

CONTENTS

CONTENTS	
Ego-nets attribute matrix	97
The Ego Network Composition screen	97
Extract screen for ego-network composition	98
Output screen	98
Row wise data	99
Row wise data for alters	100
A portion of the alter-alter tie network	100
The E-NET Ego screen	101
Visualization of Ego-Net with 4D alter information	101
<i>List of Figures</i>	
1. Structural holes measures	vi
2. Available as ego-net	vii
3. A single ego matrix	viii
4. Narratives in the analysis of tie formation	ix
5. Major social typologies: the friendship networks of students	ix
6. A two-level network	x
7. A single-tie network	x
8. A single-tie network showing about 20 ties	x
9. A single-tie network showing about 20 ties	x
10. Low ego-net connectivity	x
11. Type found nodes	x
12. High ego-net connectivity	x
13. Type found nodes	x
14. High ego-net connectivity	x
15. Low ego-net connectivity	x
16. Type found nodes	x
17. High ego-net connectivity	x
18. Low ego-net connectivity	x
19. Type found nodes	x
20. High ego-net connectivity	x
21. Low ego-net connectivity	x
22. Type found nodes	x
23. High ego-net connectivity	x
24. Low ego-net connectivity	x
25. Type found nodes	x
1. Introduction	1
2. Social Capital and Small Worlds: A Primer	25
3. Getting Ego-Nets	44
4. Analysing Ego-Net Data	76
5. Narratives, Typologies and Case Studies	105
6. Multilevel Models for Cross-Sectional Ego-Nets	126
7. Statistical Analysis of Network Dynamics	151
