

CONTENT

INTRODUCTION	11
GEOGRAPHY AS A SCIENCE, DIDACTICS OF GEOGRAPHY.....	12
Traditional, disappearing and emerging human geography topics at grammar schools and in undergraduate geography teacher training programmes	12
<i>Rastislav Čief, Branislav Nižnanský</i>	
Pupil's difficulties in performing problem-based learning tasks in geography: Results of the qualitative analysis	23
<i>Tomáš Janko, Petr Knecht, Silvie Rita Kučerová, Jan Daniel Bláha</i>	
Theoretical concept of regional inequalities in the context of creating university textbook – regional development – factors, inequalities and cross-border cooperation.....	30
<i>Radoslav Klamár, Alena Madziková, Martin Rosič</i>	
Useful geography in education	46
<i>Jaromír Kolejka</i>	
Development studies and development geography in the system of Earth sciences	56
<i>Zdeněk Opršal, Pavel Nováček</i>	
European Union in the practical life of primary school pupils (at the 2 nd level of primary schools in Slovakia).....	65
<i>Iveta Rakytová</i>	
The evaluation of potential contributions of outdoor education – teacher's versus pupil's point of view	82
<i>Hana Svobodová, Darina Misařová, Radek Durna, Eduard Hofmann</i>	
Experience-based learning in teaching of the local landscape.....	91
<i>Ivana Tomčíková</i>	
Activating methods in geography teaching (geography by senses)	103
<i>Jana Vojteková, Michaela Žoncová</i>	
Geography and its application in education within the cross border cooperation project "Springs connecting" (case study).....	112
<i>Kamil Zágoršek, Emil Drápela, Tomáš Vitvar, Matthias Kändler, Jiří Šmída, Hynek Böhm</i>	

PHYSICAL GEOGRAPHY, LANDSCAPE RESEARCH	119
--	-----

Possibilities of air temperature data processing from the meteorological stations in Brno and surrounding area 119

Karel Dejmal, Petr Kolář, Josef Novotný, Alena Roubalová

Water regime and prediction of its impact on river crossing in different types of zonal landscape 132

Filip Dohnal, Marian Rybanský, Kateřina Šimková

The significance of historical landscape structure in South Moravia for the protection of the landscape, landscape function and the protection of agricultural land resources 143

Marek Havlíček, Hana Skokanová, Bořivoj Šarapatka, Renata Pavelková, Patrik Netopil

InVEST software as a modelling tool for ecosystem services assessment (example of Pollinator Abundance model for Nitra and surrounding area) 154

Martin Jančovič

Cultural heritage and geodiversity of landforms in the landscape of the Archdiocese of Olomouc 165

Karel Kirchner, František Kuda, Lucie Kubalíková, Marek Havlíček, Ivo Machar, Vilém Pechanec

The pre-industrial landscape as a cultural heritage: Malá Haná 173

Jaromír Kolečka

Natural aspects of the development of the landscape with dispersed settlement (example of the Hrušov village cadastral area) 187

Ján Lacika, Ján Hanušin

New approaches to studies of extinct ponds 203

Aleš Léta, Renata Pavelková, Patrik Netopil, Marek Havlíček, Václav David, Hana Skokanová, Jindřich Frajer, Bořivoj Šarapatka

Wetland – yes or no (The Paríž wetlands National Nature Reserve – Slovakia) 216

František Petrovič, Matej Moyses, Zlatica Muchová

Analysis and assessment of land cover changes and landscape stability in the Nitra river basin (Slovakia) 227

Matej Vojtek

Using multicriterial analysis to assess the diversification of rural landscape.....	237
--	------------

Michaela Žoncová, Jana Vojteková

CARTOGRAPHY, GIS AND DIGITAL TECHNOLOGIES	248
--	------------

Utilization of GIS in mapping invasive plant species of the River Nitra....	248
--	------------

Michaela Bencová, Vladimíra Lišková, Jozef Ťažký, Dávid Tomko-Králo

New maps of the transport infrastructure's impact on biodiversity.....	259
---	------------

