

Contents

Introduction	1
1 Calculations and modelling of mechanical systems with focus on sewing machines.....	5
2 Rotational balancing of sewing machines, polar plots application	13
3 Sewing machines flexible mounting.....	45
4 Flexible mounting of sewing machines with compliant head.....	63
5 Dynamic vibration absorber	71
6 Balancing methods	85
7 Sewing machines balancing mechanisms	117
8 VÚTS design balancing mechanism.....	123
9 Example of inertial forces reduction by thread lever lightening	135
