TABLE OF CONTENTS

Keynotes 19

Keynote 1: **Understanding Professionals' Learning Approaches**
By Mien Segers 21

Keynote 2: **Approaches to Learning – Contextual or Stable in Nature?**
By Sari Lindblom-Ylänne 22

Keynote 3: **Cognitive Style in the Context of Contemporary Psychology and Neuroscience**
By Maria Kozhevnikov 23

Symposia 25

Symposium 1: Understanding the Learning Process

Convener: David Gijbels

Discussiant:Sari Lindblom-Ylänne

1. The Application of Styles Research within Educational Practice
   By Carol Evans and Michael Waring 27
2. The Learning Process of Management Students Unraveled: a Longitudinal Study on the Link between Individual Learner Characteristics, Context Factors and Learning Outcomes in Management Education
   By Eva Cools, Kim Bellens and Karlien Vanderheyden 30
3. The Effects of Learning Environments on Students' Approaches to Learning. Can Students' Perceptions Offer an Explanation?
   By Marlies Baeten, Filip Dochy and Katrien Struyven 40

Symposium 2: Relationships, Reflection, and Resources: Navigating the Student Experience

Convener: Jennifer Blake

Discussiant: NN

1. Embedding Reflective Thinking on Approaches to Learning – Moving from Pilot Study to Developing Institutional Good Practice
   By Chris Edwards 48
2. "... the cognitive needs look after themselves..."
   By Jamie Thompson 55
3. Inertia and the Learning Journey: How Positioning of Resources Affects the Student Experience
   By Jennifer Blake, Valerie Wass and Louise Walmsley 57

Symposium 3: Learning in Transition: a Longitudinal Perspective

Convener: Vincent Donche

Discussiant:John Richardson

1. The Development of Learning Patterns throughout Higher Education
   By Gert Vanthournout, Vincent Donche , David Gijbels, Liesje Coertjens and Peter Van Petegem 66
2. Changes in BSc Business Administration & Psychology Students' Learning Styles over One, Two and Three Years of Study: A Longitudinal Study
   By Tine Nielsen 68
3. The Evolution in Learning Patterns during Higher Education: a Multi-Indicator Latent Growth Model
   By Liesje Coertjens, Vincent Donche, Peter Van Petegem and Sven De Maeyer 76

Paper presentations 79

Learning Styles, Motivation and Performance: Differences between Two School Levels in Dutch Secondary Education
By Wilfried Admiraal and Jose Swart 81

Gender Differences and Game-Based Learning in Secondary Education
By Wilfried Admiraal, Jantina Huizenga, Miriam Reitenbach, Sacha Rosenthal, Monique Volman and Geert Ten Dam 90

Cognitive Styles and Enquiry-Based Science Education
By Beatrice Aimi, Marina Pinelli and Dolores Rollo 97

The Role of Personal Goals in (Dis)Engagement in Adult Literacy Classes
By Efua Irene Amenyah and Isabel Raemdonck 98

The Onion Model: Myth or Reality in the Field of Individual Differences Psychology?
By Kim Bellens and Eva Cools 100

To Be Conformative or not – A Question of Style or Education? A Comparative Study of Teacher Students in Sweden and Community Education Students in Scotland.
By Lena Boström and Annette Coburn 109

Character, Communication, and the Classroom with Learning Styles
By Audra Cerruto and Marjorie Schiering 122

To group or Not to Group: a Response to Individual Differences in Learning Seen Through the Eyes of the Students
By Zarina M. Charlesworth 131

Do Cognitive Styles Matter? A Four-Decade Review in the Field of Management and Work and Organisational Psychology
By Eva Cools 136

On the Efficiency of Non-Linear Didactics. Connecting Learning Profiles to Teaching Methods
By Gustaaf Cornelis 145

Linking Supervisor Coaching Behavior to Follower State Goal Orientation: A Moderated Mediation Study
By Tina Davidson and Katheen De Stobbeleir 150

Training Older Employees: Are They Really so Different?
By Shari De Baets and Veronique Warmoes 163

Towards a New Model for Learning Behavior with Streaming Video
By Jelle De Boer, Bert De Brock and Piet Kommers 171

Commitment to Change Unravelled: An Individual Differences Perspective
By Jana Deprez, Herman Van den Broeck, Eva Cools and Dave Bouckenooghe 178