Ivo Dostál, Petr Anděl, Marek Havlíček

Visualization of Traffic Offences in the City of Brno (Czech Republic): Achieving 3D Thematic Cartography through Open Source and Open Data	270
--	------------

Lukáš Herman, Jan Russnák, Radim Stuchlík, Jiří Hladík

Dependence of occurrence of forest fires in Vysočina region on temperature and its spatial distribution	281
--	------------

Martin Hubacek, Sarka Hoskova-Mayerova, David Sladek, Karel Dejmal, Katerina Simkova

Interaction Primitives in 3D Geovisualizations	294
---	------------

Vojtěch Juřík, Lukáš Herman, Čeněk Šašínska

Old Roads in Dolní Pomoraví in the Mikulčice and Kopčany Area: Hypotheses Supported By the Analysis of Old Maps and Aerial Imagery.....	304
--	------------

Jaromír Kolečka, Martin Boltížiar, Matej Vojtek

Analyses of Availability Using GIS Taking into Consideration of Real Terrain	314
---	------------

Matej Močko, Martina Zigová, Michal Ševčík, Imrich Jakab

The Computation of Real Area Using GIS Demonstrated on Management of Invasive Plants.....	326
--	------------

Michal Ševčík, Petra Gašparovičová, Martina Zigová, Tomáš Rusňák, Imrich Jakab

Selected Indicators of Computer Literacy of the Population in Slovakia..	336
---	------------

Katarína Vilinová, Gabriela Repaská, Laura Babjaková

HUMAN GEOGRAPHY	345
Demographic development in Slovakia in 2016	345
<i>Miloš Bačík</i>	
Polish minority in the Czech part of Těšín Silesia in 2017: can accent on schools prevent the entire assimilation?	355
<i>Hynek Böhm</i>	
Methodological issues of using the gravity model to determine the power of border effect	367
<i>Emil Drápela, Nikola Kárníková</i>	
Actors of territorial development in the city of Brno: focused on significant developers of housing construction.....	376
<i>Zdeněk Dvořák, Josef Kunc, Petr Tonev</i>	
Health geography – the context of health and the environment on the example of asthma diagnosis	389
<i>Dana Hübelová, Alice Kozumplíková, Jarmila Überhuberová</i>	
Comparison of Czech regions using Creativity Index	402
<i>Markéta Chaloupková</i>	
Military training areas and their hinterland in the Czech Republic with focus on tourism.....	413
<i>Martina Jaňurová, Aneta Krajičková</i>	
Weekend recreation as a tool for dispersed settlement preservation (case study of village Terchová)	425
<i>Dominika Kaisová</i>	
The design of a cycling route in the model territory of Levice and its surroundings	434
<i>Tomáš Kováč, Martin Boltížiar</i>	
Trade and economic relations of agricultural companies in the suburban region	447
<i>Ondřej Krejčí, Antonín Věžník</i>	
Geotourism within urban areas: new ways of promotion of natural and cultural heritage (case study from Brno city)	462
<i>Lucie Kubalíková, Aleš Bajer</i>	
Experience to apply the method of assessing the recreational potential of suburban forests in urbanized areas	473
<i>Natálie Levandovská</i>	

City spatial structure in case study of the Russian cities Perm and Samara.....	482
<i>Libor Lněnička</i>	
Nitra wine region – the most diverse wine region in Slovakia.....	494
<i>Jana Némethová, Marek Cíváň</i>	
Unrecognized state entities in the (geo)political space of the 21st century	506
<i>Štěpán Podhrázský</i>	
Quality of life evaluation in the municipality with a great employer: case study of the Mírov municipality	515
<i>Zdeněk Šilhan, Hana Svobodová</i>	
Specifics of the retail network spatial structure in the Piešťany town.....	525
<i>Miroslava Trembošová, Sandra Wiecková, Ivana Gálisová</i>	
Selected indicators of computer literacy of the population in Slovakia....	543
<i>Katarína Vilinová, Gabriela Repaská, Laura Babjaková</i>	
Potential of the tourism development in municipalities of the local action group Horný Liptov	553
<i>Gréta Vrbičanová, Hilda Kramáreková</i>
