

Contents:

Résumé	3
Preface	5
Aims	6
Experimental materials	7
<i>Ni-based alloys</i>	7
<i>Advanced chromium steels</i>	8
Methods	9
<i>Analytical electron microscopy</i>	9
<i>Thermodynamic modelling</i>	10
<i>Monte Carlo atomistic simulation of ordering</i>	12
Summary of the most important results	14
<i>Microstructure and phase diagrams of model Ni-based alloys</i>	14
<i>Ordering processes in Ni-based alloys</i>	17
<i>Microstructure and creep properties of advanced chromium steels</i>	21
Bibliography	25
List of papers included in the dissertation	27