Basic Need Support, Achievement Goals, Life Satisfaction and Academic Achievement in the Transition between Final Elementary School and High School
By Åge Diseth 187

Study Time and Academic Performance: A Conditional Relation?
By Sarah Doumen, Jan Broeckmans and Chris Masui 188

Validation of a Thai Version of Vermunt's Inventory of Learning Styles
By Mina Eaves 190

An Emerging Framework on Student Teachers' Learning Orientations in School-Based Teacher Education Programmes: The Influence of Personal, Contextual and Time-Related Factors
By Maaike Endedijk and Vincent Donche 200

University Students' Learning Styles and Academic Performance: A Case of Language Learners
By Muhammad Shahid Farooq and Jean-Claude Régnier 201

Dysfunctional vs. Functional Difficulties: a New Perspective on Learning Disabilities
By Maria Gonçalves 219

Experiential Learning Styles in Engineering: Similarities and Differences in Diverse Degrees
By Rosa María Gonzáles-Tirados 227

How does Personal Motivation Influence Teacher Burn-Out?
By Zhongtai Hou, Chang Zhu, Di Wang,Yonghong Cai and Nadine Engels 236

Measuring Teachers' Conceptions on Learning and Teaching in Student-Centred Medical Curricula
By Johanna Jacobs, Scheltus Van Luijk, Henk Van Berkel, Cees Van der Vleuten, Gerda Croiset and Fedde Scheele 245

Making Sense of Marketing Students' Professional Identity Construction through Multidisciplinary Project Course
By Minna-Maarit Jaskari 247

Adoption of Web 2.0 and Mobility Technology in a Multicultural Population of Hospitality and Leisure Students: Search for Empirical Evidence for a Blended Learning Framework
By Claudette John, Ian Jenkins and Elizabeth Delbreil 255

Preliminary Investigations of Primary Pre-Service Teachers Professional Problem Solving Styles
By: Walifa Karim, Mike Watts and Rob Roplis 267

Learning Patterns and Study Success of Bachelor of Pharmacy Students
By Andries Koster 276

The Future Evolution of Mobile Devices and Consequent Implications for Learning Environments, Enterprise and Academy
By Seán Lane and James Redmond 277

Learning Style Differences of Middle Eastern Students in Qatar and Faculty from Canada
By Tracey Lemke-Westcott, Brad Johnson and Buthaina Al Naqeeb 286

Effects of Prior Achievement, Mastery Orientation, Need for Cognition, and Self-efficacy on Achievement in Mathematics
By Matthew G. Mandelbaum 288

Validation of a German Version of the Epistemological Belief Inventory (EBI)
By: Björn Mokwinski, Karin Rebmann, Yvonne Hanekamp, Manuela Paechter and Daniel Macher 299

The Learning Styles of University Students at Admittance. Do they Differ Dependent on Choice of Study Programme?
By Tine Nielsen 301

Exploring Teaching Conceptions and Questioning Inventions of University Teachers
By Helena Pedrosa de Jesus and Betina Silva Lopes 309

Understanding Occupational Expertise of Employees Working in Finance and in Health Care. Taking Account of Career Phase, Self-Directed Learning Orientation, and Job Characteristics
By Isabel Raemdock, Harm Tillema, Caroline Van der Wal and Anneloes de Kok 320

How Learning Styles of the Human Nervous System Connects Science and Technology and Art and the Humanities
By Allen Rauch 322

Field Independence: A Critique and a Reinterpretation
By John Richardson 328

Coherence between Learning Conceptions and Final School Results in Primary Education
By Eric Robbers, Peter Van Petegem, Vincent Donche and Sven De Maeyer 330

The Future Impact of Social Networking Sites on Learning and Training in the Enterprise
By Michael Roche and James Redmond 332

The Inservice-Teacher-Training in Flemish Schools: Practice Makes a (More) Perfect Teacher?
By Iris Snoeck, Elke Struyf and Mathea Simons 345

Cultural Differences on Cognitive Style - A COSI Study
By Shirley Thomas, Wim Gijselaers and Mien Segers 354

Initiating Practitioner Research into Self-Organising Learning Approaches
By Ernst Thoutenhoofd and Marieke van Roy 356

Means and Variances: The Underestimated Importance of Variances Illustrated in a Study on the Effect of Learning Strategies.
By Huub van den Bergh and Sven De Maeyer 363

