

Contents

Section 1: Robot and Surgery

1. Robotic Surgery: Past, Present and Future 3
Naresh Trehan
Past 3
Present 3
Future of Robotic Surgery 5
2. Ergonomics 6
Megha Bhatnagar, Aditi Midha
Impact on Musculoskeletal System 6
Muscular Load and Disorders 6
Challenges in the Operation Room 7
Appropriate Posture 7
Need for Exercise and Physical Activity 7
Postural Advice to Counter Effects of Work 8
Quick Fit Break that Can Help! 8
3. Immunofluorescence and Robotic Surgery 10
Vivek Bindal, Anand Kumar Yadav
Clinical Applications of Immunofluorescence Imaging in General Surgery 11
Other Applications in Robotic Surgery 14
Future Applications 14
4. Anesthesia 17
Sangeeta Khanna, Jyotirmoy Das, Yatin Mehta
Preoperative Preparation 17
Intraoperative Management 17
Patient Positioning 18
Few Systemic Considerations in Steep Trendelenburg Position 19
Anesthesia for Transoral Robotic Surgery 20
Robot-assisted Minimally Invasive Renal Transplantation 20
Robot-assisted Esophagectomy 21

Section 2: General Surgery

5. Robot-assisted Sleeve Gastrectomy 27
Parveen Bhatia, Vivek Bindal, Anand Kumar Yadav
 Surgical Procedure 27
 Review of Literature 31
 Discussion 31
6. Robot-assisted Roux-en-Y Gastric Bypass 33
Parveen Bhatia, Vivek Bindal, Anand Kumar Yadav
 Advantages of Robotic Roux-en-Y Gastric Bypass 33
 Surgical Techniques 34
 Perioperative Care 37
 Robotic RYGB: Current Status and Future 38
7. Robotic Surgery for Benign Colorectal Diseases 40
Deepak Govil, Vivek Tandon, Vachan Hukkeri, Satyaprakash Jindal, Adithya GK
 Right Hemicolectomy 40
 Transverse Colectomy 41
 Left and Sigmoid Colectomy 42
 Total Proctocolectomy with Pouch Ileo-anal Anastomoses 43
 Rectopexy 43
8. Carcinoma Rectum 47
Somashekhar SP
 Laparoscopic Surgery in Rectal Cancer 47
 Preoperative Preparation and Precautions 48
 Anesthesia 48
 Robotics in Rectal Cancer 50
 Short-term Clinical Outcomes 50
 Indian Experience 52
 Ongoing Trials 52
9. Robotic Surgery for Bile Duct Tumors 55
Vivek Bindal, Anand Kumar Yadav
 Surgical Treatment 55
 Palliative Surgery 59
 Liver Transplantation 59
 Postoperative Outcomes 59

Section 3: Thoracic and Vascular Surgery

10. Thymus

63

Arvind Kumar, Belal Bin Asaf

Robotic Surgery for Thymus and Anterior Mediastinum 63

Preoperative Preparation and Precautions for Patients Undergoing Thymectomy 63

Anesthesia and Position 64

Port Placement 65

Docking 65

11. Lung Resection

68

Belal Bin Asaf, Arvind Kumar

Indications 68

Preoperative Preparation and Precautions 68

Anesthesia and Positioning 68

Port Placement 68

Docking 69

Steps of Surgery 69

Postoperative Care 70

Complications and Their Management 70

12. Esophagectomy

72

Arvind Kumar, Belal Bin Asaf

Preoperative Preparation and Precautions 72

Anesthesia and Positioning 72

Port Placement 73

Steps of Surgery 73

Postoperative Care 73

13. Vascular Surgery

76

Arvind Kumar, Belal Bin Asaf

Anesthesia and Positioning 76

Status of Robotic Aortic Surgery 77

Section 4: Gynecology

14. Myomectomy

81

Rooma Sinha, Madhumati S, B Rupa

Preoperative Assessment and Role of Magnetic Resonance Imaging 82

Role of Intrauterine Manipulation 82

Port Placement, Positioning and Docking 82

Techniques to Reduce Blood Loss 83

Hysterotomy 84

Enucleation 84

Suturing Techniques 85

Adhesion Prevention 86

Fibroid Retrieval 86

Hybrid Technique 86

15. Challenges in Robotic Myomectomy

88

Kiranabala Dash, SB Khanna

Preoperative Preparation and Precautions 88

Anesthesia and Port Placement 88

Steps of Surgery 89

16. Robotics in Benign Gynecology

92

Mala Srivastava, Ankita Srivastava

Surgical Evolution is Nothing New 92

Indications 93

Hysterectomy 93

Myomectomy 94

Tubal Reanastomosis 94

Sacrocolpopexy 95

Endometriosis 96

Vesicovaginal Fistula 97

Cervical Cerclage 98

17. Sentinel Node Mapping in Gynecological Cancers

101

Anupama Rajanbabu

Background 101

Technique of Sentinel Lymph Node Mapping using Indocyanine Green 101

Learning Curve 103

18. Robotic Staging Surgery for Endometrial Cancer

105

Anupama Rajanbabu

Preoperative Evaluation and Preparation 105

Patient Positioning 105

Uterine Manipulator 106

Port Placement 106

Docking 107

Instrument Placement 108

Cautery Settings	108
Surgical Technique	108
Hysterectomy	109
Pelvic Lymphadenectomy	109

