Introduction	1
Martha M ROGGENKAMP and Catherine BANET	

PART I. EU ENERGY AND CLIMATE LAW: POLICY AND JURISPRUDENCE

Chapter I. What to do with the Energy Union?

Jacques DE JONG	11
1. Introduction	11
2. What do we Mean by a 'Good' Outcome?	12
2.1. Integrating Energy and Climate Policies in Energy Markets	13
2.2. Regional Approaches	15
2.3. Governance	18
3. What Constitutes a 'Bad' Outcome? The Mistakes in the EU-EnU	19
3.1. Energy Efficiency	19
3.2. Retail Markets in Electricity and Gas	21
4. And Where is the 'Ugly' Part in the EU-EnU?	23
4.1. Is it Energy or Gas?	24
4.2. Gas Demand	25
4.3. Who are the Buyers?	26
4.4. The Pipeline Conundrum	27
5. Good, Bad and/or Ugly?	28

Chapter II. EU Case Law and the Energy Sector

Berend Jan DRIJBER	29
1. Introduction	29
2. Institutional Matters	30
2.1. <i>E.ON Földgáz v Hungarian Energy Regulator</i>	30
2.2. <i>Moravia Gas Storage v European Commission</i>	31
2.3. <i>Energy Control Austria v ACER</i>	32

3.	Disputes Involving Conventional Energy Sources	33
3.1.	<i>Commission v Bulgaria</i>	33
3.2.	<i>Commission v Poland</i>	34
3.3.	<i>SKO-Energo v Czech Inland Revenue</i>	35
3.4.	<i>OKG AB v Sweden</i>	35
3.5.	<i>Kernkraftwerke Lippe-Ems (KLE) v German Tax Authorities</i>	36
3.6.	<i>Commission v MOL Hungary</i>	38
3.7.	<i>Dunamenti Erőmű v Commission</i>	39
4.	Renewable Energy	42
4.1.	Financial Support Mechanisms	42
4.2.	<i>Austria v Commission</i>	42
4.3.	<i>Essent Belgium/Flemish Regulator</i>	43
5.	Final Observations	44

Chapter III. Distributive Choices in *Urgenda* and EU Climate Law

	Suryapratim ROY	47
1.	Introduction	47
2.	The Relationship between EU and Member State Climate Law	49
2.1.	EU Primary Law on Climate Change	51
2.2.	EU Secondary Law on Climate Change	54
2.2.1.	The Effort Sharing Decision	54
2.2.2.	The Emissions Trading Directive	56
2.3.	The Problem of Leakage	61
3.	<i>Urgenda's</i> EU Controversies	63
3.1.	Transnational Scientific Authority versus International Legal Authority	63
3.2.	Distribution of Climate Targets	65
3.3.	Possible Interference with EU Climate Policy	66
4.	Conclusion: The Distribution of Climate Responsibility	68

PART II. ENERGY AND CLIMATE TREATY DEVELOPMENTS

Chapter IV. The Paris Agreement to the UNFCCC: Underlying Dynamics and Expected Consequences for the Energy Sector

	Catherine BANET	71
1.	Introduction	71
2.	The Place of the Paris Agreement within the UNFCCC Regime	73
3.	The Dynamics of the Paris Agreement	76
3.1.	A Hybrid Approach Combining Top-Down and Bottom-Up Elements	76
3.2.	Universal Coverage: An Agreement Defining Obligations to All Countries	78

3.3.	Monitoring of Trajectory and Revision of Ambition Level	79
3.4.	Institutionalizing the Involvement of Non-State Stakeholders	80
4.	Expected Consequences of the Paris Agreement on the Energy Sector	81
4.1.	The Energy Sector as it is Referred to in the Paris Agreement.	81
4.2.	The Energy Sector in the Compliance Strategy of the State Parties.	84
4.3.	Effect of the Cooperative Approaches of the Paris Agreement on the Energy Sector	86
4.4.	Effect of the Support Measures of the Paris Agreement on the Energy Sector	87
4.4.1.	Climate Finance	87
4.4.2.	Technology Development and Transfer	89
4.5.	The Influence of the Paris Agreement on Energy Initiatives from Non-Party Stakeholders.	90
5.	Conclusions	91

Chapter V. The New International Energy Charter and the Rule of Law in the Global Energy Architecture