Modelling across the Disciplines in Simulated Workplaces in Schools
By Martijn Van Schaik, Jan Terwel and Bert Van Oers 364

Cognitive Style and Personality Trait Diversity in Dyads: How to Optimize the Cooperation
By Karlien Vanderheyden, Eva Cools and Shari De Baets 379

The Relationship between Academic Motivation, Learning Strategies and First Year Student's Study Persistence and Study-Progress in a Professional Bachelor Program
By Gert Vanthournout, Vincent Donche, David Gijbels, Liesje Coertjens and Peter Van Petegem 387

Do Financial Experts Think Alike and Does this Lead to Higher Job Satisfaction? An Examination of Cognitive (Mis)Fit in Finance
By Jasmijn Verbrigghe, Herman Van den Broeck and Eva Cools 389

A New Model of Entrepreneurial Behavior: Early Predictors of Entrepreneurial Competencies and the Impact of Entrepreneurship Education
By Jacob Vermeire, Jan Lepoutre and Eva Cools 397

Visualising Styles in N-Dimensional Spaces
By Lorenzo Vigentini 405

What Core Competencies are Needed for Teachers' Innovative Teaching?
By: Di Wang, Chang Zhu, Zhongtai Hou and Nadine Engels 422

Prospective Teachers' Cognitive Styles and Ability in Geometry Tasks of Axial Reflection
By Xenia Xistouri and Demetra Pitta-Pantazi 433

Impact of Learning Styles on Learning-Skill Development in Higher Education
By Yoshitaka Yamazaki 441

Students' and Teachers' Thinking Styles and Preferred Teacher Interpersonal Behaviour: Convergence or Divergence?
By Chang Zhu, Di Wang and Zhongtai Hou 444

Posters **453**

Organisational Learning and Development - Paradigm Shift from Classroom to Virtual Environments
By Alison Bulbeck 454

Motivation, Learning Environment and Risky Profiles in First Year at the University: Development of an Integrative Understanding of Academic Achievement through the Investigation of these Constructs.
By Mikaël De Clercq 456

Bridging the Gap between Master Studies in Communication and the Labour Market through Work-Based Learning and the Development of Career Competences: a Competence-Maturation-Model
By Katty Elias 458

Learning Mode of Histrionic and Obsessive-Compulsive Personality Disorders
By Gilles Fortin and Judith Malette 460

Design-Based Research Focusing on the Influence of a Pedagogical Three-Field Methodology in Students' Learning Outcomes
By: Stephen Hargreaves, Johnny De Brucker and Willy Belmans 463

The Impact of Dyslexia on Learning and Creativity in the Visual Arts
By Katherine Hewlett 470

The Role of Educational Places to the Construction of Business Students' Professional Identity
By Minna-Maarit Jaskari 472

Looking at Learning Approaches from the Angle of Student Profiles
By Eva Kyndt, Katrien Struyven and Filip Dochy 475

Approaches to Teaching in Vocational Adult Education. Validation through a Multi-Method Design
By Jessica Leppens 477

Explicit Teaching of Reading Strategies: Its Effects on Reading Comprehension and Motivation in English for Legal Purposes Course
By Ivana Lukica 479

Acceptance and Use of a Performance Assessment Scoring System for Problem-Based Learning in Higher Education
By Paul Hubert Vossen 482

The Making of Hospitality Managers
By Beverley Wilson-Wünsch 483

Good Practices **487**

Encouraging Greater Resilience and Independence in Learners
By Gloria Banner, Frank Pearson and Stuart Wilson 489

Integrating Research and Practice. How Research Instruments Can Be Used as Incentives for Improving Student Teachers' Professional Learning
By Maaike Endedijk 491

Guidance for Independent Learning in Teacher Education through 'Supervision'
By Wil Meeus and Iris Snoeck 492

Adult Learners, Blended Learning and the Home Care Sector: A Winning Combination
By Kees Meijer and Joke Van Opzeeland 493

Learning Trajectory Coaching in a Teacher Training Program
By Geert Speltincx, Renilt Mertens and Gert Vanthournout 501

Lemo on Goleweb: an Educational Instrument to Enhance Students' Learning Competences
By Herman Van de Mosselaer, Peter David and Nick Jansen 503

Recognising Informal and Non-Formal Learning - A New Higher Education Requiring New Pedagogic Skills?
By Anita Walsh 505