19. Endometrial Cancer and Cervical Cancer

Sabhyata Gupta, Shradha Chaudhari

Pretreatment Evaluation	111
Surgical Staging Overview	111
Routes of Surgery	111
Comparison of Robotic Route with Other Routes	113
Robotic Surgery in Cervical Cancers	114
Robot-assisted Radical Hysterectomy	114
Comparison of Robotic Route to Laparoscopy and Open Route	115

20. Ovarian Cystectomy

Neelam Suri

Preoperative Evaluation	117
Surgical Approach	118
Specific Considerations	119
Suturing in Ovarian Surgery	123

Section 5: Urogynecology

21. Vesicovaginal Fistula Repair

Nitesh Jain, K Ramesh

History and Physical Examination	127
Investigations	127
Repair of Vesicovaginal Fistula	127
Tips and Tricks	129

Section 6: Pediatric Urology

22. Pediatric Urology: The First Hundred Cases

DK Kandpal, SK Chowdhary

Starting the Pediatric Robotic Program	133
Pyeloplasty for Pelviureteric Junction Obstruction	134
Ureteric Reimplantation for Refluxing/Obstructed/Ectopic Ureters, Retrocaval Ureter	135
Partial Nephrectomy/Hemi-nephroureterectomy/Nephroureterectomy for Complex Renal Anomalies	136
Augmentation Cystoplasty with Ureteric Reimplantation	136

111

117

127

133

Section 7: Adult Urology

- 23. Radical Prostatectomy** 141
Hariharan Palayapalayam Ganapathi, Kenneth J Palmer, Gabriel Ogaya-Pines, Travis Rogers, Vipul R Patel
 Preoperative Preparation 141
- 24. Role of Pelvic Lymphadenectomy in Robot-assisted Radical Prostatectomy** 148
Varun Mittal, NP Gupta
 Lymphatic Drainage of Prostate 148
 Imaging for Lymph Node Involvement 148
 Indications of Pelvic Lymphadenectomy 150
 Extent of Pelvic Lymphadenectomy 151
 Survival Benefit with Pelvic Lymphadenectomy 152
 Complications Associated with Pelvic Lymphadenectomy 152
 Robot-assisted Pelvic Lymphadenectomy; Current Status 153
- 25. Radical Cystoprostatectomy** 157
Sudhir Rawal
 Patient Selection 157
 Preoperative Preparation 157
 Robotic Radical Cystectomy 158
 Postoperative Care 159
 Technical Tips and Tricks 160
 Complications 160
 Evidence 161
- 26. Partial Nephrectomy** 162
Ajit Saxena
 Patient Selection 162
 Preoperative Preparation 162
 Technique 163
 Robotic Partial Nephrectomy (RPN) 165
 Postoperative Care 166
 Technical Tips and Tricks 166
 Complications 167
 Evidence 168
- 27. Donor Nephrectomy** 169
Vinay Mahendra, Jaydip Bhadra Roy, Tridibes Mondal
 Preoperative Investigations 169
 Surgical Steps 169

28. Adrenalectomy**Sohrab Arora, Gagan Gautam**

Patient Selection 172

Work-up and Preoperative Preparation 173

Technique 173

Postoperative Care 177

Technical Tips and Tricks 178

Complications 178

Evidence 178

29. Urolithiasis: Expanding the Horizons of Robotic Surgery

180

Siddharth Yadav, Prabhjot Singh, Prem Nath Dogra

Robotic Stone Surgery 180

Robotic Renal Stone Surgery 181

Steps of Surgery 183

Robotic Ureterolithotomy 185

Steps of Surgery 186

Postoperative Care 187

Outcomes, Complications and Management 187

30. Pyeloplasty

190

Manu Gupta

Diagnosis of Pelvi-ureteric Junction (PUJ) Obstruction 190

Indications for Robot-assisted Surgery 190

Treatment 190

Robot-assisted Pyeloplasty 191

Operation Theater Ergonomics 191

Technique 191

Results 192

Different Surgical Techniques 192

Discussion 193

31. Ureteric Reimplantation

195

Vipin Tyagi

Indications 195

Type of Ureteric Reimplantation 195

Preoperative Evaluation and Preparation 195

Operating Room Configuration and Patient Positioning 196

Trocar Placement 196

Psoas Hitch 197

Boari Flap 197

Postoperative Management 197

Complications 197
