

Table of Contents

Table of Contents	3
1. Introduction	5
2. Review	6
3. Aims of Thesis.....	7
4. Coherence-Controlled Holographic Microscopy (CCHM).....	7
4.1 Quantitative Phase Image.....	8
5. Machine Learning in QPI	8
5.1 Introduction to Machine Learning	8
5.2 Classification in QPI	9
5.2.1 Image Pre-processing.....	9
5.2.2 Feature Extraction.....	9
5.2.3 Feature Selection	11
5.2.4 Supervised Classification Algorithms	11
5.2.5 Classifier Performance Evaluation	12
6. Application of Machine Learning to Classification of Cells in QPI	12
6.1 Experiment Design.....	12
6.2 Cell Culture Techniques.....	13
6.3 Image Acquisition	13
6.4 Image Pre-processing and Feature Extraction	14
6.5 Feature Selection.....	14
6.6 Classification Results.....	15
7. Application of Machine Learning to Time-lapse QPI.....	16
7.1 Experiment Design.....	16
7.2 Epithelial–Mesenchymal Transition	17
7.3 Cell Culture Techniques.....	18
7.4 Image Acquisition	18
7.5 Image Pre-processing and Feature Extraction	19
7.5.1 Time-lapse Feature Extraction.....	20
7.6 Feature Selection.....	23
7.7 Classification Results.....	23
8. Conclusions	25
9. References	27
10. Author Publications and Other Outputs	30
