

# Contents

1	Demography in a New Key: A Theory of Population Theory . . . . .	3
1.1	Introduction . . . . .	3
1.2	Some Demographic Models Revisited . . . . .	9
1.3	Demography Reconsidered . . . . .	13
1.4	Conclusion . . . . .	16
	References . . . . .	18
2	Data, Models, Theory and Reality: The Structure of Demographic Knowledge . . . . .	21
2.1	Introduction . . . . .	21
2.2	The Methodology of Ansley J. Coale . . . . .	23
2.3	Nathan Keyfitz on the Fruitfulness of Abstract Modelling . . . . .	29
2.4	A Model-Based View of Science . . . . .	30
2.5	Elements of Science . . . . .	34
2.6	Assessing Scientific Knowledge . . . . .	37
2.7	Coda: On the Dangers of Dichotomies . . . . .	39
	References . . . . .	41
3	Computer Modeling of Theory: Explanation for the Twenty-First Century . . . . .	43
3.1	Introduction . . . . .	43
3.2	Explanation as Logical Inference . . . . .	47
3.3	The Origins of Theoretical Ideas Are Irrelevant . . . . .	51
3.4	Towards More Complexity . . . . .	52
3.5	Manipulating Complex Systems . . . . .	54
3.6	Relating Theoretical Models to the Real World . . . . .	55
3.7	Concluding Comment . . . . .	62
	References . . . . .	63

<b>4 Computer Simulation and Statistical Modeling: Rivals or Complements? . . . . .</b>	<b>67</b>
4.1 Introduction . . . . .	67
4.2 Analytic Tools and Their Disparate Uses . . . . .	68
4.3 Modeling Data and Modeling Ideas About the Real World . . . . .	71
4.4 Hybrids and Mixed Forms: Revisiting the Dichotomies . . . . .	73
4.5 Concluding Comments . . . . .	74
References . . . . .	75
<b>5 Does Demography Need Differential Equations? . . . . .</b>	<b>79</b>
5.1 Introduction . . . . .	79
5.2 Predator-Prey and Other Differential Equations in Demographic Literature . . . . .	81
5.3 Lotka's Patrimony . . . . .	82
5.4 Lotka the Human Demographer . . . . .	84
5.5 Lotka the Theorist . . . . .	84
5.6 Abbot on Coleman vs. Blalock . . . . .	86
5.7 Systems Dynamics Software . . . . .	88
5.8 Concluding Comment . . . . .	92
References . . . . .	93

## Part II Some Demographic Models Re-visited

<b>6 Theory, Computers and the Parameterization of Demographic Behavior . . . . .</b>	<b>97</b>
6.1 Introduction . . . . .	97
6.2 The Coale-McNeil Model . . . . .	98
6.3 The Hernes Model . . . . .	99
6.4 Canonization Versus Relative Neglect . . . . .	100
6.5 The Sociology of Demography . . . . .	103
6.6 Afterthoughts and Updates . . . . .	107
References . . . . .	109
<b>7 Estimating the Goodman, Keyfitz and Pullum Kinship Equations: An Alternative Procedure . . . . .</b>	<b>111</b>
7.1 Introduction . . . . .	111
7.2 Estimating Kin Numbers . . . . .	115
7.3 Discussion . . . . .	115
References . . . . .	119
<b>8 The Life Table as a Theoretical Model . . . . .</b>	<b>121</b>
8.1 Introduction . . . . .	121
8.2 Another Perspective on Life Tables . . . . .	122
8.3 From Measurement to Simulation . . . . .	123
8.4 Modeling as Theory . . . . .	125
References . . . . .	127
