About the Author iii

To the Instructor iv

To the Student viii

Chapter 1 Introduction to Research in Education 1

Chapter Road Map 2

Why Research? 2

Sources of Knowledge 4

Experience and Intuition 4 • *Tradition* 4 •
Experts' Authority 4 • *Logic and Reason* 5 •
Research 5

The Nature of Scientific Inquiry 6

Purpose 6 • *Principles* 7

Applying Systematic Inquiry to Educational
Research 9

Types of Educational Research 11

Quantitative Research Designs 12 • *Qualitative
Research Designs* 14 • *Mixed Methods Research
Designs* 14 • *Basic, Applied, Action, and
Evaluation Research* 16

Research Article Format 17

Title and Author(s) 18 • *Abstract* 18 •
Introduction 19 • *Review of Literature* 19 •
Specific Research Question or Hypothesis 19 •
Method and Design 19 • *Results (Findings)* 20 •
Discussion 20 • *Conclusions* 20 •
References 20

Anatomy of a Research Article 20

Discussion Questions 26

Thinking Like a Researcher 26

Chapter 2 Ethical Issues, Principles, and Practices 27

Chapter Road Map 28

Introduction to Ethics and Ethical Decision Making 29

Ethics as Applied to Educational Research 29 •

*Fundamental Ethical Principles for Professional
Practice* 30

Federal Law and Legal Requirements for Conducting
Ethical Research 31

A Brief History of Federal Ethics Codes 32

Application of Ethical Principles to Research Practice 33

Respect for Persons 34 • *Beneficence* 38 •
Justice 41

Ensuring Ethical Research: The Role of Institutional
Review Boards 41

Ethical and Legal Standards in Authoring and
Publishing 43

Avoiding Conflicts of Interest 43 • *Ensuring
Accuracy* 44 • *Protecting Intellectual Property
Rights* 44

Discussion Questions 45

Thinking Like a Researcher 45

Chapter 3 Research Problems and Questions 46

Chapter Road Map 47

Research Problems 47

Research Problem Components 47 • *Sources for
Research Problems* 51

Quantitative Research Problem Statements and Specific
Research Questions 54

Variables in Quantitative Research 54 •
Conceptual and Operational Definitions 55 •
Types of Variables 56 • *Specific Research
Questions* 59

**CONSUMER TIPS: Criteria for Evaluating Quantitative
Research Problem Statements and Questions 61**

Research Hypothesis 65

**CONSUMER TIPS: Criteria for Evaluating Research
Hypotheses 68**

Qualitative Research Problem Statements and
Questions 69

**CONSUMER TIPS: Criteria for Evaluating Qualitative
Research Problem Statements and Questions 70**

Mixed Methods Research Problems and Questions 71

**CONSUMER TIPS: Criteria for Evaluating Mixed Methods
Research Problem Statements and Questions 73**

Discussion Questions 74

Thinking Like a Researcher 74

**Chapter 4 Locating and Reviewing Related
Literature 75**

Chapter Road Map 76

Why Review Related Literature? 77

*Refining the Research Problem 78 • Establishing
the Conceptual or Theoretical Framework 78 •
Developing Significance 78 • Developing Specific
Research Questions and Hypotheses 79 • Identifying
Methodological Strengths and Limitations 79 •
Identifying Contradictory Findings 80 • Learning
New Information 80 • Providing Information for
Interpretation and Discussion 81*

Steps to Find Related Literature 81

*Step 1: Select a Topic and Key Terms 82 •
Step 2: Identify Literature Database(s) and
Interface 82 • Step 3: Use the Appropriate
Thesaurus 83 • Step 4: Conduct the Search 85*

Summarize and Analyze Key Sources 87

*Identify the Source as Primary or Secondary 87 •
Construct a Literature Matrix 90*

Internet Searches 92

*Strengths and Weaknesses of Using the Internet 92 •
Internet Search Strategies 93 • Search Engines 94 •
Metasearch Engines 95 • Beyond Web Pages:
Scholarly Communication Strategies 95*

**CONSUMER TIPS: How to Cite Internet Resources
in Your References 98**

**CONSUMER TIPS: Evaluating Information from
the Internet 99**

Writing a Review of Literature 99

**CONSUMER TIPS: Criteria for Evaluating the Review of
Literature 102**

Discussion Questions 108

Thinking Like a Researcher 109

Chapter 5 Participants and Sampling 110

Chapter Road Map 111

What Are Participants and Samples? 111

Sampling Procedures for Quantitative Studies 113

Random Sampling 115 • Nonrandom Sampling 122

Sampling Procedures for Qualitative Studies 125

*Criterion Sampling 125 • Typical Case
Sampling 127 • Extreme Case Sampling 127 •
Critical Case Sampling 128 • Negative Case
Sampling 128 • Maximum Variation
Sampling 128 • Snowball Sampling 128 •
Opportunistic Sampling 129*