	Ernesto BONAFÉ and Natasha A GEORGIU	93
1.	Introduction	93
2.	The Rule of Law in the Energy Sector	95
2.1.	The 1991 European Energy Charter	95
2.2.	The 1994 Energy Charter Treaty (ECT)	96
2.3.	The 2015 International Energy Charter (IEC)	97
3.	Enforcement	98
3.1.	ECT Dispute Settlement Mechanism	98
3.2.	Three Landmark Cases	100
3.2.1.	Yukos (Russian Federation)	100
3.2.2.	Renewables (Spain)	101
3.2.3.	Vattenfall (Germany)	102
3.2.4.	The New Role for the ECT Case Law.	103
3.3.	The ISDS System under Review	103
4.	Enlargement.	106
4.1.	Withdrawal versus New Accessions.	106
4.2.	Asia.	107
4.3.	Africa	109
4.4.	Middle East North Africa (MENA)	111
4.5.	Latin America	112
5.	Global Energy Governance	115
5.1.	The Changing Energy Landscape.	115

5.2. The Need for an Investment Framework	117
5.3. A Call for International Cooperation	118
6. Conclusion	119

Chapter VI. The EU's Energy Challenges and TTIP

Jeffery PIPER and Jan Gerrit WESTERHOF	121
1. EU Energy Challenges	121
1.1. Energy Security	121
1.2. Energy and Climate Objectives	123
1.3. Energy Union	123
2. Energy Relations with the United States	125
2.1. Background	125
2.2. EU-US Energy Council	126
3. The Transatlantic Trade and Investment Partnership (TTIP)	129
3.1. Background	129
3.2. The July 2013 'Initial EU Position Paper'	130
3.2.1. Scope	132
3.2.2. Transparency	132
3.2.3. Market Access and Non-Discrimination	132
3.2.4. Competitiveness	133
3.2.5. Trade in Sustainable Energy	134
3.2.6. Security of Energy Supply	134
3.3. General Considerations	135
3.3.1. Market Access	135
3.3.2. Regulatory Issues and Non-Tariff Barriers	135
3.4. Specific Considerations	136
3.4.1. Export of Crude Oil	136
3.4.2. Export of Natural Gas	137
3.5. The EU Draft Proposal of July 2016	139
3.6. Specific Rules for Renewable Energy and Energy Efficiency	140
4. Conclusion	140

PART III. ENERGY INFRASTRUCTURE DEVELOPMENTS: OFFSHORE ELECTRICITY SYSTEMS AND NETWORK INVESTMENTS

Chapter VII. Can We Build It? Yes We Can: A Legal Analysis of How to Enable a Transnational Offshore Grid

Hannah Katharina MÜLLER	145
1. Introduction	145
2. A Separate Legal Framework at the Regional Level	147
2.1. Identify Beneficial Projects through a Regional Forum	147

2.2.	Apply Necessary Legal Changes.	148
2.2.1.	Clear Definition and One Responsible Party for All Transmission Infrastructure.	148
2.2.2.	Incentivize Parties to Participate	149
2.2.2.1.	Incentivizing TSO	150
2.2.2.2.	Cost-Benefit Allocation	151
2.2.2.3.	Transmission Tariffs or Public Funding.	152
2.2.2.4.	Incentivizing the Wind Farm Developer	153
2.2.3.	Operational Issues	156
2.3.	Interim Conclusion	157
3.	How to Establish a Legal Agreement between the North Sea States	157
3.1.	Relationship to UNCLOS	159
3.2.	Relationship to EU Law.	160
3.2.1.	Article 2(2) TFEU: The Principle of Pre-Emption.	160
3.2.2.	Article 4(3) TEU: The Primacy of EU Law.	161
3.2.3.	The Principle of Subsidiarity.	162
3.3.	Interim Conclusion	162
3.4.	Scope of the Regional Agreement	163
4.	Conclusion.	163

Chapter VIII. Cap and Floor Regime: The New Approach to Electricity Interconnector Regulation in Great Britain

	Lidia NIEDOSPIAL.	165
1.	Introduction	165
2.	Policy and Regulatory Background	166
2.1.	Political Support at the National and EU Level	166
2.2.	Interconnector: Common Definition but Different Implications.	167
3.	Current GB Interconnector Landscape and New Projects on the Horizon	168
3.1.	Current GB Interconnector Landscape.	168
3.2.	New Projects on the Horizon	170
3.2.1.	Cap and Floor Regime Projects	170
3.2.1.1.	The Pilot Project	171
3.2.1.2.	The First Window Projects.	172
3.2.1.3.	The Second Window Projects	172
3.2.2.	New Merchant-Exempted Projects	172
3.2.3.	Projects of Common Interest (PCIs): Other Emerging Projects.	173
4.	Cap and Floor Regime: Principles, Design and Project Assessment.	175
4.1.	Principles and Design of the Cap and Floor Regime	175
4.2.	Project Assessment under the Cap and Floor Regime	178
4.2.1.	Eligibility Criteria.	178

