risk from Banks' Reliance on Short-Term Capital Markets Funding.....	39
5. Almost No Change in Regulation despite Obvious Risks in Mortgage Lending and Securitized Assets	41
6. Lack of Cooperation among Regulators	42
7. Mark-to-Market Accounting	43
Going Forward	44

Chapter 2	49
Impact of the Financial Crisis on Liquidity Risk Management	49
No Time to Act	51
Funding and Liquidity Risk	53
Measuring Liquidity Risk	54
Measuring Funding Risk	56
Pillars of an Effective Liquidity Risk Management	58
Organization	59
Funding Mix	60
Liquidity Reserve	62
Funds Transfer Pricing (FTP)	63
Limit Setting	66
Contingency Plan	67
Systemic Impact	68
Misallocation of Liquidity	69
Liquidity Risk and Credit Risk	71
Chapter 3	75
Conceptual Underpinnings	75
A Bit of Historical Background	76
Why Bother with Old Theories and Basic Facts We All Know Already?	77
Vulnerability and Financial Fragility	79
Idiosyncratic Crises	81
Where Do We Get Liquidity?	83
The Commercial or Real Bills Theory of Liquidity	83
The Shiftability Theory of Liquidity	88
The Anticipated Income Doctrine of Liquidity	91
The Liability Management View of Liquidity (or Illiquidity)	94
The Balance Sheet Management View of Liquidity	96
Liquidity Sources Summary	97
Chapter 4	101
Liquidity Risk Rules⁷⁶	101
Liquidity Risk Rules for Bankers	101
Rule 1: Liquidity risk is unavoidable.	101
Rule 2: Liquidity risk is heterogeneous.	102
Rule 3: You always have more than you need until you don't. ...	102
Rule 4: Scenarios are the language of liquidity risk.	104
Rule 5: Too little liquidity can kill a bank suddenly, but too much liquidity will kill a bank slowly.	105
Rule 6: Cash sources and uses are fungible.	106
Rule 7: Rewards from good liquidity risk management are not directly observable.	107
Three More Rules for Bank Regulators	108
Rule 1: Liquidity risk management nets to zero for the system as a whole.	108

Rule 2: Regulation is necessary but insufficient.....	109
Rule 3: The primary goal must be preservation of confidence in financial institutions. Over time, confidence can only be maintained by preserving the soundness of financial institutions. Soundness, in turn, cannot be maintained without minimizing incentives for management failures...	109
Chapter 5	111
Scenario Analysis	111
Introduction.....	111
A Variety of Systemic and Bank-Specific Funding Disruptions.....	114
I. Defining Scenarios.....	118
Liquidity Events Are Often Global and Have Interrelated Elements	121
Capital Markets Crisis—1998	121
Capital Markets Crisis—2007-2008.....	121
All for One and One for All	122
Basic Requirements for Defining Scenarios	122
Scenario Evolution Case Studies	124
Generalizing—A Classic Bank-Specific Scenario	132
What Are Silent Runs, Really?	133
Critical Structural Changes.....	134
Agency Risk.....	135
Information Asymmetry.....	136
Wachovia Reveals an Important Silent Run Perspective	136
Rush to Exists—A Capital Market Disruption Scenario	137
Implications for Liquidity Scenario Analysis	139
Implications for Liquidity Scenario Analysis	143
Interaction between Funding Liquidity and Market Liquidity	144
Evolution Over Time.....	144
Unfolding of a Systemic Event: The Great Meltdown of 2007-2008	145
Lessons to be Learned from Scenario Evolution	147
Combined Bank-Specific and Systemic Scenarios	148
Chapter 6	151
Cash Flow Forecasts	151
First Digression—Liquidity Ratios	151
Cash Flow Forecasts Are the Way to Go	152
Advantages of Cash Flow Forecasts	153
Seven Important Cash Flow Forecast Topics	153
1. Scope	154
2. Combining Stock Measures and Flow Perspectives.....	154
Second Digression—Interest Rate Risk Gaps and Liquidity Gaps Are Similar But Not Identical.....	156
3. Time Buckets and Granularity	157
4. Combining Contractual and Behavioral Cash Flows	159
Contractual Cash Flows and Maturity Transformation	160
Once Again, This Time with Behavioral Assumptions.....	161

