

# Table of Contents

## SECTION I: INTRODUCTION TO AGROECOLOGY

<b>Chapter 1</b>	The Need for Sustainable Food Production Systems .....	3
<b>Chapter 2</b>	The Agroecosystem Concept.....	23

## SECTION II: PLANTS AND ENVIRONMENTAL FACTORS

<b>Chapter 3</b>	The Plant .....	35
<b>Chapter 4</b>	Light .....	43
<b>Chapter 5</b>	Temperature .....	59
<b>Chapter 6</b>	Humidity and Rainfall .....	73
<b>Chapter 7</b>	Wind .....	87
<b>Chapter 8</b>	Soil .....	99
<b>Chapter 9</b>	Water in the Soil .....	115
<b>Chapter 10</b>	Fire .....	131
<b>Chapter 11</b>	Biotic Factors .....	147
<b>Chapter 12</b>	The Environmental Complex.....	163

## SECTION III: SYSTEM-LEVEL INTERACTIONS

<b>Chapter 13</b>	The Population Ecology of Agroecosystems .....	171
<b>Chapter 14</b>	Genetic Resources in Agroecosystems .....	183
<b>Chapter 15</b>	Species Interactions in Crop Communities .....	205
<b>Chapter 16</b>	Agroecosystem Diversity and Stability .....	217
<b>Chapter 17</b>	Disturbance, Succession, and Agroecosystem Management .....	237
<b>Chapter 18</b>	The Energetics of Agroecosystems .....	255
<b>Chapter 19</b>	Animals in Agroecosystems .....	269

## SECTION IV: THE TRANSITION TO SUSTAINABILITY

<b>Chapter 20</b>	Converting to Ecologically Based Management . . . . .	289
<b>Chapter 21</b>	Indicators of Sustainability . . . . .	299
<b>Chapter 22</b>	Landscape Diversity and Agroecosystem Management . . . . .	313
<b>Chapter 23</b>	Culture, Community, and Sustainability . . . . .	327
<b>Chapter 24</b>	From Sustainable Agroecosystems to Sustainable Food Systems . . . . .	341
<b>References</b>	.....	357
<b>Glossary</b>	.....	369
<b>Index</b>	.....	375