4.2.2.	Initial Project Assessment (IPA).....	178
4.2.3.	Final Project Assessment (FPA).....	179
4.2.4.	Post Construction Review (PCR).....	179
5.	Cap and Floor Regime: Legal Framework.....	180
5.1.	Domestic Legal Framework.....	180
5.2.	EU Legal Framework.....	183
6.	Opportunities and Challenges for Cap and Floor Regime Interconnectors at the GB and EU Level	184
6.1.	Opportunities for Cap and Floor Regime Interconnectors	184
6.2.	Challenges for Cap and Floor Regime Interconnectors	186
7.	Conclusion	189

Chapter IX. Tariffs and Energy Infrastructure Investments in the Netherlands: Past, Present and Future

	Arjan KLEINHOUT.....	191
1.	Introduction	191
2.	Background: Why Regulate Investments? Or: Why Not?.....	191
3.	History of Energy Infrastructure Investments Regulation	193
3.1.	In the Beginning: Investments in the Period Before Regulation....	193
3.2.	The 1990s: First Steps Towards Regulation.....	194
3.3.	The 2000s: Introduction of Efficiency Regulation	194
3.3.1.	How Did it Work? Functioning Principles	195
3.3.2.	Looking Back at Historic Investments: Setting the Initial Regulatory Asset Base (RAB)	195
3.3.3.	Moving Forward: New Investments.....	197
4.	Current Regulation of Energy Infrastructure Investments.....	198
4.1.	Benchmarking (Existing Costs).....	199
4.2.	New Investments	200
4.3.	New Regulatory Period 2017–21	201
5.	Future of Regulation of Energy Infrastructure Investments.....	203
5.1.	New Legislation: Situation After STROOM	203
5.2.	Assessing EU Influence	204
6.	Conclusion.....	205

Chapter X. RIIO: A New Regulatory Approach for GB Energy Networks

	Silke GOLDBERG	207
1.	Introduction	207
2.	Background	207
2.1.	The RPI-X Model	207
2.2.	Facing a Low-Carbon Future	208
2.3.	The Need for Investment.....	208

3.	The RIIO Model	209
3.1.	Three Forms of RIIO	209
3.1.1.	RIIO-T1: Gas and Electricity Transmission	209
3.1.2.	RIIO-GD1: Gas Distribution	209
3.1.3.	RIIO-ED1: Electricity Distribution	210
3.2.	Key Features of RIIO Price Control	210
3.3.	Longer-Term Thinking	210
3.4.	Transparent Rewards/Penalties Related to Output Delivery	211
3.5.	The RIIO Process	211
3.6.	Network Innovation Stimulus	212
4.	RIIO-T1 in Practice	212
4.1.	Scotland	212
4.2.	England and Wales	212
4.3.	Available Funding	213
5.	RIIO-GD1 in Practice	214
5.1.	Overall	214
5.2.	RIIO-GD1 in Figures	214
6.	RIIO-ED1 in Practice	215
6.1.	Overall	215
6.2.	Focus on Reliable Supply	215
6.3.	Innovation	216
7.	RIIO-ED1 Cases	216
7.1.	Background	216
7.2.	Appeal Cases	216
7.2.1.	Case 1: Northern Powergrid	217
7.2.2.	Case 2: British Gas Trading	217
8.	Conclusion and Outlook	218

PART IV. HEAT SUPPLY LEGISLATION IN THE EU

Chapter XI. District Heating Regulation in Sweden

Jonas SÖDERSTJERNA and Tove SKÄRBLOM

1.	Introduction	223
2.	District Heating in Sweden	223
2.1.	Historical Background	223
2.2.	History of District Heating Legislation	225
3.	The District Heating Act	226
3.1.	Introduction	226
3.2.	District Heating Companies	227
3.3.	Supervisory Authorities	228
3.3.1.	National Energy Administration	229

3.3.2.	Energy Markets Inspectorate	229
3.3.3.	District Heating Board.....	229
3.4.	District Heating Customers	230
4.	The Heat Supply Contract and Tariffs	230
4.1.	The Supply Contract	231
4.1.1.	Mandatory Content of the Contract	231
4.1.2.	Unilateral Amendment	231
4.1.3.	Obligation to Negotiate	232
4.1.4.	Mediation	232
4.1.5.	Termination.....	233
4.2.	Tariffs	234
4.2.1.	Supply and Connection Tariffs.....	234
4.2.2.	Tariff Methodologies	235
4.2.3.	The 'Price Dialogue'	236
5.	Conclusion.....	237

Chapter XII. Heat Supply in Denmark: Any Lessons to Be Learned?

