Abstract	ix
 Chapter 1 – Introduction	 1
 I <i>Predation in the agricultural landscape</i>	
Chapter 2 – Great variability in nest lining size and nest predation	25
Chapter 3 – Factors influencing the egg size, consequences for chick predation	45
Chapter 4 – Visible nest marking does not increase nest predation	65
Chapter 5 – Threats and protection of Czech meadow breeding shorebirds	77
 II <i>Interspecific interactions and anti-predatory strategies</i>	
Chapter 6 – Inter-specific nest scrape reuse in shorebirds	93
Chapter 7 – Coping with nest predation risk in a Siberian wetland	101
Chapter 8 – Beyond habitat: spatial structure of nesting wetland bird community	117
Chapter 9 – Alarmingly high nest predation at Caspian steppe lakes	153
Chapter 10 – Inter and intra specific predation among shorebirds	169
 III <i>Global perspectives on nest predation</i>	
Chapter 11 – Global patterns of nest predation in shorebirds	179
Chapter 12 – Linking population trends with species' traits and threatening factors	213
 Chapter 13 – Synthesis and future perspectives	 245