Types of Sampling Procedures for Mixed Methods
Studies 129

*Sequential Mixed Methods Sampling 129 • Concurrent
Mixed Methods Sampling 131*

How Participants and Sampling Affect Research 132

*Volunteer Samples 132 • Sample Size 132 •
Participant Motivation 134 • Sampling Bias 135*

**CONSUMER TIPS: Criteria for Evaluating Sampling
Procedures and Participant Descriptions 136**

Discussion Questions 137

Thinking Like a Researcher 137

**Chapter 6 Foundations of Educational
Measurement 138**

Chapter Road Map 139

Introduction to Measurement 140

*What Is Measurement? 140 • The Purpose of
Measurement for Research 140 • Scales of
Measurement 141*

Descriptive Statistics and Graphs 143

*Frequency Distributions 143 • Frequency
Graphs 145 • Measures of Central
Tendency 148 • Measures of Variability 149 •
Bivariate Correlation 153*

Measurement Validity 155

*What Is Measurement Validity? 155 • Sources of
Measurement Validity Evidence 155 • Effect of
Measurement Validity on Research 160*

Measurement Reliability 161

*Types of Reliability Estimates 161 • Effect of
Reliability on Research 167*

Discussion Questions 168

Thinking Like a Researcher 168

**Chapter 7 Quantitative Data Collection
Techniques 169**

Chapter Road Map 170

First Things First: Is the Measure Sufficiently
Sensitive? 171

*Validity 172 • Reliability 173 • Range of Observed
Scores 173*

- Tests 174
 - Norm- and Criterion-Referenced/Standards-Based Interpretations* 174 • *Large-Scale Standardized Tests* 176 • *Interpreting Norm-Referenced Scores* 179
- Questionnaires 181
 - Personality Assessment* 181 • *Attitude, Value, and Interest Questionnaires* 182 • *Types of Scales* 183 • *Constructing Questionnaires* 186 • *Internet-Based Questionnaires* 189
- Interviews 190
 - Types of Interview Questions* 190 • *Interviewer Effects* 191
- Observations 192
 - Inference* 193 • *Observer Effects* 194 • *Problems in Measuring "Noncognitive" Traits* 196
- Sources for Locating and Evaluating Existing Instruments 198
- CONSUMER TIPS: Criteria for Evaluating Instrumentation** 198
- Discussion Questions 200
- Thinking Like a Researcher 201

Chapter 8 Nonexperimental Quantitative Research Designs 202

- Chapter Road Map 203
- Quantitative Research Design 204
- Types of Nonexperimental Research 205
- Descriptive Studies 206
- CONSUMER TIPS: Criteria for Evaluating Descriptive Studies** 208
- Relationships in Nonexperimental Designs 208
- Comparative Studies 209
- CONSUMER TIPS: Criteria for Evaluating Comparative Studies** 211
- Correlational Studies 214
 - Simple Correlational Studies* 214 • *Complex Correlational Studies* 215 • *Prediction Studies* 218
- CONSUMER TIPS: Criteria for Evaluating Correlational Studies** 219
- Causal-Comparative and Ex Post Facto Studies 223
 - Causal-Comparative Designs* 223 • *Ex Post Facto Designs* 224
- CONSUMER TIPS: Criteria for Evaluating Causal-Comparative and Ex Post Facto Studies** 225
- Survey Research Designs 225
 - Steps in Conducting Survey Research* 226 • *Cross-Sectional Survey Research* 228 • *Longitudinal Survey Research* 228 • *Internet-Based Survey Research* 230

- Anatomy of a Quantitative Nonexperimental Article 231
- Discussion Questions 234
- Thinking Like a Researcher 235

Chapter 9 Experimental Research Designs 236

- Chapter Road Map 237
- Characteristics and Goals of Experimental Research 238
 - Characteristics* 238 • *Goals* 239
- Experimental Validity 239
 - Internal Validity* 240 • *External Validity* 249
- Types of Group Experimental Designs 249
 - Single-Group Designs* 250 • *Nonequivalent-Groups Designs* 252 • *Randomized-to-Groups Designs* 254 • *Factorial Designs* 258
- CONSUMER TIPS: Criteria for Evaluating Experimental Research** 260
- Single-Subject Designs 263
 - Characteristics of Single-Subject Research* 263 • *Types of Single-Subject Designs* 264
- CONSUMER TIPS: Criteria for Evaluating Single-Subject Research** 266
- Anatomy of an Experimental Research Article 267
- Discussion Questions 275
- Thinking Like a Researcher 276