Anita RØNNE	239
1. Background and Context.....	239
2. Energy Policy and Political Agreements	242
3. Organization of the Heat Supply Sector	244
4. The Regulation of Heat Supply	246
4.1. The Heat Supply Act.....	246
4.2. The Heat Planning System	248
4.3. Public Control and Possibilities for Interventions.....	250
4.4. Price Control.....	251
5. Reforms, Challenges and Future Focus of Heat Supply.....	252

Chapter XIII. The Heat is On: Developments in the Regulation of the Heat Market in the Netherlands

Robert HAFFNER and Michelle DE RIJKE.....	257
1. Introduction	257
2. The Heat Act	257
3. The Dutch Heat Market	260
4. Practical Problems and Bottlenecks of the Heat Act	263
4.1. Evaluation of the Heat Act	263
4.2. Overview of Key Issues	264
4.3. Interim Conclusion	266
5. Market Models and Tariff Regulation of Heat Networks	267
5.1. Introduction	267
5.2. Ownership.....	267

5.3.	Third Party Access (TPA)	269
5.4.	Unbundling	271
5.5.	Tariff Regulation	272
6.	Recent Developments	274
6.1.	Tariff Regulation	275
6.2.	Compensation in Case of Malfunctioning	275
6.3.	Third Party Access	275
7.	Conclusion and Final Remarks	276

PART V. SECURITY OF ENERGY SUPPLY AND SAFETY

Chapter XIV. Shale Gas and the EU

	Ruven FLEMING	281
1.	Introduction	281
2.	What is Shale Gas?	282
3.	The 2014 Shale Gas Recommendation and Communication	285
3.1.	The Evolution of Specific European Shale Gas Regulation	285
3.2.	The Legal Form	287
3.3.	The Legal Content	292
4.	Conclusion	296

Chapter XV. Reducing Gas Production from the Groningen Field: The Need to Balance Safe Production with Supply Security

	Martha M ROGGENKAMP	301
1.	Introduction	301
2.	Developing the Groningen Gas Field	302
2.1.	Policy Background	302
2.2.	The Groningen Concession	303
2.3.	Energy Market Liberalization and Changes to the Legal Framework	304
2.3.1.	Mining Act 2003	304
2.3.2.	Gas Act	306
2.4.	Assessments of the Regime Following the Earthquakes in Groningen	307
3.	Key Changes to Gas Production in Groningen	308
3.1.	Limiting Production from the Groningen Gas Field	308
3.2.	Damages Resulting from Gas Production	310
3.2.1.	Preventing Damages	310
3.2.2.	Compensation for Damages	311
3.3.	Governance	313
3.3.1.	National Coordinator Groningen	313

3.3.2.	Independent Advisor ('Ombudsman').....	314
3.3.3.	Arbitrator for Earthquake Damages	315
4.	Conclusion.....	316

Chapter XVI. Regulating Security of Energy Supply for End Consumers:

A Comparative Overview

	René VAN 'T HOFT.....	317
1.	Introduction	317
2.	EU Legal Framework	318
3.	Belgium	320
3.1.	Introduction	320
3.2.	Licence or Notification Requirements.....	321
3.3.	Supplier of Last Resort.....	322
3.4.	Balance Responsibility Issues	324
3.5.	The <i>Source Power</i> Case.....	324
4.	Germany.....	325
4.1.	Introduction	325
4.2.	Notification Requirement for Household Suppliers	326
4.3.	Prologue: The Basic Supplier (<i>Grundversorgungsunternehmen</i>) ...	326
4.4.	Supplier of Last Resort.....	328
4.4.1.	Replacement Supplier (<i>Ersatzversorger</i>)	328
4.4.2.	German Insolvency Law and Termination of Supply Contracts	329
4.5.	Balance Responsibility Issues	330
4.6.	The <i>FlexStrom</i> Case	330
5.	The Netherlands	331
5.1.	Introduction	331
5.2.	Licence and Balance Responsibility Requirements	331
5.3.	Supplier of Last Resort.....	332
5.3.1.	Licensed Suppliers Not Executing Balance Responsibility ...	332
5.3.1.1.	Household Consumers	332
5.3.1.2.	Large Consumers.....	333
5.3.2.	Licensed Suppliers Executing Their Own Balance Responsibility	334
5.3.3.	Division of the Balance Responsibility	335
5.4.	The <i>Trianel</i> Case	336
6.	The United Kingdom	337
6.1.	Introduction	337
6.2.	Licence Requirement.....	338

6.3.	Supplier of Last Resort.....	338
6.3.1.	Licence Revocation and Energy Supply Company Administration Order	338
6.3.2.	Supplier of Last Resort and Last Resort Supply Direction ..	341
6.4.	Balance Responsibility in the United Kingdom.....	342
6.5.	The <i>Electricity 4 Business</i> Case	343
7.	Some General Observations	343
