PART 1 Food and nutrients

- | | |
|---|----|
| 1 Food and nutrient patterns | 3 |
| <i>John Kearney and Gerda Pot</i> | |
| 2 Food and nutrient structure | 24 |
| <i>Michael H. Gordon and Yannan Jin</i> | |

PART 2 Food and nutrient structure

- | | |
|--|-----|
| 3 Food safety | 51 |
| <i>Joseph V. Rodricks and Karen L. Hulebak</i> | |
| 4 The physiology of nutrient digestion and absorption | 68 |
| <i>George Grimble</i> | |
| 5 Body size and composition | 95 |
| <i>Mario Siervo</i> | |
| 6 Energy balance and body weight regulation | 114 |
| <i>Abdul G. Dulloo and Yves Schutz</i> | |
| 7 Carbohydrate metabolism | 136 |
| <i>David A. Bender</i> | |
| 8 Fat metabolism | 161 |
| <i>Leanne Hodson and Parveen Yaqoob</i> | |
| 9 Protein metabolism and requirements | 184 |
| <i>David A. Bender and D. Joe Millward</i> | |
| 10 Alcohol metabolism: implications for nutrition and health | 216 |
| <i>Vinood B. Patel and Victor R. Preedy</i> | |

PART 3 Micronutrient function

- | | |
|--------------------------------|-----|
| 11 Water-soluble vitamins | 239 |
| <i>David A. Bender</i> | |
| 12 Fat-soluble vitamins | 266 |
| <i>David A. Bender</i> | |
| 13 Minerals and trace elements | 288 |
| <i>Paul Sharp</i> | |

PART 4 Dietary requirements for specific groups

- | | |
|---|-----|
| 14 Infancy, childhood, and adolescence | 311 |
| <i>Elizabeth M.E. Poskitt and Laura Stewart</i> | |

- | | |
|---|-----|
| 15 Pregnancy and lactation | 337 |
| <i>Victoria Hall Moran and Sian Robinson</i> | |
| 16 Ageing and older people | 356 |
| <i>Elizabeth A. Williams and Hilary J. Powers</i> | |
| 17 Vegetarian diets | 371 |
| <i>Thomas A.B. Sanders</i> | |
| 18 Dietary considerations for sport and exercise | 381 |
| <i>Luc J.C. van Loon and Wim H.M. Saris</i> | |

PART 5 Clinical nutrition

- | | |
|---|-----|
| 19 Nutrition and cardiovascular disease | 397 |
| <i>Godfrey S. Getz and Catherine A. Reardon</i> | |
| 20 Obesity | 406 |
| <i>Lesli H. Larsen, Arne Astrup and Sue D. Pedersen</i> | |
| 21 Diabetes mellitus | 424 |
| <i>Gabriele Riccardi, Brunella Capaldo and Angela A. Rivellese</i> | |
| 22 Cancers | 440 |
| <i>Kathryn E. Bradbury and Timothy J. Key</i> | |
| 23 Diseases of the gastrointestinal tract | 457 |
| <i>C.V. Oldale and J.O. Hunter</i> | |
| 24 Nutrition and the nervous system | 472 |
| <i>Sally Grantham-McGregor, Saskia Osendarp, Domenico Sergi and Lynda M. Williams</i> | |
| 25 Nutrition and the skeleton | 494 |
| <i>Margo E. Barker and Aubrey Blumsohn</i> | |
| 26 Dental disease | 510 |
| <i>Paula Moynihan</i> | |
| 27 Immune regulation, food allergies, and food intolerance | 526 |
| <i>Stephan Strobel</i> | |
| 28 Eating disorders | 551 |
| <i>Bruno Palazzo Nazar and Janet Treasure</i> | |
| 29 Deficiency diseases | 561 |
| <i>Suzanne Filteau and Chaza Akik</i> | |
| 30 Diet and epigenetics | 579 |
| <i>John C. Mathers</i> | |

PART 6 Public health nutrition

- | | |
|--|-----|
| 31 The science of epidemiology | 595 |
| <i>Annhild Mosdøl and Eric Brunner</i> | |

- 32 Nutritional assessment methods
*Christopher J. Bates, Barry Bogin
and Bridget Holmes* 613
- 33 Food supply: factors affecting production,
trade, and access 647
Marc J. Cohen

- 34 Global nutrition, policies and
interventions 665
Catherine Geissler

PART 1 Food and nutrients	
1 Food and nutrient patterns	3
John Kenney and Genta Fat	
2 Food and nutrient structure	24
Michael H. Gordon and Yarnan Jia	

PART 2 Food and nutrient structure	
3 Food safety	61
Joseph V. Rodicks and Karen L. Hultsdal	
4 The physiology of nutrient digestion and absorption	68
George Gumbel	
5 Body size and composition	92
Mario Siano	
6 Energy balance and body weight regulation	114
Abdul G. Bulloo and Yves Schutz	
7 Carbohydrate metabolism	136
David A. Bender	
8 Fat metabolism	161
Leanne Hobson and Paveen Yaqoob	
9 Protein metabolism and requirements	184
David A. Bender and G. Joe Millward	
10 Alcohol metabolism: implications for nutrition and health	216
Vinod B. Patel and Victor B. Frenay	
PART 3 Micronutrient function	
11 Water-soluble vitamins	239
David A. Bender	
12 Fat-soluble vitamins	266
David A. Bender	
13 Minerals and trace elements	288
Paul Sharp	

PART 4 Dietary requirements for specific groups	
14 Infancy, childhood, and adolescence	311
Elizabeth M.E. Poskitt and Laura Steel