5. Format Is Surprisingly Important	164
6. Additional Clarity—FCE and CBC	170
7. Data	171
Measurement Summary	172
Chapter 7	175
Practical Stress Testing	175
What Is Stress Testing?	175
Stochastic Stress Testing and Value at Risk	177
Historical VaR and Extreme Value Analysis	177
VaR Is NOT Appropriate for Liquidity Risk.....	179
Deterministic Scenario Stress Tests	183
Key Point: Stress Testing Is NOT a Predictive Exercise	183
If Stress Tests Aren't Predictive, Why Stress Test?	184
Deterministic Scenario Modeling at Multiple Stress Levels	185
Requirements for Best Practice Stress Tests	186
Stress Test Procedures	188
Steps for Stress Testing.....	188
Additional Stress Testing Requirements.....	203
Stress Testing in Multiple Currencies	203
Stress Testing for Banks in Groups.....	204
Jurisdictional Ring Fencing.....	204
Reverse Stress Tests	204
Backtesting Stress Tests	205
Observed Stress Test Errors.....	205
Stress Testing Summary	207
Chapter 8	209
Quantifying Stress Tests Variables	209
What We Need to Know	209
Normal versus Stress Assumptions	210
Is a Conservative Bias Necessary?	211
Is Accuracy a Requirement?	212
Intrinsic Subjectivity	213
General Guidelines for Sound Assumptions.....	214
Use Sensitivity Testing to Focus Resources on the Most Important Variables.....	217
What Are the Drivers of Cash Flows?	219
The Impact of Interest Rate Changes—A Special Note	221
Rate Changes and FCE—Impact Is Often Overestimated	221
Loan Prepayments—A Resource Soak	221
Rate Swaps—A Contra-Example.....	222
Rate Changes and CBC—Impact Is Often Underestimated	222
Numbers for Your Stress Tests: Indeterminate Maturity Deposits.....	223
Wrong Method	223
Wrong Target	224
First Required Step: Define Stickiness Attributes.....	224
Second Required Step: Calculate a Stickiness Score	227

Third Required Step: Calculate a Stickiness Hierarchy.....	228
Fourth Required Step: Generate Estimates for Each Source Type	229
Quicker and Easier Assumption Sources.....	233
Insufficient Distinction of Liquidity and Repricing Lives.....	234
IMDA Growth in Systemic Stress Conditions—Contra-Examples.	234
Numbers for Your Stress Tests: Time Deposits	235
Time Deposit or Borrowing?	236
Borrowings	237
The Constraints Are Market Access and Collateral.....	238
The Impact of Credit Risk on Market Access	238
Numbers for Your Stress Tests: Borrowings.....	239
Numbers for Your Stress Tests: Loans	241
Cash Generated and Consumed by Funded Loans.....	241
Cash from Loans Sales and Securitizations.....	242
Funding Requirements for Uncommitted Loans	243
Funding Requirements for Loans Originated for Sale.....	243
Funding Requirements for Uncommitted “Name” Protection	244
Funding Requirements Arising from Off-Balance Sheet Commitments.....	245
Funding Requirements for Proprietary Trading	246
Numbers for Your Stress Tests: Off-Balance Sheet Commitments.....	247
The Impact of Other Contracts on Funding	251
Liquidity Buffers	252
Cash, Deposits at Correspondent Banks, and Deposits at the Central Bank	253
Liquidity and Marketability Are Relative.....	254
Understanding Marketability in the Context of Scenarios and Stress Levels.....	254
Numbers for Your Stress Tests: Buffer Assets.....	256
Assets That Can Be Included in the Buffer.....	256
Size and Market Price of Buffer Assets	257
Discounts and Haircuts for Buffer Assets	259
Intra-Day Liquidity—The Double Duty Collateral Problem... 	262
Chapter 9	271
Managing FCE and Buffers.....	271
The Buffer Fallacy and the Management Equivalency	271
Practical Application	274
Diversify Liquidity Sources—Sometimes.....	275
Diversification Does Not Always Reduce Risk	276
Diversification of Wholesale Funding Sources Does Not Always Reduce Liquidity Risk	278
Using Diversification Effectively	278
Manage Liability Term Structure	279
Deposit Retention Programs	281