Chapter 10 Understanding Statistical Inferences 277

- Chapter Road Map 278
- The Purpose and Nature of Inferential Statistics 279
 - Degree of Uncertainty* 279 • *Estimating Error in Sampling and Measurement* 279 • *The Null Hypothesis* 280 • *Level of Significance* 281
- Beyond Significance Testing 283
 - Confidence Intervals* 283 • *Effect Size* 284
- Some Specific Inferential Tests 286
 - The t-Test* 287 • *Simple Analysis of Variance* 289 • *Factorial Analysis of Variance* 292 • *Analysis of Covariance* 295 • *Multivariate Statistics* 296 • *Chi-Square Test of Independence* 297
- CONSUMER TIPS: Criteria for Evaluating Inferential Statistics** 299
- Discussion Questions 300
- Thinking Like a Researcher 301

Chapter 11 Qualitative Research Design 302

- Chapter Road Map 303
- Introduction to Qualitative Research 303

- Characteristics of Qualitative Research 304
Natural Settings 305 • *Direct Data Collection* 305 •
Rich Narrative Descriptions 305 • *Process*
Orientation 305 • *Inductive Data Analysis* 306 •
Participant Perspectives 307 • *Socially Constructed*
Meaning 307 • *Emergent Research Design* 307
- Qualitative Research Validity 308
Context Insensitivity 308 • *Inadequate Participant*
Perspectives 308 • *Researcher Bias* 309 •
Inadequate Transparency 310 •
Inauthenticity 310 • *Instrumentation* 310 •
Confirmability 310 • *Sampling* 311
- Six Approaches to Qualitative Research 311
Ethnographic Studies 311 • *Case Studies* 314
Phenomenological Studies 317 • *Grounded Theory*
Studies 318 • *Critical Studies* 320 • *Narrative*
Inquiry 320
- Anatomy of a Qualitative Research Article 323
- Discussion Questions 333
- Thinking Like a Researcher 334

Chapter 12 *Qualitative Data Collection, Analysis, and Credibility* 335

- Chapter Road Map 336
- Qualitative Data Collection 336
General Steps in Collecting Qualitative Data 337 •
Entry into the Field 338 • *Observation* 339 •
Interviewing 344 • *Document and Artifact*
Analysis 348
- Data Analysis and Interpretation 350
Data Organization and Coding 350 • *Data*
Summary 352 • *Data Interpretation* 354
- Credibility Reconsidered 356
- Generalizability 359
- CONSUMER TIPS: Criteria for Evaluating Qualitative Research** 360
- Discussion Questions 361
- Thinking Like a Researcher 361

Chapter 13 *Mixed Methods Designs* 362

- Chapter Road Map 363
- Why Mixed Methods Studies? 364
- Advantages and Disadvantages of Using Mixed Methods Designs 365
- Steps in Conducting a Mixed Methods Study 366
- Research Questions for Mixed Methods Studies 368
- Sampling in Mixed Methods Research 370
- Types of Mixed Methods Designs 371

- Notation* 371 • *Priority/Weighting* 372 • *Sequence/Timing* 372 • *Mixing* 372 • *Explanatory Sequential Design* 373 • *Exploratory Sequential Design* 375 • *Convergent Design* 376

Data Analysis 379

CONSUMER TIPS: Evaluating Mixed Methods Studies 380

- Anatomy of a Mixed Methods Article 381
- Discussion Questions 391
- Thinking Like a Researcher 392

Chapter 14 *Action Research* 393

- Chapter Road Map 394
- What Is Action Research? 394
- Benefits of Action Research 397
Benefits for the School Practitioners Involved in the Research 398 • *Benefits to the Schools and Districts Where Action Research Occurs* 398 • *Benefits to the Field of Educational Research* 398
- Conducting Action Research 399
Identifying and Refining Your Research Focus 399 •
Designing and Conducting Experimental Studies 403 •
Designing and Conducting Nonexperimental Studies 406
- Validity in Action Research 407
- Reflection, Dissemination, and Continuation of the Action Research Cycle 408
Reflection and Planning 408 •
Dissemination 409
- Ethics and Human Subjects Protection 410
- CONSUMER TIPS: Criteria for Evaluating School-Based Action Research** 411
- Anatomy of an Action Research Report 412
- Discussion Questions 416
- Thinking Like a Researcher 416

Chapter 15 *Discussion and Conclusions* 417

- Chapter Road Map 418
- Purpose and Nature of the Discussion 418
- Interpretation of the Results 419
Interpretation Related to the Problem and/or Hypothesis 419 • *Interpretation Based on Theory* 420 • *Interpretation Related to Methodology* 420 • *Interpretation Based on Procedures for Analyzing Data* 423 • *Interpretation Related to Previous Research* 424
- Conclusions 426
Limitations 427 • *Recommendations and Implications* 431

CONSUMER TIPS: Criteria for Evaluating Discussion and Conclusion Sections 433
