CONTENTS

The institute and its scientific board		V
The staff and field of work		VI
1.	INTRODUCTION	1
2.	RESERVOIRS AND LAKES	8
2.1	Dissolved and dispersed substances in reservoir water (Slapy and Římov)	8
2.2	Microbial characteristics of reservoirs Slapy and Římov	9
2.3	Autotrophic picoplankton, its composition and development in the Rímov and Slapy reservoirs and acidified lakes in Šumava Mountains	11
2.4	Relation between changes in transparency and changes in the percentage of $2000000000000000000000000000000000000$	12
2 5	Fish stock composition in the \tilde{R} (mov reservoir in 2000	17
2.6	Chemistry of acidified lakes	18
2.6.1	Natural inactivation of phosphorus by aluminium in atmospherically acidified	
	water bodies	18
2.6.2	Hysteresis in reversal of Central European mountain lakes from atmospheric	
0.00	acidification	18
2.6.3	Composition and phosphorus fractionation of sediments in the Bohemian	10
27	Futrophication trends in the Czech Republic	20
2.1	Europhication delids in the ezech Republic	20
3.	SPECIAL INVESTIGATIONS	23
3.1	P-release mechanisms in a dimictic reservoir	23
3.2	Changes in bacterial community composition, dynamics and viral mortality	
	rates associated with enhanced flagellate grazing in the Římov reservoir	25
3.3	Long-term changes in the microbial community structure in an enhanced	0.5
2.4	phosphorus removal wastewater treatment plant	25
3.4	Detection and measurement of algal extracellular phosphatase at the single-	20
3 5	Remarkable difference in the seasonal course of the cladoceran protein N	29
5.5	between Slapy and Hubenov reservoirs	29
3.6	Zoplankton and food selection in YOY fish in the Římov reservoir	31
3.7	Predatory impact of Leptodora kindtii and its ecological consequences	32
3.8	The role of phenotypic plasticity in Daphnia galeata in successful exploitation	
	of the variable environment of a long narrow dam lake	32
3.9	Feeding of roach (Rutilus rutilus) along the longitudinal profile of a canyon-	
2 10	shaped reservoir	34
3.10	Otter diet and ichthyological studies of the Upper Lužnice River	34
3.11	Evaluation and prognosis of ecosystem change based on long-term data series	22