Manage Market Access	282
Two Risk Characteristics	283
Tactics for Managing Capital Markets Access	284
Managing Buffer Assets to Enhance Liquidity	287
Optimize the Overall Size of the Buffer	289
Optimize the Composition of the Buffer	290
Control Activities that Consume Buffer Assets	292
Minimize the Risk of Trapped Collateral	293
Currency Warning	294
Using Loans as Secondary Sources	294
Managing Confidence	296
Even Strong Banks Can Be Impacted	296
Manage so the Markets and the Public See Your Strength	297
Public versus Bilateral Disclosure	299
Manage Reputation Risk	299
Franchise Viability Risk	301
Maintain the Capacity to Enhance Confidence Quickly	302
Managing the Transition from Business as Usual to Event Management	304
Advance Plans for Obtaining Cash from Your Buffer	305
Chapter 10	309
Contingency Planning	309
General Requirements for a CFP	311
Identification of Scenarios and Stress Levels	315
Scenarios	315
Specification of Stress Levels	316
Triggers, Early Warning Indicators, and KRIs	316
Action Plan Menus	319
Action Plans to Reduce FCE or Increase Buffer	320
Action Plans to Bolster Confidence	324
Action Plans for Efficient Crisis Management	329
Plans for Liquidity Risk Reporting	332
Do Not Overemphasize Market Access	333
Central Bank Borrowings	334
Other Contingency Plan Provisions	334
Invocation and Escalation	334
Plan Administration	335
Plan Testing	335
Make the Management Connection	337
Contingency Planning Summary	338
APPENDIX 10A	341
A Sample Liquidity Contingency Plan	341
Liquidity Contingency Plan for the Ocean Bank	342

Chapter 11	369
Governance	369
Lessons from Governance Failures	371
Controlling Vulnerabilities Is the Most Critical Management Task....	371
Strategic Time Horizons—The Citigroup / JP Morgan Lesson.....	372
Risk and Reward Balance: UBS AG.....	373
Risk Tolerance and Limits	374
Determinates of Risk Tolerance.....	374
Dealing with Multiple Dimensions of Liquidity Risk.....	378
The Case for Risk Limits	380
Selecting and Quantifying Liquidity Risk Limits	380
Management Reports	386
Common Issues for Liquidity Reports	387
Recommended Reports.....	390
Internal Controls.....	394
Validation of Assumptions and Measurement Tools	394
Procedures for Monitoring Compliance with Liquidity Risk	
Limits and Management Procedures	395
Procedures for Monitoring Changes in Liquidity Measurement	
and Limit Compliance	395
Organization of Risk Management within the Bank	397
Finance Centric Organization.....	397
Market Centric Organization.....	397
Risk Centric Organization.....	397
Independent Risk Control Units	398
Which Organizational Structure Is Best?	399
Organization of Risk Management in Groups.....	399
Policies	401
Policy Scope	402
General Policy Requirements	403
Sample Liquidity Risk Management Policy	404
Resource, Review, and Reassess.....	405
Appendix 11A	409
Chapter 12	437
Liquidity Costs and Pricing	437
The Case for Allocating Liquidity Costs and Benefits	438
The Case for a Dual LFTP System	443
Incorporating the Liquidity Cost Term Structure.....	445
Implementation Details	447
Incorporating Contingency Liquidity Costs.....	451
The Cost of Liquidity Contingency Risk Is the Hedge Cost.....	452
Quantifying the Contingent Risk Hedge Using Liquid Assets	453
Quantifying the Contingent Risk Hedge Using	
Long-Term Liabilities	454

Quantifying the Costs of Loan Commitments and Nonsticky Liabilities	456
Term—and Contingent-Based Pricing Summary	463
Framework for Measuring the Cost of Market Liquidity	465
Liquidity Cost and Pricing Issues Related to FTP Systems..	468
Allocating the Contingent Liquidity Credits and Debits.....	468
Charging Transactions or Applying Net Charges to Business Units	470
Matz's Ten Rules for Liquidity FTP	471
Summary	474
Chapter 13	477
Liquidity Risk and Regulation: Between a Rock and a Hard Place	477
Basel III	478
Contagion and Systemic Risk	481
Falling Dominoes	482
Institution-Specific and Systemic Contagion Is Bidirectional.....	482
Market Risk and Funding Risk Contagion.....	483
Commodity Prices and Funding Risk Contagion	483
Mark-to-Market Accounting and Systemic Risk	484
Capital Rules and Systemic Risk	485
Managing Contagion and Systemic Risk	486
Regulating Model Risk.....	487
Scope of Regulation and Guidance	487
Applicability	488
Underestimation of Intrinsic Limits.....	488
Potential Distraction.....	489
Balancing Bank Level and Systemic Risk Management.....	489
Between a Rock and Hard Place.....	490
Appendix 13A.....	493
Liquidity Risk Regulation February 2011	493
Chapter 14	559
The Future of Liquidity Risk Management.....	559
Improved Measurement	560
Improved Management	561
Improved Regulation.....	562
Challenges.....	562
Glossary	565
